Official documents on CD-ROM

All participants are welcome to join in these hands-on sessions featuring the secretariat's new multi-volume CD-ROM collection containing all official documentation issued since 1991 as part of the Convention and Kyoto Protocol processes. As well as the full text of all documents in all available United Nations official languages, the CD-ROMs contain interpretive guides, national communications on greenhouse gas emissions trends and policy responses, in-depth reviews of national communications, daily programmes, lists of participants and agendas for all UNFCCC meetings.

The CD-ROMs provide a good solution for those participants without easy access to UNFCCC documents through the Internet.
