

RTCC COP22 events

TUESDAY 8 NOVEMBER

RTCC + Agrobanco, 10.00-11.30, WBCSD

Financing National Climate Plans: Latin American and African Lessons

Billions of dollars are required to build green energy and climate resilient infrastructure across the world, but so far investment flows resemble a trickle. This event will see top finance officers from development banks and other emerging economies discuss potential pathways for green growth on both continents including how banks can work successfully with small communities

Speakers:

Introduction - Ministry of Environment of Peru (MINAM)

Richard Hale, Chairman, Agrobanco

Henderson Rengifo Hualinga, President, AIDSESP (Native Community Association)

Anthony Nyong, Manager Compliance and Safeguards Division, African development Bank

Panel Discussion, Q&A

RTCC + Agrobanco, 11.30-13.00, WBCSD

The Role of Banks in Implementing National Climate Plans

National and development banks have a critical role in capacity building, technical support and driving green funds to mitigation and adaptation projects. This session will explore how leading finance institutions are aligning themselves with the Paris Agreement and how developing countries can better access support.

Speakers:

Ministry of Environment of Peru (MINAM)

Dalia Abdel Kader, Ph.D. Director of Marketing, Communications & Sustainability Sector, Arab African International Bank (AAIB)

Amal-Lee Amin Division Chief-Climate Change Division, Inter-American Development Bank (IADB) -

Carolina Cortés: CEO, Environment and Climate Change, Latin American development Bank (CAF)

RTCC + WBCSD, 14.30-16.00

Private sector climate leadership forum: funding, strategies and opportunities

Hundreds of businesses and investors are coalescing around the low carbon agenda as the impacts of the Paris Agreement start to resonate around the world. This event will hear why leading multinationals including Philips Lighting, Akzo Nobel and ACWA believe green growth is an opportunity, and offer the chance for audience members to learn more from top industry practitioners in a workshop environment.
