

CHILE SBSTA

Like Singapore,

We would like to express our support to the work of ICAO and IMO on this important issue of CO2 emissions reduction .

Indeed, with their work , they make it clear that they are the right fora for technical discussions.

MBM, when applied, should be part of a broader basket of measures designed to reduce industry emissions as a whole.

To end, regarding the use of the revenues resulting for the application of MBM in civil aviation, we believe those revenues should feedback into the civil aviation sector.

Thank you.
