**Draft conclusions proposed by the Chair**

1. The Subsidiary Body for Implementation (SBI), recognizing that small island developing States are among those Parties that are particularly vulnerable to the adverse effects of climate change, invited Parties to take into account relevant aspects of the Mauritius Declaration and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States (Mauritius Strategy) in their consideration of the ongoing work of the SBI and the Subsidiary Body for Scientific and Technological Advice, as appropriate.
2. The SBI requested the secretariat to prepare an information document, to be made available in time for the twenty-sixth session of the subsidiary bodies, on how relevant provisions of the Mauritius Strategy are currently reflected in the work of the Convention and its Kyoto Protocol, for the information of Parties when considering relevant agenda items.
3. The SBI invited the small island developing States to consider, at the expert meeting called for in paragraph 8 (b) of decision 1/CP.10, how relevant provisions of the Mauritius Strategy are currently, or could be, reflected in the work of the Convention and its Kyoto Protocol under existing agenda items.
