Annexes

I.	Annex I	6
II.	Documents prepared for the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol at its tenth session	47

I. Opening of the session

(Agenda item 1)

1. The tenth session of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol (AWG-KP) was held at the Bella Center in Copenhagen, Denmark, from 7 to 15 December 2009.
2. The Chair of the AWG-KP, Mr. John Ashe (Antigua and Barbuda), opened the session and welcomed all Parties and observers. He welcomed Mr. Harald Dovland (Norway) as Vice-Chair of the AWG-KP and Mr. Miroslav Spasojevic (Serbia) as Rapporteur, and expressed his appreciation to the Government of Denmark for hosting the meeting. The Chair reminded delegates that the AWG-KP was expected to forward to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP) at its fifth session the results of the work of the AWG-KP, with a view to their adoption.

II. Organizational matters

(Agenda item 2)

A. Adoption of the agenda

(Agenda item 2 (a))

3. At its 1st meeting, on 7 December, the AWG-KP considered a note by the Executive Secretary containing the provisional agenda and annotations (FCCC/KP/AWG/2009/15).
4. At the same meeting, the agenda was adopted as follows:
 1. Opening of the session.
 2. Organizational matters:
 - (a) Adoption of the agenda;
 - (b) Organization of the work of the session.
 3. Consideration of further commitments for Annex I Parties under the Kyoto Protocol.
 4. Report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its fifth session.
 5. Other matters.
 6. Report on the session.

B. Organization of the work of the session

(Agenda item 2 (b))

5. The AWG-KP considered this sub-item at its 1st meeting, on 7 December. The Chair made a proposal for the organization of the work of the tenth session, as outlined in the scenario note.¹ The AWG-KP agreed to the proposed organization of work.
6. At the same meeting, statements were made by representatives of six Parties, including one speaking on behalf of the Group of 77 and China, one on behalf of the European Union and its member States, one on behalf of the Umbrella Group, one on behalf of the Alliance of Small Island States, one on behalf of the least developed countries and one on behalf of the Environmental Integrity Group.

¹ FCCC/KP/AWG/2009/16.

III. Consideration of further commitments for Annex I Parties under the Kyoto Protocol

(Agenda item 3)

7. The AWG-KP considered this item at its 1st and 2nd meetings, on 7 and 15 December, respectively. It had before it documents FCCC/KP/AWG/2009/10/Rev.3, FCCC/KP/AWG/2009/10/Add.1/Rev.2, FCCC/KP/AWG/2009/10/Add.2, FCCC/KP/AWG/2009/10/Add.3/Rev.3, FCCC/KP/AWG/2009/10/Add.4/Rev.2 and FCCC/KP/AWG/2009/12/Rev.2.
8. At its 1st meeting, the AWG-KP agreed to establish four contact groups to advance the work at its tenth session, on:
- (a) Issues identified in paragraph 49 (a) and (b) of the report of the AWG-KP on its resumed sixth session,² to be co-chaired by Mr. Leon Charles (Grenada) and Ms. Gertraud Wollansky (Austria);
 - (b) Other issues identified in paragraph 49 (c) of the report of the AWG-KP on its resumed sixth session, to be chaired by the Vice-Chair of the AWG-KP, Mr. Harald Dovland (Norway);
 - (c) Consideration of information on potential environmental, economic and social consequences, including spillover effects, of tools, policies, measures and methodologies available to Annex I Parties, to be co-chaired by Mr. Mama Konaté (Mali) and Mr. Andrew Ure (Australia);
 - (d) Legal matters, to be convened as needed and co-chaired by Ms. María Andrea Albán Durán (Colombia) and Mr. Gerhard Loibl (Austria).
9. At the 2nd meeting, the Chair invited the Vice-Chair and the co-chairs to provide an oral report on the status of the work of the four contact groups. The Chair invited Parties to take stock of progress with a view to facilitating work under agenda item 4.
10. At the same meeting, statements were made by representatives of 10 Parties.

IV. Report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its fifth session

(Agenda item 4)

1. Proceedings

11. The AWG-KP considered this item at its 1st and 3rd meetings, on 7 and 15 December, respectively.
12. At its 1st meeting, the AWG-KP agreed to consider the agenda item in a contact group to be chaired by the Chair of the AWG-KP.
13. At the 3rd meeting, the Chair reported on the work of the contact group referred to in paragraph 12 above. Statements were made by representatives of two Parties.
14. At the same meeting, the AWG-KP considered and adopted conclusions³ proposed by the Chair.

² FCCC/KP/AWG/2008/8.

³ Adopted as document FCCC/KP/AWG/2009/L.15.

2. Conclusions

15. The AWG-KP agreed to forward the report on its tenth session, including the draft text contained in the annex,⁴ to the CMP for consideration at its fifth session.
16. The AWG-KP agreed that the draft text would benefit from additional work on the unresolved issues.
17. The AWG-KP recommends to the CMP that consideration be given on how to proceed with the further consideration of the draft text.

V. Other matters

(Agenda item 5)

18. No other matters were raised or considered.

VI. Report on the session

(Agenda item 6)

19. At its 3rd meeting, on 15 December, the AWG-KP considered the draft report on its tenth session (FCCC/KP/AWG/2009/L.14). At the same meeting, on a proposal by the Chair, the AWG-KP authorized the Vice-Chair (also serving as the Rapporteur at the 3rd meeting) to complete the report on the session, under the guidance of the Chair and with the assistance of the secretariat.

VII. Closure of the session

20. At the 3rd meeting, the Chair thanked the Vice-Chair and the Rapporteur for their work and thanked delegates for their contributions. Statements were made by representatives of three Parties. Statements were also made on behalf of the environmental non-governmental organizations (NGOs), the business and industry NGOs, the farmers NGOs, the trade union NGOs, the women and gender NGOs and the youth.

⁴ See annex I.

Annex I

[Draft decision -/CMP.5

Amendments to the Kyoto Protocol pursuant to its Article 3, paragraph 9

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling Article 3, paragraph 9, and Articles 20 and 21 of the Kyoto Protocol,

Also recalling decisions 1/CMP.1 and 3/CMP.4,

Having considered the proposals for amendments to the Kyoto Protocol submitted under Articles 20 and 21 of the Kyoto Protocol,¹

Noting the reports of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its sessions to date and the oral report by the Chair to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its fifth session,

Taking into account the proposed amendments to the Kyoto Protocol contained in the annex to the report of the tenth session of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol,²

Noting that Parties listed in the table contained in section A of the annex to this decision have provided, in accordance with Article 21, paragraph 7, of the Kyoto Protocol, their written consent to the adoption of an amendment to Annex B to the Kyoto Protocol,

1. *Adopts the amendments to the Kyoto Protocol as contained in the annex to this decision;*
2. *[Decides that the provisions of the amendments contained in the annex to this decision shall apply to all Parties immediately upon the conclusion of the first commitment period under Article 3, paragraph 1, of the Kyoto Protocol, and shall continue to apply on a provisional basis until the entry into force of the amendments for each Party;*
- 3.] *Invites Parties to deposit their instruments of acceptance in respect of the amendments contained in the annex to this decision, in accordance with Article 20, paragraph 4, with a view to ensuring that there is no gap between the first and second commitment periods;*

[[3][4]. Requests the Subsidiary Body for Implementation to assess the implications of the carry-over of assigned amount units to the second commitment period on the scale of emission reductions to be achieved by Annex I Parties in aggregate for the second commitment period;

[4][5]. Also requests the Subsidiary Body for Implementation to recommend, at its thirty-third session, appropriate actions to be taken by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol to address the implications referred to in paragraph [3][4] above, for adoption by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its sixth session.]]

¹ Documents FCCC/KP/CMP/2009/2 to FCCC/KP/CMP/2009/13.

² FCCC/KP/CMP/2009/X.

ANNEX

A. Annex B

Option 1

The following table shall replace the table in Annex B to the Protocol:

Annex B

Party	Quantified emission limitation or reduction commitment (2008–2012) (percentage of base year or period)	Quantified emission limitation or reduction commitment ([2013–2017] [2013–2020]) (percentage of base year or period)		[(2013–2017)[2020]] [Percentage of reference year ((X ₁)[2000])]	[(2013–2017)[2020]] [Percentage of reference year (X ₂)]

⁺ As of 1 December 2009 the European Union replaces and succeeds the European Community.

^{*} Countries that are undergoing the process of transition to a market economy.

Notes

^a Added to Annex B by an amendment adopted pursuant to decision 10/CMP.2. This amendment has not yet entered into force.

^b Temporary target for Croatia, including decision 7/CP.12. Upon the accession of Croatia to the European Union, the Croatian target shall be replaced by arrangement in line with and part of the European Union mitigation effort.

^c Quantified emission limitation or reduction commitment of the European Community and its member States in the first commitment period. Upon deposit of its instrument of approval to the Kyoto Protocol on 31 May 2002, the European Community had 15 member States.

