Status report for United States of America															
			United	I States	of Amer	ica									
-	Date of submission:	10 April 2001													
General information	Format:	Electronic: Hardcopy:													
orm	Base year or period*:	1990													
l inf	CRF provided for years:	1990-1999													
nera	Gases covered:	CO ₂ CH ₄	N ₂ O	HFCs	PFCs	SF_6	NOx	CO	NMVOCs	SO ₂					
Ge			- -	I	V	 	V	v		-					
National Inventory Report		A National Inventory Report has been submitted. The report provides information on methodologies, activity data, emission factors, differences to previous submissions and uncertainty estimates for all categories.

LUCF: Land-Use Change and Forestry

* Base year refers to the year 1990, except for those Annex I Parties undergoing the process of transition to a market economy that are allowed to use a base year or a period of years other than 1990, in accordance with the provisions of Article 4.6 of the Convention and decisions 9/CP.2 and 11/CP.4. Information on the base year in the status reports does not reflect or prejudge any decision that may be taken by Parties in relation to the use of 1995 as base year for HFCs, PFCs and SF₆ in accordance with Article 3.8 of the Kyoto Protocol.

** According to the UNFCCC reporting guidelines on annual inventories (FCCC/CP/1999/7), these tables should be filled in only by Parties that use the IPCC default methodology.

SBDT: Sectoral background data tables

* This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF. This was due to limited or lack of use of indicators (NO, NE, NA, IE, C, 0). * * According to the UNFCCC reporting guidelines on annual inventories (FCCC/CP/1999/7), these tables should be filled in only by Parties that use the IPCC default methodology. * * * This column is only applicable for those Parties with economies in transition that use a base year other than 1990 according to decisions 9/CP.2 and 11/CP.4.
