1 November 1999

ENGLISH ONLY

SUBSIDIARY BODY FOR SCIENTIFIC AND TECHNOLOGICAL ADVICE  
Eleventh session  
Bonn, 25 October - 5 November 1999  
Agenda item 9 (f)

## **METHODOLOGICAL ISSUES**

### **OTHER MATTERS**

#### **Estimation of emissions of carbon dioxide from forest harvesting and wood products**

#### **Draft conclusions by the Chairman**

The Subsidiary Body for Scientific and Technological Advice (SBSTA) invited Parties to submit, by 15 March 2001, their views on approaches for estimating and accounting for emissions of carbon dioxide from forest harvesting and wood products, taking into account the report of the Intergovernmental Panel on Climate Change expert meeting on that subject held in Dakar, Senegal, from 5 to 6 May 1998, for compilation into a miscellaneous document and consideration by the SBSTA at its fourteenth session.
