OVERALL INFORMATION

Registration

Presenters and other participants at side events and/or exhibits must be registered through a Party or an admitted observer organization and in possession of a conference badge in order to access the conference venue.

Locations

Side event rooms as well as the exhibit area are located in Hall H of Bella Center. Please consult the floor plan for the exact locations of exhibit booths.

Meeting schedule

For details on individual meetings, venues and other activities please consult the web schedule, the Daily Programme, the CCTV monitors or the notice boards. Last minute changes can only be shown on the CCTV.

Daily Programme

The Daily Programme is available at the Documents Distribution Counter located on the ground floor of Hall B and on the UNFCCC website. The Daily Programme provides detailed information on all scheduled meetings of the Convention bodies, meetings of other groups, side events, and announcements relevant to the conference.

In addition to the Daily Programme, all official documents and the list of participants are available at the Documents Counter. UNFCCC documents are also available on the UNFCCC website.

Pigeonholes

Pigeonholes for Parties and intergovernmental organizations are located next to the Documents Distribution Counter on the ground floor of Hall B. Limited types of documents and formal invitation cards that are clearly attributed to a Party or an admitted organization can be authorized for distribution. Please contact Ms. Megumi Endo, Observer Organizations Liaison Officer at the office of Conference Affairs Services on the first floor of Hall B4.

ENBOTS/Webcast

Coverage of events and photographs may be found on the “ENB on the Side” website, which is accessible through the UNFCCC website. Webcasts of a limited number of events may also be found on the UNFCCC website under “Meetings”.

OPENING RECEPTION

A welcoming reception hosted by the City of Copenhagen will take place at the City Hall on Monday, 7 December, from 7 p.m. to 9 p.m. Dedicated buses will depart from outside the Bella Center, close to the Metro station. Further information on social events hosted by the Government of Denmark during the high-level segment will be made available on the CCTV monitors and in the Daily Programme.

OBSERVER ORGANIZATIONS LIAISON TEAM

The Observer Organizations Liaison team will be located in the office of the Conference Affairs Services on the first floor of Hall B4 as well as in the Side Events and Exhibits Coordination Office in Hall H.

SIDE EVENTS

The side event programme for COP15/CMP 5 contains more than 250 events focused on major issues in the Convention process. These will take place in side event rooms located in Hall H. For a breakdown of the side events by theme, date and organizer, please see our web schedule at:

http://regserver.unfccc.int/seors/reports/events_list.html?session_id=COP15.

Make your presentations available to a global audience

An upload facility is available for all side event organizers in the online registration system, which is accessible through the personal account. Draft agendas may be posted in advance to inform potential participants. In order to share your presentation files with participants after your side event, you may upload the files using this facility and inform your participants to refer to this. Changes can be made by replacing or deleting the existing files. Please note that individual files should not exceed 4 megabytes, but you can upload as many files as needed.

THE UNITED NATIONS SYSTEM AT THE FOREFRONT OF EFFORTS TO ADDRESS CLIMATE CHANGE

As a unique international mechanism with universal membership that combines convening power, normative work, standard-setting, policy development and operational activities, the United Nations system in its entirety has embarked on an action-oriented and coordinated effort to support the international community in addressing the climate change challenge.

Through close coordination of all relevant agencies, a clear framework for action has been established with priority areas for the achievement of early results. Agencies contribute on the basis of their respective areas of expertise, mandates issued by their governing bodies and resources made available to them. The overall objective is to maximize existing

synergies, eliminate duplication and overlap, and optimize the impact of the collective efforts of the United Nations system.

The breadth and unity of United Nations system activities are reflected in 20 side events at the COP15/CMP 5. Each of these events has a thematic focus and involves a number of agencies, which come together to present their work under the same theme.

The side events presented by the United Nations system cover a wide range of issues. The common thread is that the United Nations system stands ready to support action at all levels, from global to regional, national and local, given the urgent need to accelerate action on adaptation and mitigation, including through technology transfer, finance and capacity-building.

*, ** Provisionally admitted observer organizations in time for SB 30 and COP15 respectively, pending final decision at COP15.

“...inSide climate change” SOLUTIONS

The “...inSide climate change” Solutions is an exciting new initiative whereby selected Parties and observer organizations will have the opportunity to be interviewed at the central walk-through area by a professional journalist on their actions, solutions, and/or observations on climate change. All interviews will be filmed, edited and broadcast on RTTC Climate Change TV, the world’s first Internet broadcaster dedicated entirely to climate change issues (www.climate-change.tv). Interviews will be catalogued in a fully searchable database alongside other interviews with world leaders, expert observers, decision makers and activists in the international climate change debate.

→ **Location:**

Central Hall E – lounge and walk-through area

The latest schedule for side events and “...inSide climate change” Solutions can be viewed on the UNFCCC website and is also included in the Daily Programme.

→ For more information, or to request an interview, please contact:

Ms. Sharon Taylor
Tel: +45 50 77 36 33
STaylor@unfccc.int

!

Interview preference will be given to those observer organizations that did not obtain a side event slot at COP15, but others are invited to apply. Once your application is accepted, the content of your interview will be discussed and there will be time to meet briefly with the journalist to fine-tune the interview before shooting.

iSeeT EXHIBIT AT THE CLIMATE CHANGE KIOSK

The 2009 exhibition of the UNFCCC secretariat is focused on how information and communication technologies (ICTs) are helping to increase awareness and to support concrete action on climate change in both developing and developed countries.