^d Quantified emission limitation reduction commitment of the European Union and its member States in the second commitment period. Upon deposit of its instrument of acceptance of the amendment to Annex B to the Kyoto Protocol on [date], the European Union had 27 member States.

^e Kazakhstan has submitted a proposal to amend the Kyoto Protocol to include its name in Annex B with a quantified emission limitation and reduction commitment of 100 per cent for the first commitment period.

^f Malta has requested that it be included in Annex I to the Convention by submitting a proposed amendment to that effect (document FCCC/CP/2009/2).

^g Countries that have not ratified the Kyoto Protocol.

Option 2

The following table shall replace the table in Annex B to the Protocol:

Annex B

Party	Quantified emission limitation or reduction commitment (2008–2012) (percentage of base year or period)	Quantified domestic emission reduction commitment (2013–2017) (percentage of base year or period) {i.e. minimum reductions required domestically}	Quantified emission reduction commitment (2013–2017) (percentage of base year or period) {i.e. total reductions required, based on historical responsibility and needs of developing countries}
Australia	108		
Austria	92		
[...other Annex I Parties]			
United States of America	93		
Total		[51]	[XX]

[Option A**B. Article 3, paragraph 1 and paragraph 1 bis***Option 1*

The following paragraph shall be inserted after paragraph 1 of Article 3 of the Protocol:

1 bis. The Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A do not exceed their assigned amounts, calculated pursuant to their quantified emission limitation and reduction commitments inscribed in the third column of the table contained in Annex B and in accordance with the provisions of this Article, with a view to reducing their overall [domestic] emissions of such gases

Option 1.1: by at least [X][49][15] [per cent] [QELRO] below 1990 levels in the commitment period 2013 to [2017][2020]

Option 1.2: by 33 per cent below 1990 levels in the commitment period 2013 to 2017 toward the aim of reducing overall emissions of such gases by at least 45 per cent from 1990 levels by 2020.

Option 1.3: by at least 95 per cent below 1990 levels by 2050 through the reduction of greenhouse gases from sources and removals by sinks. This shall be achieved during subsequent periods by the end of 2050.

Option 1.4: by at least [30][[at least] 45][X] per cent below 1990 levels by 2020
[and by 80 to [more than][at least] 95 per cent below 1990 levels by 2050]
[and by 80 per cent or more by 2050 compared to 1990 or more recent years]

Option 2

(would apply only if option 2 in section A above is chosen)

Paragraph 1 of Article 3 of the Protocol shall be deleted and replaced by the following paragraph:

1. The Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A do not exceed their total assigned amounts, calculated pursuant to their quantified emission reduction commitments inscribed in Annex B and determined by applying the principle of historical responsibility/debt and addressing the needs of developing countries³ in accordance with the provisions of this Article, with a view to ensuring a fair allocation of the global atmospheric space to all Parties.

The following paragraph shall be inserted after paragraph 1 of Article 3 of the Protocol:

³ In determining the commitments in this Article, the following criteria are taken into account in order to ensure consistency with the ultimate objective of the Convention and the principles of equity and common but differentiated responsibilities and respective capabilities:

- (a) Responsibility of Annex I Parties, individually and jointly, for current atmospheric concentrations of greenhouse gases;
- (b) The historical and current per-capita emissions originating in developed countries;
- (c) Technological, financial and institutional capacities; and
- (d) The share of global emissions required by developing countries in order to meet their social and economic development needs, to eradicate poverty and to achieve the right to development.

Fulfillment by Annex I Parties of the commitments in paragraph 1 of this Article constitutes a contribution to the repayment of emissions debts reflecting excessive consumption of shared atmospheric space and the needs of developing countries.

1 bis. In fulfillment of their obligations under Article 3, paragraph 1, the Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions from [domestic] sources of the greenhouse gases listed in Annex A do not exceed their assigned [domestic] amounts, calculated pursuant to their quantified [domestic] emission reduction commitments inscribed in Annex B and in accordance with the provisions of this Article, with a view to reducing their overall [domestic] emissions of such gases by [more than][at least] [49] per cent below 1990 levels in the commitment period 2013 to 2017.⁴

C. Article 3, paragraph 7 bis

The following paragraph shall be inserted after paragraph 7 of Article 3 of the Protocol:

7 bis. In the second quantified emission limitation and reduction commitment period, from [2013 to 2017][2013 to 2020], the assigned amount for each Party included in Annex I shall be equal to the percentage inscribed for it in the third column of the table contained in Annex B of its aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A in 1990, or the base year or period determined in accordance with paragraph 5 above, multiplied by [five][eight]. [Those Parties included in Annex I for whom land-use change and forestry constituted a net source of greenhouse gas emissions in 1990 shall include in their 1990 emissions base year or period the aggregate anthropogenic carbon dioxide equivalent emissions by sources minus removals by sinks in 1990 from land-use change for the purposes of calculating their assigned amount.]

D. Article 3, paragraph 9 bis

In paragraph 9 of Article 3 of the Protocol, for the words:

the consideration of such commitments

there shall be substituted:

the consideration of commitments for the second commitment period

The following paragraph shall be inserted after paragraph 9 of Article 3 of the Protocol:

9 bis. The Conference of the Parties serving as the meeting of the Parties to this Protocol shall initiate the consideration of commitments for the third and subsequent commitment periods at least [[five][seven] years before the end of the commitment period that immediately precedes the commitment period under consideration][seven years before the end of any commitment period].

E. Article 4, paragraph 2

The following words shall be added to the end of the first sentence of paragraph 2 of Article 4 of the Protocol:

, or on the date of deposit of their instruments of acceptance of any amendments to Annex B pursuant to Article 3, paragraph 9 and paragraph 9 bis

⁴ A Party included in Annex I may, with the agreement of other Parties, meet the difference between its total and domestic assigned amounts under Article 3, paragraph 1, through the financial mechanism operating under the authority and guidance of the Conference of Parties, in the context of their obligation to provide the agreed full incremental costs under the Convention.

F. Article 4, paragraph 3

Option 1

In paragraph 3 of Article 4 of the Protocol, for the words:

the commitment period specified in Article 3, paragraph 7

there shall be substituted:

any commitment period established by the Conference of the Parties serving as the meeting of the Parties to this Protocol

Option 2

In paragraph 3 of Article 4 of the Protocol, for the words:

, paragraph 7

there shall be substituted:

to which it relates]

[Option B**B. Article 3, paragraph 1 and paragraph 1 bis***Option 1*

The following paragraph shall be inserted after paragraph 1 of Article 3 of the Protocol:

1 bis. The Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A do not exceed their assigned amounts, calculated pursuant to their quantified emission limitation and reduction commitments inscribed in the third column of the table contained in Annex B and in accordance with the provisions of this Article, with a view to reducing their overall [domestic] emissions of such gases

Option 1.1: by at least [X][49][15] [per cent] [QELRO] below 1990 levels in the commitment period 2013 to [2017][2020]

Option 1.2: by 33 per cent below 1990 levels in the commitment period 2013 to 2017 toward the aim of reducing overall emissions of such gases by at least 45 per cent from 1990 levels by 2020.

Option 1.3: by at least 95 per cent below 1990 levels by 2050 through the reduction of greenhouse gases from sources and removals by sinks. This shall be achieved during subsequent periods by the end of 2050.

Option 1.4: by at least [30][[at least] 45][X] per cent below 1990 levels by 2020
[and by 80 to [more than][at least] 95 per cent below 1990 levels by 2050]
[and by 80 per cent or more by 2050 compared to 1990 or more recent years]

Option 2

(would apply only if option 2 in section A above is chosen)

Paragraph 1 of Article 3 of the Protocol shall be deleted and replaced by the following paragraph:

1. The Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A do not exceed their total assigned amounts, calculated pursuant to their quantified emission reduction commitments inscribed in Annex B and determined by applying the principle of historical responsibility/debt and addressing the needs of developing countries⁵ in accordance with the provisions of this Article, with a view to ensuring a fair allocation of the global atmospheric space to all Parties.

⁵ In determining the commitments in this Article, the following criteria are taken into account in order to ensure consistency with the ultimate objective of the Convention and the principles of equity and common but differentiated responsibilities and respective capabilities:

- (a) Responsibility of Annex I Parties, individually and jointly, for current atmospheric concentrations of greenhouse gases;
- (b) The historical and current per-capita emissions originating in developed countries;
- (c) Technological, financial and institutional capacities; and
- (d) The share of global emissions required by developing countries in order to meet their social and economic development needs, to eradicate poverty and to achieve the right to development.

Fulfillment by Annex I Parties of the commitments in paragraph 1 of this Article constitutes a contribution to the repayment of emissions debts reflecting excessive consumption of shared atmospheric space and the needs of developing countries.

