COASTAL ZONE VULNERABILITY AND ADAPTATION ASSESSMENT Session: Wednesday March 22 2006, 9:15am-12:30pm

DIVA EXERCISE 2 NOTES

- Go back to DIVA Quick Tour document on page 10;
- Do Step 1 and 2 to create as many new cases you like out of a possible 36 combinations of scenarios;
- Recalculate the cases (Step 5);
- Go to Step 7 and look at the results;
- Repeat Step 8, but select your relevant COUNTRY(S) for your group as the subset for the Location;
- Repeat Step 9 onwards and fill out the notes section with relevant information for your country.
- If you have completed the above steps and have time remaining go back to Step 1 and 2 and create a new case and then change 1 or more input parameters with different data for your country.

Discuss in your group the usefulness of DIVA and its application in your country
