

SBSTA 43 approach

State of play based on informal consultations and feedback received from Parties

I am pleased to inform all Parties that feedback on my suggested approach was received from two groups and four Parties, which expressed support for efforts undertaken and raised questions on organizational, procedural and substantive issues. I would like to express my appreciation for that input and encourage other Parties and groups to come forward with their input as soon as possible. Related questions will be further addressed at my pre-sessional meetings with groups on the premises of UNESCO, from 26 to 28 November. I would like to thank all of you for your cooperation, trust and support. Together with Amena Yauvoli, SBI Chair, I look forward to meeting you again in Paris. Lidia Wojtal, SBSTA Chair