The following paragraph shall be inserted after paragraph 1 of Article 3 of the Protocol:

1 bis. In fulfillment of their obligations under Article 3, paragraph 1, the Parties included in Annex I shall, individually or jointly, ensure that their aggregate anthropogenic carbon dioxide equivalent emissions from [domestic] sources of the greenhouse gases listed in Annex A do not exceed their assigned [domestic] amounts, calculated pursuant to their quantified [domestic] emission reduction commitments inscribed in Annex B and in accordance with the provisions of this Article, with a view to reducing their overall [domestic] emissions of such gases by [more than][at least] [49] per cent below 1990 levels in the commitment period 2013 to 2017.⁶

C. Article 3, paragraph 1 ter

The following paragraph shall be inserted after paragraph 1 bis of Article 3 of the Protocol:

1 ter. Paragraph 1 bis above shall only apply on the ninetieth day after the date (being a date after the entry into force of the [Agreement]⁷) on which:

- (a) not less than [X] Parties to the Convention have deposited their instruments of acceptance relating to the amendments establishing the commitment period 2013 to 20XX under this Protocol in accordance with Article 20, paragraph 4 or 5, of this Protocol, or deposited their instrument of ratification, acceptance, approval or accession to the [Agreement]; and
- (b) those Parties in subparagraph (a) incorporate Parties to the Convention that:
 - (i) accounted collectively for at least [X] per cent of the total [cumulative] anthropogenic carbon dioxide equivalent emissions of the greenhouse gases for [year] of the Parties to the Convention; and
 - (ii) have each inscribed quantifiable mitigation commitments or actions in either Annex B of this Protocol or Annex A of the [Agreement].

D. Article 3, paragraph 1 quater

The following paragraph shall be inserted after paragraph 1 ter of Article 3 of the Protocol:

1 quater. For the purposes of paragraph 1 ter above, “the total anthropogenic carbon dioxide equivalent emissions of the greenhouse gases for [year] of the Parties to the Convention” means the amount communicated for the year [X] or nearest year reported in their national communications submitted in accordance with Article 12 of the Convention.

E. Article 3, paragraph 1 quinquies

The following paragraph shall be inserted after paragraph 1 quater of Article 3 of the Protocol:

1 quinquies. For the purposes of this Article, any instrument deposited by a regional economic integration organization shall not be counted as additional to those deposited by States members of the organization.

F. Article 3, paragraph 7 bis

The following paragraph shall be inserted after paragraph 7 of Article 3 of the Protocol:

⁶ A Party included in Annex I may, with the agreement of other Parties, meet the difference between its total and domestic assigned amounts under Article 3, paragraph 1, through the financial mechanism operating under the authority and guidance of the Conference of Parties, in the context of their obligation to provide the agreed full incremental costs under the Convention.

⁷ Contemplates the adoption of a new agreement under the Convention.

7 bis. In the second quantified emission limitation and reduction commitment period, from [2013 to 2017][2013 to 2020], the assigned amount for each Party included in Annex I shall be equal to the percentage inscribed for it in the third column of the table contained in Annex B of its aggregate anthropogenic carbon dioxide equivalent emissions of the greenhouse gases listed in Annex A in 1990, or the base year or period determined in accordance with paragraph 5 above, multiplied by [five][eight]. [Those Parties included in Annex I for whom land-use change and forestry constituted a net source of greenhouse gas emissions in 1990 shall include in their 1990 emissions base year or period the aggregate anthropogenic carbon dioxide equivalent emissions by sources minus removals by sinks in 1990 from land-use change for the purposes of calculating their assigned amount.]

G. Article 3, paragraph 8 bis

The following paragraph shall be inserted after paragraph 8 of Article 3 of the Protocol:

8 bis. Any Party included in Annex I may use [1995] as its base year for hydrofluorocarbons, perfluorocarbons, sulphur hexafluoride and nitrogen trifluoride, for the purposes of the calculation referred to in paragraph 7 bis above.

H. Article 3, paragraph 9 bis

In paragraph 9 of Article 3 of the Protocol, for the words:

the consideration of such commitments

there shall be substituted:

the consideration of commitments for the second commitment period

The following paragraph shall be inserted after paragraph 9 of Article 3 of the Protocol:

9 bis. The Conference of the Parties serving as the meeting of the Parties to this Protocol shall initiate the consideration of commitments for the third and subsequent commitment periods at least [[five][seven] years before the end of the commitment period that immediately precedes the commitment period under consideration][seven years before the end of any commitment period].

I. Article 3, paragraph 12 bis

The following paragraph shall be inserted after paragraph 12 of Article 3 of the Protocol:

12 bis. Any [names of units generated from new market mechanisms established under the Kyoto Protocol or Agreement under the Convention] which a Party acquires from another Party to the Convention in accordance with the provisions of [Article [A]]⁸and [Article [B]]⁹ shall be added to the assigned amount for the acquiring Party.

J. Article 4, paragraph 2

The following words shall be added to the end of the first sentence of paragraph 2 of Article 4 of the Protocol:

, or on the date of deposit of their instruments of acceptance of any amendments to Annex B pursuant to Article 3, paragraph 9 and paragraph 9 bis

⁸ "A" refers to the Article(s) of an Agreement under the Convention dealing with new market mechanism(s) if such mechanism(s) is (are) established under that Agreement.

⁹ "B" refers to the Article(s) of the Kyoto Protocol dealing with new market mechanism(s) if such mechanism(s) is (are) established under the Protocol.

K. Article 4, paragraph 3

Option 1

In paragraph 3 of Article 4 of the Protocol, for the words:

the commitment period specified in Article 3, paragraph 7

there shall be substituted:

any commitment period established by the Conference of the Parties serving as the meeting of the Parties to this Protocol

Option 2

In paragraph 3 of Article 4 of the Protocol, for the words:

, paragraph 7

there shall be substituted:

to which it relates

L. Article 9

Paragraphs 1 and 2 of Article 9 shall be deleted and replaced by the following paragraphs:

1. The Conference of the Parties serving as the meeting of the Parties to this Protocol shall periodically provide for a comprehensive review of this Protocol. The review shall evaluate the adequacy of, and consider the need for strengthening the provisions of this Protocol, in particular the long-term goal for emission reductions and the [commitments under this Protocol, in order to contribute to the ultimate objective of the Convention. The review shall be conducted in the light of the best available scientific knowledge, in particular the assessments of the Intergovernmental Panel on Climate Change.] The review should be conducted in close coordination and consistent with relevant reviews under other bodies and processes of the Convention.
2. Based on the review, the Conference of the Parties serving as the meeting of the Parties to this Protocol shall take appropriate action.
3. Appropriate action may comprise, in particular, new quantified emission limitation and reduction commitments for individual Parties as well as a strengthening of existing quantified emission limitation and reduction commitments. Amendments to Annex B to this Protocol shall only be adopted with the written consent of the Party concerned. New commitments shall lead to absolute emission reductions for the respective Parties compared to [the national emission level data] available at the time of the conclusion of the review.
4. The first review according to paragraph 1 above shall start no later than 2014 and conclude no later than 2016.
5. Further reviews shall be conducted every [4] years, unless the Conference of the Parties serving as the meeting of the Parties to this Protocol decides otherwise.

Optional: Majority Voting and quick entering into force:

6. When deciding on amendments of Annex B to this Protocol in accordance with paragraph 3 above, the Parties shall make every effort to reach agreement by consensus. If all efforts at consensus have been exhausted, and no agreement reached, the amendment shall as a last resort be adopted by four-fifth majority vote of the Parties present and voting at the meeting.
7. Amendments adopted in accordance with paragraphs 3 and 5 above shall enter into force six months after the adoption unless the Conference of the Parties serving as the meeting of the Parties to this Protocol decides otherwise together with the adoption of the amendment.

M. Article 21

Paragraph 4 of Article 21, paragraph 4 shall be replaced with the following paragraph:

4. The Parties shall make every effort to reach agreement on any proposed annex or amendment to an annex by consensus. If all efforts at consensus have been exhausted, and no agreement reached, the annex or amendment to an annex other than Annex A, B [or ...] shall as a last resort be adopted by a three-fourths majority vote of the Parties present and voting at the meeting. Amendments to Annex A, B [and ...] shall be adopted by consensus and in relation to Annex B [and ...], only with the written consent of the Party concerned. The adopted annex or amendment to an annex shall be communicated by the secretariat to the Depositary, who shall circulate it to all Parties for their acceptance.

Paragraph 5 of Article 21 shall be replaced with the following paragraph:

5. An annex, or amendment to an annex other than Annex A, B [or ...], that has been adopted in accordance with paragraphs 3 and 4 above shall enter into force for all Parties to this Protocol six months after the date of the communication by the Depositary to such Parties of the adoption of the annex or adoption of the amendment to the annex, except for those Parties that have notified the Depositary, in writing, within that period of their non-acceptance of the annex or amendment to the annex. The annex or amendment to an annex shall enter into force for Parties which withdraw their notification of non-acceptance on the ninetieth day after the date on which withdrawal of such notification has been received by the Depositary.

Paragraph 7 of Article 21 shall be replaced with the following paragraph:

7. Amendments to Annexes A, B [or ...] to this Protocol shall enter into force for all Parties to this Protocol six months after the date of the communication by the Depositary to such Parties of the adoption of the annex or adoption of the amendment to the annex.

