

## Research projects and networks

### National research projects

- Evaluation of climate change impact on Romanian agriculture potential [http://www.meteoromania.ro/anm/?page\\_id=1266](http://www.meteoromania.ro/anm/?page_id=1266)
- Methodologies for reducing the impact of climate change on Southern part of Romania [http://www.meteoromania.ro/anm/?page\\_id=1275](http://www.meteoromania.ro/anm/?page_id=1275)
- Analysis system for assessment of vulnerability and adaptation capacity to climate change in touristic sector
- Changes in climate extremes and associated impact in hydrological events in Romania (CLIMHYDEX) <http://climhydex.meteoromania.ro/>

### European Projects

- FP 7 The European Reanalysis and Observations for Monitoring project <http://www.euro4m.eu/>
- FP 7 CryoLand - Copernicus Service Snow and Land Ice <http://www.cryoland.eu/>
- FP 7 European Provision Of Regional Impacts Assessments on Seasonal and Decadal Timescales (EUPORIAS) <http://www.euporias.eu/>
- SEE Joint Disaster Management risk assessment and preparedness in the Danube macro-region [http://www.meteoromania.ro/anm/?page\\_id=1431](http://www.meteoromania.ro/anm/?page_id=1431)
- SEE OrientGate - A network for the integration of climate knowledge into policy and planning <http://www.orientgateproject.org/>
- Mitigating Vulnerability of Water Resources under Climate Change [http://www.meteoromania.ro/anm/?page\\_id=2485](http://www.meteoromania.ro/anm/?page_id=2485)
- Drought – coordinated actions in Europe [http://www.meteoromania.ro/anm/?page\\_id=1288](http://www.meteoromania.ro/anm/?page_id=1288)
- Mitigation Drought in Vulnerable Area of the Mures Basin [http://www.meteoromania.ro/anm/?page\\_id=1482](http://www.meteoromania.ro/anm/?page_id=1482)

### European networks
