

Support for the Electro-Mobility Declaration and Call to Action
December 2015

FIA Foundation

Geographical coverage: Global

Summary: The FIA Foundation is a UK-based Charity which works to promote safe and sustainable mobility globally. As part of that work we are engaged in partnerships and support others across a wide range of issues including clean fuels and vehicles, improved fuel efficiency and the development of low carbon solutions including electric vehicles.

Time-frame: Not applicable

Reporting: We will report on this work through social media, our website and other publications and communications with our extensive database of contacts in the world of safe and sustainable mobility.

Lead or sponsoring Entity(s): FIA Foundation

Partners: Not applicable