N. Annex A

The following table shall replace the list under the heading “Greenhouse gases” in Annex A to the Protocol:

GREENHOUSE GASES

Carbon dioxide (CO₂)
Methane (CH₄)
Nitrous Oxide (N₂O)
Hydrofluorocarbons (HFCs)
Perfluorocarbons (PFCs)
Sulphur hexafluoride (SF₆)
Nitrogen trifluoride (NF₃)

Draft decision -/CMP.5

Land use, land-use change and forestry

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Affirming that the implementation of land use, land-use change and forestry activities included under the provisions of the Kyoto Protocol shall be consistent with the objectives and principles of, and any decisions taken under, the Convention and its Kyoto Protocol,

Having considered decision 16/CMP.1,

1. *Affirms* that the principles contained in paragraph 1 of decision 16/CMP.1 continue to govern the treatment of land use, land-use change and forestry activities in the second and subsequent commitment periods of the Kyoto Protocol;
2. *Decides* that anthropogenic greenhouse gas emissions by sources and removals by sinks shall be accounted for in accordance with the annex to this decision;
3. *Also decides* that the information referred to in paragraph 2 above shall be reviewed in accordance with relevant decisions under Article 8 of the Kyoto Protocol;
4. *Agrees* to consider, at its [sixth] session, the need to revise decisions of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol that are relevant to the annex contained in this decision, including those related to reporting and review under Articles 5, 7 and 8 of the Kyoto Protocol;
5. *Also agrees* that it is desirable to move towards complete coverage of managed lands when accounting for the land use, land-use change and forestry sector, while addressing technical challenges and the need to focus on accounting for anthropogenic emissions by sources and removals by sinks;
6. *Requests* the Subsidiary Body for Scientific and Technological Advice to initiate a work programme to explore ways of moving towards more comprehensive accounting of anthropogenic emissions by sources and removals by sinks from land use, land-use change and forestry, including through a more inclusive activity-based approach and a land-based approach, and to report to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its seventh session on the outcomes of this work programme;
7. [*Requests* the Subsidiary Body for Scientific and Technological Advice to provide guidance for the provision and review of transparent and verifiable data on emissions from the harvested wood products pool, taking into account emission estimation methodologies, as revised and refined by the Intergovernmental Panel on Climate Change, and the fact that the best available data for use in estimating emissions arising from wood harvested by a Party prior to 31 December 2007 [and since 1990] may be data provided in guidance issued by the Intergovernmental Panel on Climate Change;]
8. *Requests* the Subsidiary Body for Scientific and Technological Advice to initiate a work programme to consider and, as appropriate, develop and recommend modalities and procedures for possible additional land use, land-use change and forestry activities under the clean development mechanism (e.g. revegetation, forest management, cropland management, grazing land management, wetland management, soil carbon management in agriculture and other sustainable land management activities), with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its seventh session;

9. *Further requests* the Subsidiary Body for Scientific and Technological Advice to initiate a work programme to consider and, as appropriate, develop and recommend modalities and procedures for alternative approaches to addressing the risk of non-permanence under the clean development mechanism (e.g. how to take responsibility for reversals, insurance, buffers and/or credit reserves, exceptions for low-risk activities, and applying a discount factor to the total emission reductions achieved), with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its sixth session;

10. *Requests* the Subsidiary Body for Scientific and Technological Advice to consider revising the UNFCCC reporting guidelines for Annex I Parties contained in decision 6/CMP.3 for the second commitment period and the associated common reporting format tables for supplementary information related to the annex contained in the present decision with a view to forwarding a draft decision on reporting and review;

11. *Invites* the Intergovernmental Panel on Climate Change to revise and develop, as necessary, of supplementary methodologies for estimating anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from land use, land-use change and forestry activities under Article 3, paragraphs 3 and 4 of the Kyoto Protocol, related to the annex to this decision, on the basis of, inter alia, chapter 4 of its *Good Practice Guidance for Land Use, Land-Use Change and Forestry*;

12. *Requests* the Subsidiary Body for Scientific and Technological Advice to consider, following the completion of methodological work by the Intergovernmental Panel on Climate Change outlined in paragraph 11 above, the revised supplementary methodologies related to the annex to this decision, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its [xxth] session;

13. *Adopts* the definitions, modalities, rules and guidelines relating to land use, land-use change and forestry activities under the Kyoto Protocol contained in the annex to this decision for application in the second commitment period.

ANNEX

Definitions, modalities, rules and guidelines relating to land use, land-use change and forestry activities under the Kyoto Protocol**[Option A****A. Definitions**

1. For land use, land-use change and forestry activities under Article 3, paragraphs 3 and 4 of the Kyoto Protocol, the following definitions shall apply:
 - (a) “Forest” is a minimum area of land of 0.05–1.0 hectares with tree crown cover (or equivalent stocking level) of more than 10–30 per cent with trees with the potential to reach a minimum height of 2–5 metres at maturity in situ. A forest may consist of either closed forest formations where trees of various storeys and undergrowth cover a high proportion of the ground or open forest. Young natural stands and all plantations which have yet to reach a crown density of 10–30 per cent or tree height of 2–5 metres are included under forest, as are areas normally forming part of the forest area which are temporarily unstocked as a result of human intervention such as harvesting or natural causes, but which are expected to revert to forest;
 - (b) “Afforestation” is the direct human-induced conversion of land that has not been forested for a period of at least 50 years to forested land through planting, seeding and/or the human-induced promotion of natural seed sources;
 - (c) “Reforestation” is the direct human-induced conversion of non-forested land to forested land through planting, seeding and/or the human-induced promotion of natural seed sources, on land that was forested but that has been converted to non-forested land. For the second commitment period of the Kyoto Protocol, reforestation activities will be limited to reforestation occurring on those lands that did not contain forest on 31 December 1989;
 - (d) “Deforestation” is the direct human-induced conversion of forested land to non-forested land;
 - (e) “Revegetation” is a direct human-induced activity to increase carbon stocks on sites through the establishment of vegetation that covers a minimum area of 0.05 hectares and does not meet the definitions of afforestation and reforestation contained here. It includes direct human-induced activities related to emissions of greenhouse gas and/or decreases in carbon stocks on sites which have been categorized as revegetation areas and do not meet the definition of deforestation;
 - (f) “Forest management” is a system of practices for stewardship and use of forest land aimed at fulfilling relevant ecological (including biological diversity), economic and social functions of the forest, and includes emissions by sources and removals by sinks;
 - (g) “Cropland management” is the system of practices on land on which agricultural crops are grown and on land that is set aside or temporarily not being used for crop production;
 - (h) “Grazing land management” is the system of practices on land used for livestock production aimed at manipulating the amount and type of vegetation and livestock produced;

- (i) ["Wetland management" is a system of practices for rewetting and draining on land that covers a minimum area of 1 hectare. It includes all lands that have been drained and/or rewetted since 1990 and that are not accounted for under any other activity, where drainage is the artificial lowering of the soil water table and rewetting is the partial or total reversal of drainage;]
- (j) ["Planted production forest" [is a forest consisting of [introduced] species, which as at 1990 met all the following criteria: [dominated by] one or two species at plantation, even age class and regular spacing. The "planted production forest" shall have been established by direct human-induced conversion of non-forest land to forest land [or non-productive forest land to planted production forests] by the planting and/or seeding provisions of an afforestation or reforestation activity;]
- (k) ["Equivalent forest" means an area of forest that will achieve at least the same carbon stock over the same period as would have occurred had the area of harvested "planted production forest" been re-established;]
- (l) ["Force majeure" means, for the purposes of this decision, extraordinary events or circumstances, defined as those events or circumstances whose occurrence or severity was beyond the control of, and not materially influenced by, a Party [and whose associated total annual greenhouse gas emissions by sources and removals by sinks are a minimum of [X per cent][Y to 5 per cent] of the total national emissions included in the base year].

B. Article 3, paragraph 3

2. For the purposes of Article 3, paragraph 3, eligible activities are those direct human-induced afforestation, reforestation and/or deforestation activities that meet the requirements set forth in this annex and that started on or after 1 January 1990 and before 31 December of the last year of the commitment period.

3. For the purposes of determining the area of deforestation to come into the accounting system under Article 3, paragraph 3, each Party shall determine the forest area using the same spatial assessment unit as is used for the determination of afforestation and reforestation, but not larger than 1 hectare.

3 bis. [In the case of planted production forests [established before 1 January 1990 only], conversion of forest land to non-forest land shall be considered harvesting, and shall not be considered deforestation, where an equivalent forest is established elsewhere on non-forest land that would have qualified for afforestation or reforestation. Equivalent forest shall not be included in a Party's assessment of emissions and removals from afforestation and reforestation activities and must be included in a Party's accounting of forest management under Article 3, paragraph 4, if elected.]