The exhibition tells stories about current ICT-related projects undertaken by governments, United Nations and other intergovernmental organizations, nongovernmental organizations and media organizations on their own or with private sector partners. Among the over 100 contributing governments, United Nations and NGO institutions and organizations is the International Telecommunications Union (ITU) that has prepared a special programme of daily “business talks” by leaders in the ICT sector from both developing and developed countries.

iSeeT at the kiosk will be in operation from 7-18 December from 10 a.m. to 8 p.m. each day. Demonstrations take place in 4 thematic areas focused on ICTs for decision-making, outreach, collaboration and capacity building. Presentations will complement the programme both on-site and off-site using “TelePresence” technology in a central area. This exhibition is made possible through the support and cooperation of the government of Denmark and its COP15 sponsor, Cisco Systems, Inc.

→ **Location:**

Central Hall E – lounge and walk-through area

EXHIBITS

The exhibition area at COP15/CMP 5 includes a great variety of more than 200 exhibits from Parties and observer organizations to the Convention. All exhibits will be located in Hall H and will take place throughout the conference.

UNFCCC EXHIBITS

CDM Changing Lives

UNFCCC/CDM photo and video contests 2009: The Kyoto Protocol's clean development mechanism is stimulating sustainable development and reducing GHG emissions in 58 countries. The Changing Lives

booth showcases striking images and captivating video clips – submitted to the 2009 CDM photo and video contest – that illustrate how CDM projects are changing lives for the better.

Growing Together in a Changing Climate

The booth, hosted by the UNFCCC-led United Nations Joint Initiative on Children, Youth and Climate Change, presents a dynamic daily programme of videos and talks and displays recent publications, educational materials and initiatives from children, young people, United Nations agencies, NGOs and IGOs.

“...inSide climate change” PUBLICATIONS COUNTER

Publications clearly attributed to a Party or an admitted organization can be distributed and displayed at the “...inSide climate change” Publications Counter after approval. Please provide a sample to the Observer Organizations Liaison Team, located in Hall H. The counter cannot manage large volumes, but will assist in changing the range of documents. Organizers of exhibits are requested to display and distribute documents at their exhibit booths. Side event advertisements and invitations can be posted on the side event poster boards located throughout the conference venue.

Documents deposited elsewhere or not attributed will be removed.

OBSERVER ORGANIZATIONS

NGO CONSTITUENCIES

The nine major groups identified as stakeholders in Agenda 21, the comprehensive plan of action for the Rio Declaration, are recognized as constituencies in the UNFCCC negotiation process. Plenary interventions, time permitting, are made per constituency, and their focal points interact with the secretariat as channels of communications with vast groups of constituents. These are: the business and industry non-governmental organizations (BINGO); the environmental non-governmental organizations (ENGO); the indigenous peoples organizations (IPO); the farmers non-governmental organizations (Farmers)*; the local government and municipal authorities (LGMA); the research and independent non-governmental organizations (RINGO); the trade unions non-governmental organizations (TUNGO); the women and gender non-governmental organizations (Women and Gender)* and the youth non-governmental organizations (YOUNGO)*.

OFFICES, MEETING ROOMS AND DAILY MEETINGS

BINGO, ENGO, Farmers*, IPO, LGMA, RINGO, TUNGO and Women and Gender* constituencies have office located in Hall H. The office of the YOUNGO* constituency is located at the south end of Hall C6. BINGO and ENGO constituencies have dedicated meeting rooms that are located next to the NGO press briefing room in Hall H. Constituency daily meetings are also announced in the Daily Programme and on CCTV. The organizer must coordinate with the caterer to ensure that *all food and drinks are served after side events and is set up outside the rooms*. It is the responsibility of the organizer to ensure that side event rooms and their surrounding areas are left in an appropriate state for the next meeting.

Food and drinks are not permitted in the side event rooms! Thank you for your cooperation.

GREENING COP15

All organizers of side events and exhibits are encouraged to help making COP15 as sustainable as possible within the given conditions.

Minimise your waste and recycle

Folders and brochures are often left behind at the conference site. Please use internet for communication to the highest degree possible in order to avoid waste from paper and brochures. UNFCCC's side events and exhibits online system allows the organizers to upload electronic files of flyers, brochures and presentations. If you have any waste – please use Bella Center's waste management system.

Enjoy healthy food

Sustainability is one of the main focal points when it comes to providing adequate and satisfactory catering at COP15. Besides ensuring healthy, tasty, and reasonably priced food, Denmark has chosen to guarantee a minimum of 65% organic food and beverages at the conference – also including fair-trade products such as coffee and tea. Make a healthy and green choice when buying food. Vegetables are more sustainable and environmentally friendly than meat.

Enjoy fresh water for free

The quality of water from all taps in Denmark and Sweden matches at minimum the standard of bottled water – in fact, it is better. By drinking tap water you help to reduce waste from empty bottles and save energy used for production and transportation. Last but not least, it will save you money. Refill your bottle at the tap or any tap water station at Bella Center.

Any questions about sustainability?

Ask the Green Team!

Do you have questions or comments concerning COP15's sustainable organization? We – employees of the Danish Ministry of the Environment and the Ministry of Climate and Energy – would like to hear your comments and questions. Please feel free to contact any member of the COP15 Green Team present at Bella Center. They are easily recognizable – wearing the official COP15 Green Team polo-shirts.
