

COP17 UNFCCC CDM Workshop

the society of greenhouse gas professionals

Tim Stumhofer
Senior Program Associate
GHG Management Institute

About us

Education

World's largest GHG measurement, reporting, and verification (MRV) curriculum

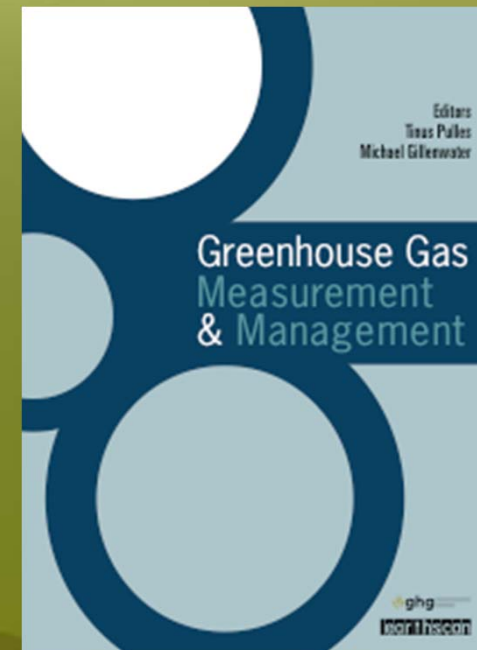

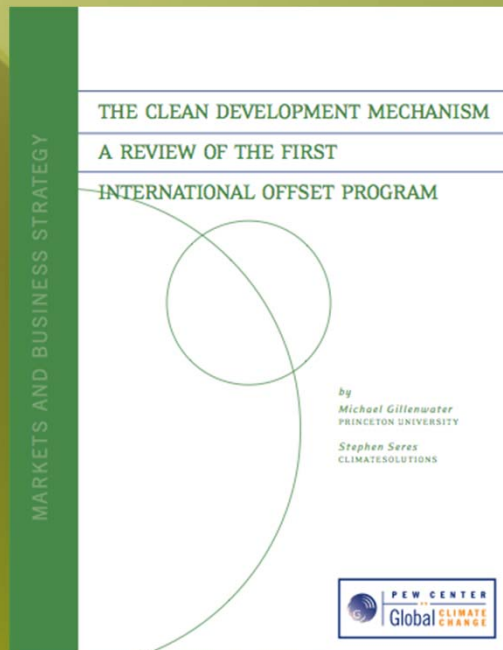

Capacity building

Develop custom training and program support to a range of climate schemes

Professional development

A raft of professional programs and resources for MRV practitioners

Research

Reflections on the CDM

- Adaptive (CDM of 2008 \neq CDM of 2011)
- Meets best offset practices
- Transfers
 - Technology, capital, information
- Develops local capacity
 - Economic, technical, administrative
- Skills development
 - Project finance, environmental assessment, emissions monitoring
- Developed & tested GHG methodologies
