Abbreviations CRF: common reporting format NIR: national inventory report

LULUCF: Land Use, Land-use Change and Forestry

Note: This status report reflects the content of the inventory submission of the year 2005 as originally submitted by the Party, and any resubmission received by 27 May 2005, where appropriate.

^a Base year refers to the year 1990, except for those Annex I Parties undergoing the process of transition to a market economy that are allowed to use a base year or a period of years other than 1990, in accordance with the provisions of Article 4.6 of the Convention and decisions 9/CP.2 and 11/CP.4. Information on the base year in the status reports does not reflect or prejudge any decision that may be taken by Parties in relation to the use of 1995 as base year for HFCs, PFCs and SF₈ in accordance with Article 3.8 of the Kyoto Protocol.

^b For Parties that reported using the CRF Reporter software, table 7 covers key sources, as required in decision 18/CP.8 (FCCC/CP/2002/7/Add.2).

^c No recalculations of the LULUCF sector are requested this year, as 2003 is the first inventory year when Parties are reporting following the IPCC good practice guidance for Land use, Land-use change and Forestry and the new reporting format for LULUCF (FCCC/SBSTA/2004/8).

SBDT: Sectoral background data tables

^a This column is only applicable for those Parties with economies in transition that use a base year other than 1990 according to decisions 9/CP.2 and 11/CP.4.

b This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF. This was due to limited use, or lack of, notation keys (NO, NE, NA, IE, C). For Parties that reported using the CRF Reporter software, table 7 covers key sources, as required in decision 18/CP.8 (FCCC/CP/2002/7/Add.2).
