

SBSTA Chair's speaking notes
Informal stocktaking plenary
Plenary 2 – 1800 hrs, 30 November 2012

- SBSTA is still on-track to close **as planned** tomorrow afternoon (Saturday);
- Parties are **working hard** to finalise their work to ensure the successful delivery of SBSTA work here in Doha;
- Items **already concluded** include Response Measures and CCS;
- Other important work **making good progress** includes that on REDD, Agriculture, 578, RSO, Technology, and 'Reporting';
- We have also **held in-session workshop forums** on Response Measures together with our SBI colleagues covering three areas of the eight work areas in total. The mood from Parties was extremely good and results positive;
- Some groups are **scheduled** to meet this evening to continue working on text and finalizing their drafts and I expect that more items will conclude today;
- I have been **working closely** with the co-chairs of all negotiating groups and would like to thank them and all Parties for their support and hard work.