4. [Debits arising from harvesting a unit of land that was subject to afforestation or reforestation between 1 January 1990 and 31 December 2007, and has not been harvested since, shall not be greater than the credits accounted for in total on that unit of land since 1 January 2008.]

5. Each Party included in Annex I shall report, in accordance with Article 7, on how harvesting or forest disturbance that is followed by the re-establishment of a forest is distinguished from deforestation. This information will be subject to review in accordance with Article 8.

C. Article 3, paragraph 4

6. A Party included in Annex I may choose to account for anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from any or all of the following activities: [revegetation,] [forest management,] [cropland management,] [grazing land management and] [wetland management].

6 bis. [All Parties included in Annex I shall account for anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from the following: any activity under Article 3, paragraph 4, elected in the first commitment period; and [revegetation,] [forest management,] [cropland management,] [grazing land management and] [wetland management].

7. [A Party included in Annex I wishing to account for activities under Article 3, paragraph 4, in the second commitment period shall identify, in its report to enable the establishment of its assigned amount pursuant to Article 3, paragraphs 7 and 8, the activities under Article 3, paragraph 4, that it elects to include in its accounting for the second commitment period. Upon election, a decision by a Party will be fixed for the second commitment period. *(Delete or revise if all or some activities are mandatory.)*]

7 bis. [Activities elected by a Party under Article 3, paragraph 4, in the first commitment period shall continue to be accounted for in the second commitment period. This accounting shall be incorporated into the calculation of its assigned amount pursuant to Article 3, paragraphs 7 and 8.]

8. During the second commitment period, a Party included in Annex I that selects any or all of the activities mentioned in paragraph 6 above (if any), in addition to those already selected for the first commitment period, shall demonstrate that such activities have occurred since 1990 and are human-induced. A Party included in Annex I shall not account for emissions by sources and removals by sinks resulting from activities under Article 3, paragraph 4, if these are already accounted for under Article 3, paragraph 3.

9. For the second commitment period, accountable anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from [revegetation,] [forest management,] [cropland management,] [grazing land management,] [wetland management,] under Article 3, paragraph 4, shall be equal to anthropogenic greenhouse gas emissions by sources and removals by sinks in the commitment period, less [X] times the anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from these eligible activities in the base year of that Party, while avoiding double accounting. *(Forest management would be deleted from this paragraph depending on the option adopted).*

Accounting for forest management

Option 1 (caps):

11. For the second commitment period, additions to and subtractions from the assigned amount of a Party resulting from forest management under Article 3, paragraph 4, and from forest management project activities undertaken under Article 6 shall not exceed the value inscribed in the appendix^[10], times [x].]

Option 2 (reference levels):

11. For the second commitment period, accountable anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from forest management under Article 3, paragraph 4, shall be equal to anthropogenic greenhouse gas emissions by sources and removals by sinks in the commitment period, less [X] times the reference level inscribed in the appendix.¹¹

¹⁰ [In arriving at the values in the appendix, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol was guided by the application of an 85 per cent discount factor to account for the removals identified in paragraph 1 (h) of decision 16/CMP.1 and a 3 per cent cap on forest management, using a combination of data provided by Parties and by the Food and Agriculture Organization of the United Nations. Consideration was also given to national circumstances (including the degree of effort needed to meet Kyoto commitments and the forest management measures implemented). The accounting framework established in this paragraph shall not be construed as establishing any precedent for the second and subsequent commitment periods.]

¹¹ [The forest management reference levels inscribed in the appendix were set transparently, taking into account:

[11 bis. [Neither credits nor debits shall result if net removals or emissions are [between the reference level and zero] [within X per cent¹² of the reference level. In this case, credits or debits outside this range shall be generated by the difference calculated with reference to X per cent above or below the reference level according to whether the net removals or emissions are above or below.]]

11 ter. [For the second commitment period, additions to [and subtractions from] the assigned amount of a Party resulting from forest management under Article 3, paragraph 4, and from forest management project activities undertaken under Article 6 shall not exceed the quantitative limitation inscribed in the appendix, times [x].]

11 quater. [A Party may reconsider its reference level as inscribed in the appendix and described in paragraph 11 above upon changing the methodologies, coverage of carbon pool and/or activity data used in its accounting of emissions by sources and removals by sinks resulting from forest management for the second commitment period. Such reconsideration shall be based on the elements contained in the footnote to paragraph 11 above and be included in the national greenhouse gas inventory report of the Party. This information will be subject to review as part of the expert review of the Party's national greenhouse gas inventory in accordance with relevant decisions related to Article 8 of the Kyoto Protocol.]

D. Article 12

12. Afforestation and reforestation are eligible projects activities under the clean development mechanism in the second commitment period. Activities additional to afforestation and reforestation will be eligible if agreed by any future decision of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.

13. The modalities and procedures contained in decision 5/CMP.1 for afforestation and reforestation project activities under the clean development mechanism, and in decision 6/CMP.1 for small-scale afforestation and reforestation project activities under the clean development mechanism, shall apply, mutatis mutandis, to the second commitment period. Alternative approaches to addressing the risk of non-permanence may apply in accordance with any future decisions of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.

14. For the second commitment period, the total of additions to a Party's assigned amount resulting from afforestation and reforestation project activities under Article 12 shall not exceed one per cent of base year emissions of that Party, times [X].

E. General

15. Each Party included in Annex I shall, for the purpose of applying the definition of "forest" as contained in paragraph 1 (a) above, apply the definition of forest selected in the first commitment period.

-
- (a) Removals or emissions from forest management as shown in greenhouse gas inventories and relevant historical data;
 - (b) Age-class structure;
 - (c) Forest management activities already undertaken;
 - (d) Projected forest management activities;
 - (e) Continuity with the treatment of forest management in the first commitment period;
 - (f) The need to exclude removals in accordance with decision 16/CMP.1, paragraph 1 (h).

Points (c), (d) and (e) above were applied where relevant.

[The forest management reference levels also took into account the need for consistency with the provisions for addressing force majeure contained in paragraphs 19 bis to 19 septies by excluding emissions by sources and removals by sinks due to force majeure.]

¹² "X per cent" refers to a percentage of the reference level. It assumes the same value would apply for all Parties.

16. Those Parties included in Annex I that did not select a definition of forest for the first commitment period shall, for the purpose of applying the definition of “forest” as contained in paragraph 1 (a) above, select a single minimum tree crown cover value of between 10 and 30 per cent, a single minimum land area value of between 0.05 and 1 hectare and a single minimum tree height value of between 2 and 5 metres.

17. For the second commitment period, and subject to other provisions in this annex, the additions to and subtractions from the assigned amount of a Party pursuant to Article 3, paragraphs 7 and 8, shall be equal to anthropogenic greenhouse gas emissions by sources and removals by sinks measured as verifiable changes in carbon stocks, and non-carbon dioxide greenhouse gas emissions during the period [1 January 2013] to [31 December [YY]] resulting from afforestation, reforestation and deforestation under Article 3, paragraph 3, [and forest management under Article 3, paragraph 4,] that have taken place since 1 January 1990. Where the result of this calculation is a net sink of greenhouse gases, this value shall be added to the assigned amount of that Party. Where the result of this calculation is a net source of greenhouse gas emissions, this value shall be subtracted from the assigned amount of that Party. *(This paragraph may need to be revised in light of decisions on forest management.)*

18. Accounting of anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from land use, land-use change and forestry activities under Article 3, paragraphs 3 and 4, shall begin with the onset of the activity or the beginning of the commitment period, whichever comes later.

19. Once land is accounted for under Article 3, paragraphs 3 and 4, all anthropogenic greenhouse gas emissions by sources and removals by sinks on this land must be accounted for throughout subsequent and contiguous commitment periods.

Force majeure

[Option 1: *delete section on Force Majeure*]

[Option 2: *(paragraphs 19 bis through 19 septies)*]

19 bis. Each Party shall, for the purposes of applying the definition of force majeure, select a single minimum value for total annual greenhouse gas emissions by sources and removals by sinks in the range [Y to 5 per cent] of the total national emissions included in the base year. The selection made by the Party shall be fixed for the duration of the [commitment period]. Each Party shall explain why and how the value was chosen.]

19 ter. Where force majeure has occurred during the second or subsequent commitment periods affecting carbon stocks on lands subject to Article 3, paragraph 3, and[, if elected,] land subject to activities under Article 3, paragraph 4, a Party included in Annex I may, at the end of the commitment period, or annually during the commitment period, [exclude from accounting the associated total annual [CO₂] [greenhouse gas emissions] until they have been balanced by subsequent removals], [or] [carry over the associated [CO₂] [greenhouse gas emissions] to the subsequent commitment period] provided that no land-use change has occurred on those lands. Emissions associated with the harvesting of salvage wood shall not be [excluded] [or] [carried over].

19 quater. A Party included in Annex I that applies the provisions of force majeure shall calculate the emissions and removals subject to the provisions contained in paragraph 19 bis above, showing that these emissions and removals comply with the definition of force majeure, and provide information:¹³

- (a) Showing that all lands subject to the provisions contained in paragraph 19 ter above are identified, including the geo-referenced location, year and type of force majeure;

¹³ Not all of the information listed below may be needed in the case of carry-over.

