November 10th 2016, Argentina

Table of contents

1. Argentina's context
2. Time line of Argentina's milestones in the CMNUCC
3. Institutional framework for the First BUR and Third National Communication
4. National Cabinet on Climate Change (2016)
5. Working structure for the Second BUR
6. Finance of the First and Second BUR
7. Preliminary results for the year 2012 (Methodological change IPCC 1996/2006)
8. Work plan for the National GHG Inventory System

Total Land Area 3.761.274 km²

(2.791.810 km² belonging to the American Continent and 969.464 km² belonging to the Atlantic Continent (including the South Orkney Islands) and the Austral Islands (South Georgia and South Sandwich Islands)).

Population (2016 estimate): 43.590.000 inhabitants

23 Provinces + 1 Autonomous City of Buenos Aires

Source: National Geographic Institute

Native Forest Area (2015): 91.488.000 ha

(Forest: 27.112.000 ha and Other wooded land: 64.376.000 ha)

Source: Ministry of Environment and Sustainable Development

Livestock (Cattle) (2015): 51.429.848 head

Source: SENASA - Ministry of Agroindustry

Crop Production (2015/2016 season): 124.690.993 tonnes

(Crop shares: Soybean 47%, Corn 32%, Wheat 9%, Barley 4%, Sorghum 2%, Sunflower 2%, Rice 1%, Peanut 1%, Cotton 1%)

Source: Ministry of Agroindustry

Primary Energy Supply (2015): 83.076 k toe

(56 % Natural Gas / 31% Crude oil / Hydropower y biofuels 10% / Nuclear 3% / Mineral Coal 2%)

Institutional framework Biennial Update Report/ Third National Communication (2012/2015)

Participative development process

Voluntary participation of organizations

Structure specifically created for the fulfillment of the TNC and the First BUR

COFEMA: Federal Comity of Environment

National Cabinet on Climate Change

Decree Nº 891/16 – July 2016

“Develop climate change policies and generate awareness about its importance in the whole society”

STRUCTURE

Ministry meetings - 12 ministries
(lead by the Head of the Cabinet of Ministries)

