					Fran	ce									
u	Date of submission:	8 February 2	2002												
General information	Format:	Electronic:													
nfor	Base year or period*:	1990													
erali	CRF provided for years:	1990-2000													
Gen	Gases covered:	CO ₂	CH ₄	N ₂ O	HFCs	PFCs	SF ₆	NOx	CO	NMVOCs	SO ₂				
		7	v	7	7	1	7	7	7		7				
t y al	Description: A national inventory report has been provided. The report provides summary information on the methodologies used for calculatin emissions from all sectors. It also includes information on uncertainties and key sources.														
National Inventory Report			nn an see	wis. It also) includes i	inor mation	on uncer a	intres and k	cy sources	•					
N II N	Language:	French. The summary was also provided in English.

LUCF: Land-Use Change and Forestry

Note: This status report reflects the content of the inventory submission of the year 2002 as originally submitted by the Party.

* Base year refers to the year 1990, except for those Annex I Parties undergoing the process of transition to a market economy that are allowed to use a base year or a period of years other than 1990, in accordance with the provisions of Article 4.6 of the Convention and decisions 9/CP.2 and 11/CP.4. Information on the base year in the status reports does not reflect or prejudge any decision that may be taken by Parties in relation to the use of 1995 as base year for HFCs, PFCs and SF₆ in accordance with Article 3.8 of the Kyoto Protocol. ** According to the UNFCCC reporting guidelines on annual inventories (FCCC/CP/1999/7), these tables should be filled in only by Parties that use the IPCC default methodology. The development of alternative formats for these tables is awaiting the outcome of the ongoing work of the IPCC in developing good practice guidance for the land use, land-use change and forestry

sector.

SBDT: Sectoral background data tables

* This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF. This was due to limited or lack of use of notation keys (NO, NE, NA, IE, C, 0). ** According to the UNFCCC reporting guidelines on annual inventories (FCCC/CP/1999/7), these tables should be filled in only by Parties that use the IPCC default methodology. The development of alternative formats for these tables is awaiting the outcome of the ongoing work of the IPCC in developing good practice guidance for the land use, land-use change and forestry sector. *** This column is only applicable for those Parties with economies in transition that use a base year other than 1990 according to decisions 9/CP.2 and 11/CP.4.