- (b) Showing that no land-use change has occurred on lands subject to the provisions contained in paragraph 19 ter above and describing how lands monitoring will identify any future land-use changes on those lands;
- (c) That demonstrates that the occurrence or severity of the events or circumstances was beyond the control of, and not materially influenced by, the Party, by demonstrating efforts to manage or control, where practicable, the events or circumstances that led to the application of the provisions contained in paragraph 19 ter above;
- (d) That demonstrates efforts taken to rehabilitate, where practicable, the carbon stocks on the lands subject to the provisions contained in paragraph 19 ter above;
- (e) Describing the system in place to ensure the monitoring and reporting of emissions and subsequent removals occurring on lands subject to the provisions contained in paragraph 19 ter above;
- (f) That demonstrates that removals by sinks on lands after force majeure has occurred do not enter the accounting until they equal the [CO₂][greenhouse gas] emissions excluded owing to force majeure;
- (g) That demonstrates consistency with the treatment of force majeure in reference levels established for forest management;
- (h) Showing that emissions associated with the harvesting of salvaged wood were not [excluded] [or] [carried over].

19 quinquies. The supplementary information described in paragraph 19 quater above shall be included in the national greenhouse gas inventory reports of Parties. Actual emissions and removals and those described in paragraph 19 quater above shall be included in the common reporting format tables provided by Parties. All information and estimates referred to in paragraph 19 quater above will be subject to expert review as part of the expert review of the national greenhouse gas inventory reports submitted by Parties.

19 sexies. [Parties included in Annex I must ensure that their reporting continues to provide estimates of emissions by sources and removals by sinks until the greenhouse gas emissions due to force majeure have been balanced by subsequent removals, and ensure unbiased accounting by maintaining consistency with the treatment of reference levels established for forest management.]¹⁴

19 septies. The lands subject to force majeure must re-enter the accounting when the excluded greenhouse gas emissions and subsequent removals have been balanced on those lands.]

20. National inventory systems established under Article 5, paragraph 1, shall ensure that information on the areas of land subject to land use, land-use change and forestry activities under Article 3, paragraphs 3 and 4, are identifiable, and information on these areas shall be provided by each Party included in Annex I in their national inventories in accordance with Article 7. Such information will be reviewed in accordance with Article 8.

21. Each Party included in Annex I shall account for all changes in the following carbon pools: above-ground biomass, below-ground biomass, litter, dead wood, [and] soil organic carbon [and harvested wood products]. A Party may choose not to account for a given pool in a commitment period, if transparent and verifiable information is provided that demonstrates that the pool is not a source.

21 bis. [When accounting for greenhouse gas emissions by sources and removals by sinks, Parties included in Annex I may remove the impacts of inter-annual variability.]

Harvested wood products

¹⁴ This may not be needed in the case of carry-over.

[Option 1: *Delete section on Harvested Wood Products.*]

[Option 2: *(paragraphs 21 ter through 21 novies)*]

21 ter. Emissions from carbon in wood removed from forests accounted for under Article 3 shall be accounted for by the producing country, as a default, on the basis of instantaneous oxidation, or on the basis of estimates of when emissions occur, provided that verifiable and transparent data are available. Accounting¹⁵ shall be confined to harvested wood products¹⁶ originating from harvested forest for which emissions and removals have been included in the accounting of the Party.

21 quater. Emissions from carbon in wood removed from forests accounted for under Article 12 shall be accounted, as a default, on the basis of instantaneous oxidation, or on the basis of estimates of when emissions occur, provided that verifiable and transparent data are available. Accounting shall be confined to harvested wood products originating from harvested forest for which emissions and removals have been included in the accounting of the afforestation/reforestation project activity.

21 quinquies. Accounting may be on the basis of when emissions occur for the domestically produced and consumed harvested wood products pool only, and may also be on the basis of when emissions occur for the exported harvested wood products pool.

21 sexies. Estimates of net emissions from harvested wood products shall specify product categories and the underlying assumptions used for both domestic and export markets.

21 septies. When a Party accounts for exported harvested wood products on the basis of when emissions occur, estimates shall be reported separately for each country to which the harvested wood products are exported, using nationally specific data on the fate of the wood in the importing country.

21 octies. Emissions from harvested wood products in solid waste disposals sites shall be accounted for on the basis of instantaneous oxidation.

[21 novies. Emissions that occur during the commitment period¹⁷ from the harvested wood pool arising from wood harvested by the Party prior to 31 December 2007 [and since 1990] shall also be accounted for, using the same procedure as above and in line with the latest Intergovernmental Panel on Climate Change guidance, approved by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.]

21 decies. Parties included in Annex I shall maintain consistency in the treatment of harvested wood products in the reference level and in the commitment period, and in order to do so shall make an accounting adjustment if necessary, and shall report on how the adjustment was made.]]

¹⁵ Where a ratio is applied for accounting of emissions and removals from forest management, it shall also apply to the harvested products pool (*will be further elaborated in the text pending on the accounting rules to be agreed*).

¹⁶ Definitions and classifications of wood products provided by the Food and Agriculture Organization of the United Nations shall apply.

¹⁷ Noting that emissions from harvested wood products originating from harvests accounted for under Article 3, paragraph 3, and for some parts of Article 3, paragraph 4, (for those Parties that elected forest management) over the period 2008 to 2012 have already been accounted for on the basis of instantaneous oxidation of carbon in harvested wood products.

[Option B

A. Definitions

(Definitions of afforestation and reforestation moved to decision 5/CMP.1)

1. The following definitions shall apply:

- (a) “Forest” is a minimum area of land of 0.05–1.0 hectares with tree crown cover (or equivalent stocking level) of more than 10–30 per cent with trees with the potential to reach a minimum height of 2–5 metres at maturity in situ. A forest may consist of either closed forest formations where trees of various storeys and undergrowth cover a high proportion of the ground or open forest. Young natural stands and all plantations which have yet to reach a crown density of 10–30 per cent or tree height of 2–5 metres are included under forest, as are areas normally forming part of the forest area which are temporarily unstocked as a result of human intervention such as harvesting or natural causes but which are expected to revert to forest;
- (b) “Forest land” includes all land with woody vegetation which falls under the definition of forest;
- (c) “Cropland” includes all arable and tillage land as well as agroforestry systems which do not fall under the category of forest land;
- (d) “Grassland” includes [all] rangeland and pasture land as well as agroforestry systems which do not fall under the categories of forest land and cropland;
- (e) “Wetlands” includes land that is covered or saturated by water for all or part of the year, such as peatland, and which does not fall under the forest land, cropland, grassland or settlements categories;
- (f) “Settlements” includes all developed land, including transportation infrastructure and human settlements of any size, which does not fall under the forest land, cropland, grassland or wetlands categories;
- (g) “Other land” includes bare soil, rock, ice and all land areas which do not fall under the forest land, cropland, grassland, wetlands or settlements categories.
- [h) Option 1: “Force majeure” means, for the purposes of this decision, an extraordinary event or circumstances beyond the control of Parties.

Option 2: “Expected net emissions” is the algebraic sum of anthropogenic emissions by sources and removals by sinks of the greenhouse gases listed in Annex A to the Kyoto Protocol from the sectors which are expected to be accounted for during the relevant commitment period; it is expressed in gigagrams of carbon dioxide equivalent.]

B. Accounting rules for greenhouse gas emissions and removals

2. Option 1: For the purpose of accounting greenhouse gas emissions and removals from land use, land-use change and forestry, a Party shall account for anthropogenic greenhouse gas emissions by sources and removals by sinks on forest land, cropland, grassland, wetlands and settlements as well as greenhouse gas emissions by sources and removals by sinks resulting from land-use changes from the land-use categories forest land, cropland, grassland, wetlands or settlements to any other land-use category.

Option 2: For the purpose of accounting greenhouse gas emissions and removals from land use, land-use change and forestry, a Party shall account for those anthropogenic greenhouse gas emissions by sources and removals by sinks [on forest land and] from land-use changes occurring from the forest land category to other land-use categories and vice versa, and [for the second commitment period [only]] may account for those anthropogenic greenhouse gas emissions by sources and removals by sinks on [forest land,] cropland, grassland, wetlands and settlements as well as greenhouse gas emissions by sources and removals by sinks resulting from land-use changes occurring from cropland, grassland, wetlands or settlements to any other land-use category.

[Option 2 addendum: Where anthropogenic greenhouse gas emissions by sources and removals by sinks on forest land are not accounted for, the accounted anthropogenic greenhouse gas emissions by sources and removals by sinks from the land use, land-use change and forestry sector shall be adjusted for the displaced emissions. Displaced emissions are the anthropogenic greenhouse gas emissions by sources that occur on forest lands and are the consequence of reductions in emissions reported under an accounted category, as in the case of biomass fuel combustion in the energy sector.

