

Article 9 (TRANSPARENCY)

The CFs have been informed that the groups of Parties working on Article 9.1 would prefer to present their work to the Transparency Spin Off Group verbally at our next session instead of posting it online without prior explanation. Attached is the proposal from the CFs on Article 9.2, submitted for Parties' consideration. The CFs note that this too will require some explanation and this will be provided at the beginning of the next session also.

Text as contained in the transparency section of the draft agreement and draft decision on workstreams 1 and 2 of the Ad Hoc Working Group on the Durban Platform for Enhanced Action (version 20 October 2015@13:30hrs)	A bridging proposal from the Co-facilitators
<p><i>{Merge 9.2 and 9.3 under one chapeau}</i></p> <p>2. The purpose of the [system for] transparency [system] of action [and support] is to:</p> <ul style="list-style-type: none"> (a) Provide the clearest possible understanding of the emissions and removals of individual Parties and of global aggregate net emissions in the light of the global temperature goal; (a bis) Provide the clearest possible understanding of progress of individual Parties' actions, regional actions and global actions on adaptation to the impacts of climate change, in the light of the global temperature goal; (b) Option1: Ensure clarity and tracking of progress made in implementing and achieving individual Parties' respective [nationally determined] mitigation [contributions][commitments][other] under Article 3, as well as tracking progress in implementing adaptation actions under Article 4 to achieve the global adaptation goal; Option 2: Ensure clarity and tracking of progress made in implementing and achieving individual Parties' nationally determined mitigation [contributions][commitments][other] under Article 3, as well as sharing information, lessons learned and good practice on adaptation, including on progress in implementing adaptation actions under Article 4; Option 3: Provide clear understanding of climate change actions in the light of the objective as set by Article 2 of this Agreement and consistent with the principles and commitments of Articles 3 and 4 of the Convention;] (c) Enable an assessment of whether mitigation commitments have been achieved; (d) Promote comparability among developed country Parties. 	<p>2. The purpose of the system for transparency of action [and support] is to:</p> <p><i>Option 1:</i></p> <ul style="list-style-type: none"> (a) Provide clearest possible understanding of the emissions and removals of individual Parties; (b) Facilitate understanding of global aggregate net emissions [in the light of <i>{refer to the objective of the stocktake under Article 10}</i>][under Article 10]; (c) Ensure clarity and tracking of progress made in implementing and achieving individual Parties' actions under Article 3[, and enable an assessment of whether mitigation commitments have been achieved]; (d) Provide clearest possible understanding of progress made in implementing and achieving individual Parties' actions under Article 4[, and other regional and global actions on adaptation in the light of the global temperature goal]; <p>[(d) Promote comparability among developed country Parties.]</p> <p><i>Option 2:</i></p> <p>Provide clear understanding of climate change actions in the light of the objective as set by Article 2 [and others Article?] of this Agreement and consistent with the principles and commitments of Articles 3 and 4 of the Convention.</p>
