National Inventory Report

Description:	**A National Inventory Report has been submitted. The report provides information on methodologies, activity data and emission factors used for some source categories and on differences compared to previous submissions. Although, estimates of emissions and removals from the Land-Use Change and Forestry sector have not been reported in the CRF, preliminary data from this sector are provided in the report.**
Language:	**English**

PART I:
Provision of information for the latest reported inventory year in the CRF: 1998

SBDT: Sectoral background data tables

* This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF. In most cases this was due to lack of use of indicators (NO, NE, NA, IE, C, 0).

* * According to the UNFCCC reporting guidelines on annual inventories (FCCC/CP/1999/7), these tables should be filled in only by Parties that use the IPCC default methodology.