A similar provision shall be included under Option A of this annex to cope with no or partial accounting of forest land: Where anthropogenic greenhouse gas emissions by sources and removals by sinks on forest land are not completely accounted for because either no election of forest management has taken place or the forest management activity does not cover the whole national area of forest land, anthropogenic emissions by sources and removals by sinks from land use, land-use change and forestry activities shall be adjusted for displacement of emissions. Displaced emissions are the anthropogenic greenhouse gas emissions by sources which occur on forest land and are the consequence of a reduction in emissions reported under an accounted category, as in the case of biomass fuel combustion in the energy sector.]

3. Anthropogenic greenhouse gas emissions and removals from land use, land-use change and forestry shall be estimated using the guidance provided in the *2006 IPCC Guidelines for National Greenhouse Gas Inventories* or any further guidelines for greenhouse gas inventories adopted by [the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol] [Parties] for this purpose.

4. For the purpose of accounting, greenhouse gas emissions by sources and removals by sinks resulting from land use change occurring on forest land, cropland, grassland, wetland or settlement during the commitment period shall be reported under the land category to which the land has been converted.

Option 1:

5. For the second commitment period, accountable anthropogenic greenhouse gas emissions by sources and removals by sinks resulting from land use, land-use change and forestry shall be equal to the anthropogenic greenhouse gas emissions by sources and removals by sinks in the commitment period, less [[five] [X] times] the anthropogenic greenhouse gas emissions by sources and removals by sinks [that take place on [forest land], cropland, grassland, wetlands and settlements in the [base year] [base period]] [reported as the reference level] of that Party, while avoiding double accounting.

6. For the second commitment period [only], additions to and subtractions from the assigned amount of a Party¹⁸ resulting from anthropogenic greenhouse gas emissions by sources and removals by sinks occurring on forest land shall:

Option A: Be subject to the application of a [x per cent] discount factor.

Option B: Not exceed the value inscribed in the appendix below, times [five] [X].

¹⁸ In accordance with decision -/CMP.1 (“Modalities for the accounting of assigned amounts”).

Option C: (Bar approach/Reference level – text included under Option A of this annex is applied here.)

7. For the second commitment period, and subject to other provisions in this annex, the additions to and subtractions from the assigned amount of a Party pursuant to Article 3, paragraphs 7 and 8, shall be equal to the anthropogenic greenhouse gas emissions by sources and removals by sinks measured as verifiable changes in carbon stocks, and non-carbon dioxide greenhouse gas emissions during the period [1 January 2013 to] [31 December [YY]] occurring on forest land. Where the result of this calculation is a net sink of greenhouse gases, this value shall be added to the assigned amount of that Party. Where the result of this calculation is a net source of greenhouse gas emissions, this value shall be subtracted from the assigned amount of that Party. *(This paragraph may need to be revised to make it consistent with paragraphs 5 and 6 above.)*

Option 2:

5. Any Party included in Annex I should apply as the reference level for the land use, land-use change and forestry sector the aggregate carbon dioxide equivalent anthropogenic greenhouse gas emissions by sources and removals by sinks estimated for the period 20XX–20XX. Taking into account national circumstances, any Party included in Annex I may apply a different reference level for the land use, land-use change and forestry sector from that selected in Article 3, paragraph 3, (as amended)¹⁹ of the Kyoto Protocol. To do so, the Party shall submit, no later than two years before the start of the relevant commitment period, the proposed values and relevant elements in support of such a deviance. The submission should be made together with the Party's annual greenhouse gases inventory submission. Submitted data should be subject to the review procedure, and the agreed reference level should be part of the Party's annual review report on its greenhouse gas inventory.

C. Article 12

(Text included under Option A of this annex is applied here.)

D. General

8. *(Same as Option A, paragraph 16)*
9. *(Same as Option A, paragraph 19)*
10. *(Same as Option A, paragraph 20)*
11. Option 1: *(Same as Option A, paragraph 21)*

Option 2: Each Party included in Annex I shall account for all changes in the following carbon pools: above-ground biomass, below-ground biomass, litter, dead wood, soil organic carbon and harvested wood products. A Party may choose not to account for a given pool in a commitment period if transparent and verifiable information is provided to show that the exclusion of that pool does not result in discounting a debit.²⁰ *(The same text shall also be included under Option A of this annex.)*

¹⁹ See page 38 of annex V to document FCCC/KP/AWG/2009/8.

²⁰ A debit means that either the average annual net increase in carbon stocks reported in the commitment period is smaller than that reported in the reference period or an average annual net decrease in carbon stocks has been reported in the reference period.

[Option I:

12. A Party included in Annex I in which a force majeure has occurred during the second or subsequent commitment periods, affecting carbon stocks on forest land [and [, if elected,] other land categories], may

Option 1: request [a review process²¹], at the end of the commitment period, for the emissions and subsequent removals up to the levels prior to the event classified as force majeure to be removed from accounting. The carbon stocks resulting from any land use changes that occur in those areas shall not be removed from accounting and the corresponding emissions shall be fully accounted for.

Option 2: choose to carry over to the next commitment period(s) the non-anthropogenic emissions resulting from the event classified as force majeure.

13. (*Same as Option A, paragraph 19*)

[Option II:

12. The Parties included in Annex I shall submit a proposed value for the expected net emissions of the land use, land-use change and forestry sector for the following commitment period, together with data which support the selected values. The values and data shall be submitted to the Conference of the Parties serving as the meeting to the Parties to the Kyoto Protocol before an agreement is reached on the quantified emission limitation and reduction commitments for the commitment period to which the data refer.

13. Together with the list of quantified emission limitation or reduction commitments for Parties inscribed in Annex B to the Kyoto Protocol, an appendix to this annex containing a list of expected net emissions from the agriculture, forestry and other land use sector for each Party inscribed in Annex B shall be adopted by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol. The value for the expected net emissions shall be the algebraic sum of anthropogenic emissions by sources and removals by sinks from the land use, land-use change and forestry sector of the greenhouse gases listed in Annex A that are expected to be accounted for during the commitment period to which it is applied; the value shall be expressed in gigagrams of carbon dioxide equivalent.]

14. At the end of the commitment period, any Party included in Annex I shall calculate the difference between anthropogenic greenhouse gas emissions by sources and removals by sinks measured as verifiable changes in carbon stocks, and non-carbon dioxide greenhouse gas emissions during the period 1 January 2013 to 31 December 20XX resulting from land use, land-use change and forestry sector the expected net emissions of that Party inscribed in the appendix to this annex. Where the result of this calculation is a positive value, this value shall be subtracted from the accounted anthropogenic greenhouse gas emissions by sources and removals by sinks from the land use, land-use change and forestry sector of that Party; moreover, an equivalent amount shall be added to the accounted anthropogenic greenhouse gas emissions by sources and removals by sinks from the land use, land-use change and forestry sector in the following commitment period.

15. (*Text included under Option A for harvested wood products is applied here.*)

²¹ Using guidance to be agreed.

Draft decision -/CMP.5

Emissions trading and the project based mechanisms

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling Articles 6, 12 and 17 of the Kyoto Protocol,

[*Recognizing* that developed country Parties shall achieve their quantified emissions limitation and reduction commitments primarily through domestic reduction efforts,] [*Recalling* decision 2/CMP.1, paragraph 1,]

Noting the reports of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its sessions to date,

I. Clean development mechanism

Carbon dioxide capture and storage

Option 1:

1. *Decides* that activities relating to carbon dioxide capture and storage shall not be eligible under the clean development mechanism in the second commitment period owing to unresolved concerns and issues at the international level, including:

- (a) Non-permanence, including long-term permanence;
- (b) Measurement, reporting and verification;
- (c) Environmental impacts;
- (d) The definition of project activity boundaries;
- (e) Issues of international law;
- (f) Issues of liability;
- (g) The potential for the creation of perverse incentives for increased dependency on fossil fuels;
- (h) Safety;
- (i) The absence of insurance coverage to provide compensation for damage to the environment and to the atmosphere resulting from storage site leakage;

Option 2:

2. *Decides* that activities relating to carbon dioxide capture and storage in geological formations shall be eligible under the clean development mechanism in the second and subsequent commitment periods;

3. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for inclusion under the clean development mechanism of the activities referred to in paragraph 2 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its [sixth] [seventh] session, including in relation to:

- (a) Non-permanence, including long-term permanence;
- (b) Measuring, reporting and verification;
- (c) Environmental impacts;
- (d) The definition of project activity boundaries;
- (e) Issues of international law;
- (f) Issues of liability;
- (g) Insurance to compensate for leakage;
- (h) The potential for perverse outcomes;
- (i) Safety;

Nuclear

Option 1:

4. *Decides* that activities relating to nuclear facilities shall not be eligible under the clean development mechanism in the second commitment period;

Option 2:

5. *Recognizes* that Parties included in Annex I to the Convention that are also Parties to the Kyoto Protocol are to refrain from using certified emission reductions generated from nuclear facilities to meet their quantified emission limitation and reduction commitments;

