

High-level engagement on Resilience

13 and 14 November 2017

Overall narrative

The World, especially the poorest, are already seeing the increasing impacts of extreme weather events and long term changes in climate. Building climate resilience enables people and systems to prevent and cope with the impacts of climate change, delivering coherently the Paris Agreement, the Sendai Framework for Disaster Risk Reduction, and the overall achievement of the 2030 Agenda for Sustainable Development.

Climate resilience is the ability to anticipate climate risks and hazards, absorb the impact of shocks and stresses and to address root causes of risks by reshaping development pathways. Three high-level events will be held to discuss priority climate actions needed to build resilience:

- Why Resilience Matters? Challenges and Solutions for Building Climate Resilience in Small Island Developing States (SIDS) and other vulnerable countries
- Unblocking Investment in Climate Resilience
- Working with Nature to Build Climate Resilient and Sustainable Development

Events

Time: 13 November 13.15-14.45 Room 3	Unblocking investment into climate resilience
Short description <p>The roundtable examines the barriers to investment into climate resilience in developing countries and the opportunities resilience presents for investment. It features examples of climate resilience investments by private and public actors and explores how to ensure finance reaches the local level.</p> <p>Moderator: Edward Cameron, Senior Advisor to the World Business Council on Sustainable Development - Chair: H.E. Dr. Gemedo Dalle Tussie, Minister for the Environment, Forest and Climate Change, Ethiopia.</p> <p>Speakers:</p> <ul style="list-style-type: none">i) High Level Climate Champion, H.E. Mr. Inia B. Seruiratu, Minister of Agriculture, Fijiii) Mary Robinson, President, Mary Robinson Foundation for Climate Justiceiii) Roelfien Kuijpers, Head of Responsible Investments and Global Head of Strategic Relationships, Deutsche Asset Managementiv) Amadou Hott, Vice President Power, Energy, Climate and Green Growth, African Development Bankv) Eva Svedling, State Secretary to the Minister for International Development Cooperation and Climate, Swedenvi) Naoko Ishii, CEO, Global Environment Facilityvii) Vidar Helgesen, Minister of Climate and Environment, Norwayviii) Filipe Nainoca, Director General, Fiji Red Cross Societyix) David Lomas, Head of Global Financial Institutions Group, BlackRock (tbc)x) Laura Tuck, Vice President for Sustainable Development, World Bank (tbc)xi) H.E.
