

CGE members - areas of expertise and experience

<i>Name</i>	<i>Areas of expertise and experience</i>
1. Mr. Rodrigue Abourou Otogo	Greenhouse gas inventories; General Coordinator for Third National Communication and BUR Gabon; National Director of the Second National Communication of Gabon
2. Ms. Anne Nyatichi Omambia	Mitigation; carbon capture and storage (geo-engineering and geo-sequestration); Clean Development Mechanism; Kenya's designated national authority; technical expert for the preparation of Kenya's Second National Communications, Team leader for the MRV chapter of the Kenya National Climate Change Action Plan (2013-2017), other environmental issues
3. Mr. Zammath Khaleel	Greenhouse gas inventories; mitigation; technical coordinator for Second National Communication; part of the team in development of National Low Carbon Strategy; reviewed and co-authored National Energy Policy; involved in the development of national energy supply and demand study for Maldives; contributed to development of scaling-up of Renewable Energy Investment Plan for Maldives
4. Mr. Kanizio F.K. Manyika	Adaptation; NAPA preparation and implementation; mitigation: working with Tanzania's designated national authority/REDD+; involved in the preparation of Tanzania second national communication V&A assessment chapter
5. Ms. Ana-Maria Danila	Mitigation; greenhouse gas inventories; coordination of the European Union's national communication and Biennial Report
6. Ms. Nouf Abouras	Greenhouse gas inventories; inventory review of Annex I Parties; industrial processes
7. Ms. Rhianna Neely	Coordination and preparation of the second national communication; planning and preparation of NAMAs; preparation and dissemination of climate change education
8. Ms. Estefania Ardila Robles	National greenhouse gas inventories; cross-cutting issues; led the preparation of BUR project in Colombia; collaborated in the preparation of the Third National Communication Project.
9. Mr. Yamil Bonduki	Expertise and experience in all areas of National Communications and BURs
10. Mr. George Manful	Expertise and experience in all areas of National Communications and BURs
11. Ms. Patricia Grobбен	Mitigation (NAMAs, market mechanisms, mitigation, policy in general, MRV of mitigation)

	<i>Name</i>	<i>Areas of expertise and experience</i>
12.	Mr. Jan Verhagen	Adaptation (land use, agriculture)
13.	Mr. Kiyoto Tanabe	National greenhouse gas inventories
14.	Mr. Muhammad Irfan Tariq	Adaptation
15.	Mr. Elan Strait	Mitigation, MRV, Finance
16.	Ms. Hilary Hove	Mitigation, other issues (institutional arrangements, MRV, MRV of finance)
17.	Mr. Thiago de Araujo Mendes	Mitigation (National greenhouse gas inventories LULUCF, industry, energy and biofuels, MRV of NAMA, CDM and Sustainable Development, Economic Incentives); V&A assessment and methodologies strategies; Loss and Damage issues; development of training materials about Climate Change to Finance and Planning Officials
18.	Mr. Takeshi Enoki	National greenhouse gas inventories; Mitigation and MRV issues
19.	Ms. Tania Zamora Ramos	Mitigation; Mitigation Planning and Scenarios Clean Development Mechanism and Voluntary Carbon Market – Energy and Solid Waste Projects; NAMAs design process related to Energy Use, Solid Waste Management and Construction materials; elaboration of Institutional Arrangements to establish a National Inventory System, Data Management and MRV; trainer on national greenhouse gas inventories; national inventory and corporate GHG inventories; BUR team leader
20.	Mr. Kamel Djemouai	Technical and managerial involvement in National Communications and national GHG inventories; adaptation, mitigation and financial issues, including Climate Change negotiations; review of national communications from Annex I Parties; Clean Development Mechanisms and NAMAs; Climate change national strategies, programs and plans.
21.	Mr. Sachidananda Satapathy	Expertise: Research on Climate Change Impacts, ecological observation, policy planning at national and sub national level on climate change, Adaptation, preparation of adaptation strategy, prioritization of adaptation measures and implementation, development of regional strategic plan on adaptation and other related activities. Experience: Associated with the Unit responsible for preparation of National Communication to UNFCCC for the last 6 years and having expertise on Vulnerability

<i>Name</i>	<i>Areas of expertise and experience</i>
	Assessment and Adaptation, Sustainable Development, Research and observation on climate change, awareness and identifying gaps and constraints at national level during the preparation of National Communication to UNFCCC. Experience in coordinating and maintaining the network system required for institutional framework at national level for preparation of National Communication and preparation Biennial Reports.
22. Ms. Selam Kidane Abebe	Low carbon strategies and policies, agriculture and NAMAs.