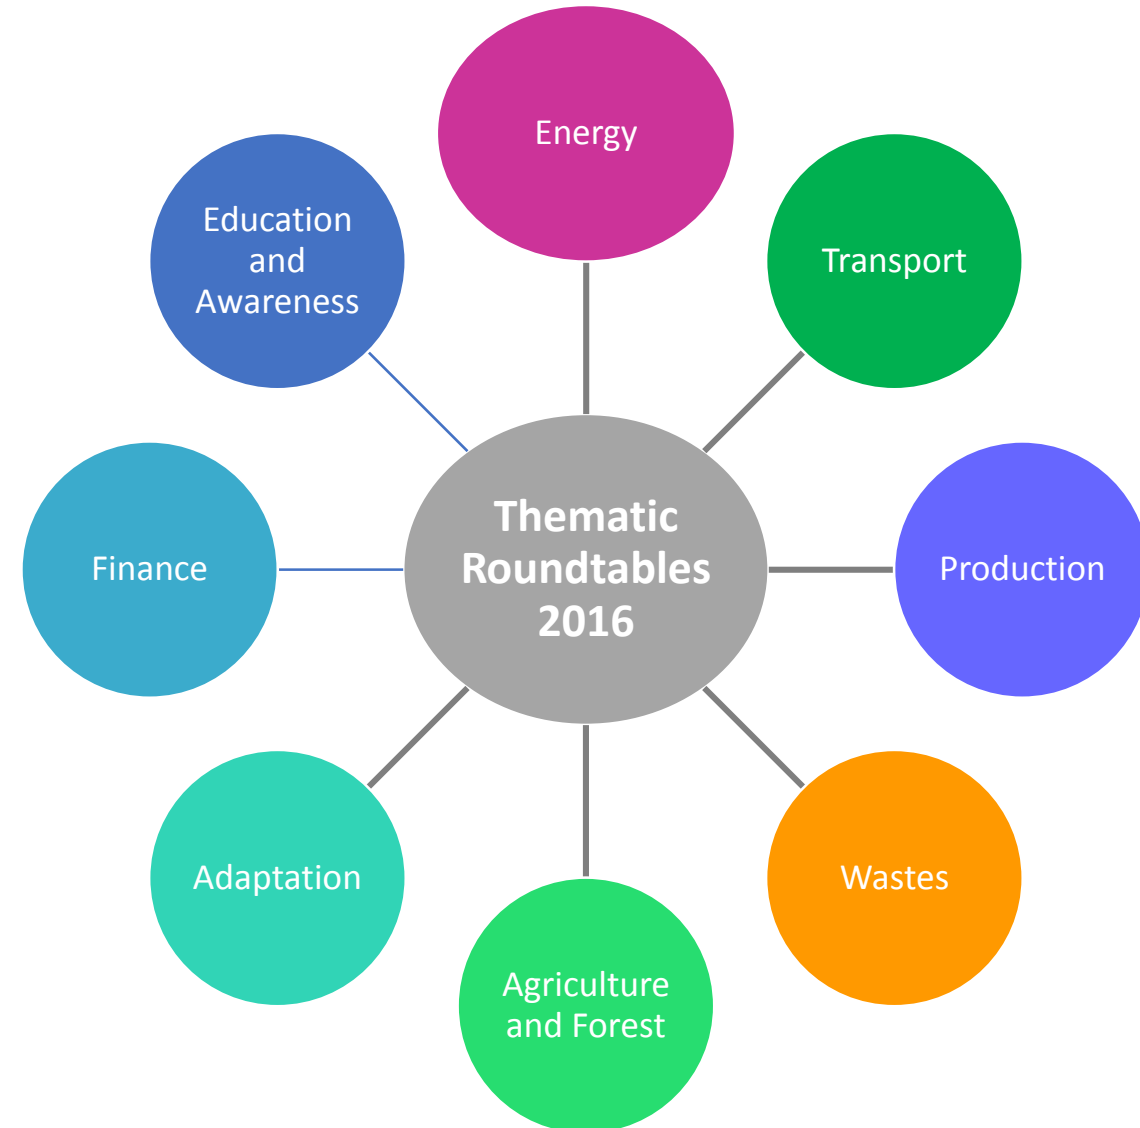

National Roundtable Meeting
(with focal point of each ministry)

Thematic Roundtables
(with focal point of each ministry)

Broad Cabinet Meeting
(Civil Society, Academia, Private Sector, Local governments)

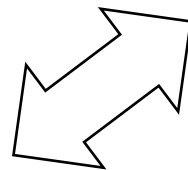

Executive Secretariat : Sub-Secretariat of Climate Change
and Sustainable Development (MESD)

Institutional Framework Climate Change 2016

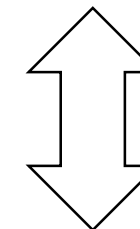

Working structure for the Second BUR (2016)

National Cabinet on Climate Change
(Decree Nº 891/16)

Focal point of each Ministry

COMPILATION AND QUALITY ASSURANCE
National Climate Change Division
Ministry of Environment and Sustainable Development

MAIN DATA PROVIDERS

Ministry of Environment
and Sustainable
Development
GHG 15%

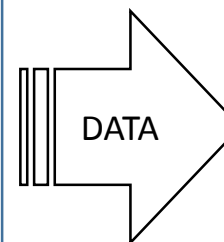

Land-use change : Geo-referenced satellite monitoring
Annual data

Ministry of Agroindustry
GHG 21%

Livestock: by department, productive models by zone (single study)
Cropland: Crop Production and harvested area by department
Annual data

Ministry of Energy and
Mining
GHG 47%

Electric energy production: Consumption by power plant
Natural Gas: Consumption by type of user and province)
Liquid Fuels : Total country consumption
Annual data

GHG EMISSIONS CALCULATION

Contracted consulting team

Experts in:
Energy and Industrial processes
Agriculture
Land use, land-use change and forestry
Waste
