

## GUIDING QUESTIONS FOR ALL SCENARIOS

- In the light of their discussions on the following questions, participants are invited to reflect on whether issues described in the scenarios are **best addressed by the Committee** or would be **better considered and dealt with through other means**.
- What would be **effective and appropriate ways** to bring the issue to the attention of the **Committee**?
- What **information** would the Committee need in order to **consider the matter** and **arrive at any conclusions** or **propose any steps/measures**? How would it **get** this information?
- What **specific engagement** with the **Party concerned** could be most **useful and effective**? How would the Committee go about it?
- What would be the **appropriate ways** for the Committee to consider the **national capabilities and circumstances** affecting the implementation/compliance issue of the Party/Parties concerned and what would be the **measures or outputs** the Committee could elaborate/put forward?
- Which **other arrangements/bodies** under the Paris Agreement may be concerned with the issue? How does the Committee **interact** with these bodies?
- What **appropriate measures or steps** could the Committee take to address the issue in question? Is there any **particular sequence** to such measures and if so, what would be most **useful and practical**?
- How could the Committee **follow up** on the issue and measures/steps taken?
- How may any **principles**, such as flexibility and differentiation, be operationalized in the context of this scenario?
