

Support for the Electro-Mobility Declaration and Call to Action
December 2015

Clean Air Asia (Clean Air Initiative for Asian Cities Center, Inc.)

Geographical coverage: Asia

Summary: Clean Air Asia is an international non-governmental organization that catalyzes action for clean air and livable cities in Asia. We work with government agencies and cities in Asia, private sector and development agencies to provide leadership and technical knowledge in 4 core programs, namely, Air Quality and Climate Change, Green Freight and Logistics, Low Emissions Urban Development, and the Clean Fuels and Vehicles. Our Clean Fuels and Vehicle program recognizes the role of electro-mobility in bringing cleaner air into Asian cities.

Time-frame: Not applicable.

Reporting: Not applicable.

Lead or sponsoring Entity(s): Not applicable.

Partners: Clean Air Asia works closely with its Partnership which is set up as a UN Type II partnership and shares the guiding principles of the World Summit on Sustainable Development. The Partnership consists of more than 250 members from city governments, national government agencies, NGOs and academe, international development agencies and foundations and the private sector.
