### **Television Coverage**

Pool coverage of the proceedings in Plenaries 1 and 2 and from press conferences is being provided by KBC. This coverage is available for local and overseas television and radio broadcasters free of charge (copy right-free).

Due to practical considerations it is generally not possible for individual television crews to record proceedings in Plenaries 1 and 2. There are, however, limited possibilities throughout the Conference and, in particular, during the high-level segment, for individual television crews to record plenary statements by the representative of their home country.

**Please note: Prior arrangements for unilateral coverage should be made with the UNFCCC TV/Radio Coordination Officer (Mr. Tim Davis, mobile: 0722 824 563).**

Television crews are invited to record their own coverage of press conferences in the press conference room (Room Nyati) in the Media Tent. An audio feed will be available from XLR distribution units to television and radio journalists on a first-come-first-served basis.

For international broadcast feeds, a stand-up position will be provided by Globecast Africa. A separate stand-up interview position is established outside Plenary 1. It is encouraged that all broadcasters utilize this area for interviews.

### **Radio Coverage**

Audio feeds in English and in the original/floor language are available from XLR distribution units in Plenary 1, in the press area and in the press conference room. For other radio services, including the use of a small radio studio, please contact KBC in the International Broadcast Centre (Media Tent), Mr. George Kanyi, KBC, mobile: 0722 634 146.

### **Photo Coverage**

Photo opportunities will be provided for still photographers and television on the floor of Plenary 1 prior to the opening of COP12/MOP2 on 6 November (9.30 – 10.00 am) as well as prior to other meetings, in particular, during the high-level segment of the Conference.

Requests for non-flash photo access to the floor while the plenary meetings are in session, will be dealt with on an *ad hoc* basis by an on-scene information officer. (Please contact the UNFCCC TV/Radio Coordination Officer, Mr. Tim Davis, mobile: 0722 824 563.)

**Please note: If you wish to take photographs or film outside the conference venue, a permission is needed. This can be pursued at a cost of 4,000 Ksh at UNON. (For further information contact Ms. Tine Lund, mobile: 0721 552 639.**

## **Press Conferences/Briefings**

Regular press briefings by the United Nations, by national delegations, intergovernmental organizations and non-governmental organizations representing environmental and business interest groups will be held at the press conference room, located in the Media Tent (Room Nyati).

**A press conference by the newly elected President of COP12/MOP2 and the UNFCCC Executive Secretary is scheduled for Monday, 6 November, at 1:15 p.m.**

A larger number of briefings is expected when Ministers arrive for the high-level segment of the Conference (15-16 November). Briefings will normally be limited to 30 minutes.

**Please note: While regular press briefings will be included in the Daily Programme, many other briefings will be announced on short notice on the CCTV programme monitors only.**

## **Interviews**

The office of the Conference Spokesperson will assist journalists, upon request, in contacting delegates for arranging interviews. Requests for interviews with the UNFCCC Executive Secretary should also be addressed to the Conference Spokesperson.

## **Live and On-Demand Streaming on Internet**

Negotiations and many other events can be followed live and on-demand through the conference network. Official meetings, special workshops, as well as press conferences will as well be available on demand from the public website: [unfccc.int](http://unfccc.int).

A comprehensive web index provides ready access to information on recorded events. Each recording is classified by date, agenda item and type of meeting. Audio/video on-demand archives will be delivered where possible in the original language and in English. A timetable, [meetings listing](#), is automatically generated and posted to the website throughout the day to provide information on additions or changes in the programme schedule.

## **Side events**

130 side events and some 70 exhibits will take place during COP12/MOP2. Side events will normally be held between 1-3 p.m. and 6-8 p.m. from Monday, 6 November through Friday, 17 November, except for Sunday, 12 November. For details, please see the Daily Programme of the Conference.
