
SUBMISSION BY LITHUANIA AND THE EUROPEAN COMMISSION ON BEHALF OF THE EUROPEAN UNION AND ITS MEMBER STATES

Subject: Implications of the implementation of decisions 2/CMP.7 to 4/CMP.7 and 1/CMP.8 on the previous decisions on methodological issues related to the Kyoto Protocol including those relating to Articles 5, 7 and 8 of the Kyoto Protocol

Complement to the EU Submission of 30 September 2013

Vilnius, 13 November 2013

This submission complements the views expressed in the EU submission of 30 September 2013 under SBSTA agenda item 12(a) (Implications of the implementation of decisions 2/CMP.7 to 4/CMP.7 and 1/CMP.8 on the previous decisions on methodological issues related to the Kyoto Protocol including those relating to Articles 5, 7 and 8 of the Kyoto Protocol) in relation to reporting guidance for LULUCF activities under the Kyoto Protocol, in particular CRF tables. In the above-mentioned submission, the EU included views on proposed amendments to the CRF tables for LULUCF activities under the Kyoto Protocol which will result in an amendment to decision 6/CMP.3.

As the IPCC supplement for KP LULUCF activities as well as the IPCC supplement on wetlands had not yet been adopted by the IPCC, the EU noted in its submission 30 September that these views were initial and may change or be further developed based on the final IPCC guidance and its ongoing consideration by the EU.

The EU also noted that it had not been able to complete its consideration on CRF reporting tables for KP LULUCF activities related to the reporting on natural disturbances. This submission includes a proposal for reporting tables on natural disturbances to facilitate the discussions and further development under SBSTA.
