Announcements

Solar taxi

Five months after a pioneering world tour from Switzerland to Bali a taxi, exclusively powered by solar energy, has arrived at the United Nations Climate Change Conference. The solar taxi is now offering participants in the conference a shuttle service from the Westin Resort within the Nusa Dua area. For a unique experience in a climate-friendly vehicle, contact Louis at <solartaxi@gmail.com>.

Shuttle service

A shuttle service between the Bali International Convention Centre (BICC) and the Grand Hyatt Hotel (GH) is available to participants. The schedule will vary during the conference. Participants are therefore requested to review this information each day.

To reach the shuttles, exit the BICC just before the connecting corridor on the ground floor to the Westin. The shuttle will traverse directly between the two points without stopping.

Today's shuttle runs every 20–30 minutes, from 12.15 to 22.15 hours.

Exhibitors

The sessions are attracting a large number of participants, who need space to move freely around the conference venue. Exhibitors are requested to ensure that they do not exceed their allotted space. If your back panel or counter is not needed, please let the Observer Liaison team know. You may contact Mr. Virgile Vasseur in the Observer Liaison office in the BICC.

Computing at the conference

- A computer centre is available to participants from 8 a.m. to 8 p.m. on the BICC upper level (in front of Plenary II). The centre is equipped with PCs with Internet access and printing facilities. Computer support staff wearing yellow T-shirts are on location to provide assistance.
- Wireless "PlugNplay HOT SPOT" access points are also available in open areas and will be available in the main meeting rooms. Signs will indicate the hot spots.
- PCs, printers and wireless access points are also available to media representatives and journalists in the Media Centre.
- Owing to high Internet bandwidth limitations, file size limitations have been imposed on downloads. In addition, users should save their work frequently, in order to avoid the loss of documents should there be a power interruption.
- For those participants using a laptop at the conference facility: please make sure your anti-virus and personal firewall are enabled and up-to-date, give your laptop a name so that we can help identify your laptop (or your organization) for trouble-shooting purposes. Do not leave your laptop unattended at any time.

Webcasts of COP 13

For the duration of the conference, all official meetings, press conferences and some side events will be available on demand, with English or floor audio streams. On-demand files will be available shortly after the close of each meeting. Please check the UNFCCC website for the date and time of webcast sessions at <http://www.un.org/webcast/unfccc/>