Option 3:

6. *Decides* that activities relating to nuclear facilities that commenced operation on or after 1 January 2008 shall be eligible under the clean development mechanism in the second and subsequent commitment periods;

7. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for inclusion under the clean development mechanism of the activities referred to in paragraph 6 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its seventh session;

Crediting based on nationally appropriate mitigation actions

Option 1:

8. *No decision to be made with respect to this issue*

Option 2:

9. *Decides* to set up a nationally appropriate mitigation action crediting mechanism under the Kyoto Protocol, in which credits for verifiable nationally appropriate mitigation actions of developing country Parties not included in Annex I to the Convention can be issued in order to assist such Parties in achieving sustainable development and contributing to global efforts to combat climate change;

10. *Further decides* that this crediting mechanism shall be subject to the authority and guidance of the Conference of the Parties and be supervised by a dedicated body constituted by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol;

11. *Agrees* that the criteria and standards by which credits issued for nationally appropriate mitigation actions need to be established, building on the current methodology for the clean development mechanism;

12. *Agrees* to adopt a decision at its sixth session on the operation of this crediting mechanism, including in relation to:

- (a) The scope of the nationally appropriate mitigation actions eligible to generate credits;
- (b) Methodologies to measure and verify the generation of nationally appropriate mitigation actions;

Standardized baselines

Option 1:

13. *No decision to be made with respect to this issue*

Option 2:

14. *Decides* that, where appropriate, in order to enhance the environmental integrity, efficiency and regional distribution of the clean development mechanism, standardized baselines shall be used on a national or subnational level for specific project activity types in the determination of additionality and the calculation of emission reductions and removals;

15. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for the definition, periodic adjustment and use of standardized baselines as referred to in paragraph 14 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its sixth session;

Improving regional distribution and access²²

16. *Requests* the Executive Board of the clean development mechanism to establish simplified modalities for demonstrating additionality for certain project activity types, initially project activities of 5 megawatts or less that employ renewable energy [and/or clean fossil fuel technologies] as their primary technology and energy efficiency project activities that aim to achieve energy savings at a scale of 20 gigawatt hours per year or less;

²² This option may require an amendment to the Kyoto Protocol.

17. *Decides* to permit the postponement of the payment of the registration fee for project activities hosted in Parties with fewer than 10 registered project activities until the first issuance of certified emission reductions;

18. *Requests* the Executive Board of the clean development mechanism to provide upfront financing for the validation, verification and certification of project activities hosted in Parties with fewer than 10 registered project activities through the provision of loans under the clean development mechanism management plan, to be repaid upon the first issuance of certified emission reductions;

19. *[[Decides that] [Encourages]* Parties included in Annex I to the Convention that are also Parties to the Kyoto Protocol *[should] [to]* take reasonable measures *[such that 10 per cent of all certified emission reductions used to comply with their quantified emission limitation and reduction commitments in the second commitment period are] [to use]* certified emission reductions from project activities hosted in Parties with fewer than 10 registered project activities;]

20. *Requests* the Executive Board of the clean development mechanism to include in its annual report to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol, as of 2010, an update on actions taken relating to the measures referred to in paragraphs 16 to 19 above;

Co-benefits

Option 1:

21. *No decision to be made with respect to this issue*

Option 2:

22. *Requests* the Executive Board of the clean development mechanism to implement measures in the registration and ongoing assessment of project activities to enhance the visibility of their co-benefits;

Discount factors

Option 1:

23. *No decision to be made with respect to this issue*

Option 2:

24. *Decides* that specified project activities under the clean development mechanism shall generate certified emission reductions equal to the certified level of emission reductions or removals adjusted by a discount factor;

25. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for the discount factors referred to in paragraph 24 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its seventh session;

II. Joint implementation

Nuclear

Option 1:

26. *Decides* that activities relating to nuclear facilities shall not be eligible under joint implementation in the second commitment period;

Option 2:

27. *Recognizes* that Parties included in Annex I to the Convention that are also Parties to the Kyoto Protocol are to refrain from using emission reduction units generated from nuclear facilities to meet their quantified emission limitation and reduction commitments;

Option 3:

28. *Decides* that activities relating to nuclear facilities that commenced operation on or after 1 January 2008 shall be eligible under joint implementation in the second and subsequent commitment periods;

29. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for inclusion under joint implementation of the activities referred to in paragraph 28 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its seventh session;

Co-benefits

Option 1:

30. *No decision to be made with respect to this issue*

Option 2:

31. *Requests* the Joint Implementation Supervisory Committee to implement measures in the determination and ongoing assessment of projects under the Joint Implementation Supervisory Committee to enhance the visibility of their co-benefits;

III. Other

Carry-over (banking)

Option 1:

32. *Decides* that limits on the carry-over of units from the first commitment period to the second commitment period shall apply to the carry-over of units from the second and subsequent commitment periods to future commitment periods;

Option 2:

33. *Decides* that there shall be no restrictions on the carry-over of units from the second and subsequent commitment periods to future commitment periods;

Share of proceeds

Option 1:

34. *No decision to be made with respect to this issue*

Option 2:²³

35. *Decides* that, to assist developing country Parties that are particularly vulnerable to the adverse effects of climate change [and/or the implementation of response measures] to meet the costs of adaptation, [0.5] [2] [8] per cent of assigned amount units and removal units [for the second and subsequent commitment periods] for each Party included in Annex I to the Convention with a commitment inscribed in Annex B to the Kyoto Protocol shall be issued and transferred to the specified account of the Adaptation Fund before the remaining assigned amount units and removal units may be issued;

Commitment period reserve

36. *Decides* to review at its seventh session, and revise as appropriate, the design of the commitment period reserve for the second commitment period to support the effective operation of emissions trading, taking into account, inter alia, the relevant rules, modalities, guidelines and procedures for measuring, reporting, verification and compliance;

Emissions trading

Option 1:

37. *No decision to be made with respect to this issue*

Option 2:

38. *Decides* to enable all Parties to participate in the trading of units generated from all market-based mechanisms;

39. *Decides* to enable all Parties included in Annex I to the Convention with a commitment inscribed in Annex B to the Kyoto Protocol to use units generated from all market-based mechanisms to meet their quantified emission limitation and reduction commitments;

40. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for the measures referred to in paragraphs 38 and 39 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its seventh session;

New market-based mechanisms

Option 1:

41. *No decision to be made with respect to this issue*

²³ This option may require an amendment to the Kyoto Protocol.

Option 2:²⁴

42. *Decides* to establish new market-based mechanisms that provide for the voluntary participation of Parties, reflect net contributions to global mitigation efforts by developing country Parties, and are subject to the authority and guidance of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol;

43. *Requests* the Subsidiary Body for Scientific and Technological Advice to recommend modalities and procedures for the new market-based mechanisms referred to in paragraph 42 above, with a view to forwarding a draft decision on this matter to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol for adoption at its sixth session;

Supplementarity

Option 1:

44. *No decision to be made with respect to this issue*

Option 2:

45. *Decides* that, for the second commitment period, additions to and subtractions from the assigned amount of a Party resulting from emissions trading and the project-based mechanisms shall not exceed 30 per cent of the quantified emission limitation and reduction commitment of that Party.

²⁴ This option may require an amendment to the Kyoto Protocol.

Draft decision -/CMP.5

Greenhouse gases, sectors and source categories; common metrics to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks; and other methodological issues

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling Article 3, paragraph 9, and Articles 5, 7, 8, 20 and 21 of the Kyoto Protocol,

Also recalling decisions 1/CMP.1 and 3/CMP.4,

Having considered proposals by Parties relating to greenhouse gases, sectors and source categories, common metrics to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks, and other methodological issues,

Noting the reports of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its tenth session and the oral report by the Chair to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its fifth session,

Taking into account proposals by Parties for elements of draft decisions contained in the annex to the report of the Ad Hoc Working Group on Further Commitments for Annex I Parties to the Kyoto Protocol at its tenth session,

In relation to greenhouse gases, sectors and source categories

Option 1:

1. *[Affirms] [Decides]* that, for the second commitment period of the Kyoto Protocol, the actual emissions of hydrofluorocarbons and perfluorocarbons, including new species included by the Intergovernmental Panel on Climate Change in its Fourth Assessment Report, as well as actual emissions of sulphur hexafluoride, [nitrogen trifluoride], [fluorinated ethers], [perfluoropolyethers] [and] [trifluoromethyl sulphur pentafluoride] should be estimated, [where data [or methodologies] are available,] and used for the reporting of emissions [and shall be included in the coverage of the quantified emission limitation and reduction objectives for the second commitment period];

Option 2:

Provisions of the Kyoto Protocol relating to coverage of greenhouse gases and sectors remain unchanged;

In relation to common metrics to calculate the carbon dioxide equivalence of emissions by sources and removals by sinks

2. *Decides* that, for the second commitment period of the Kyoto Protocol, the global warming potentials used by Parties to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks of greenhouse gases listed in Annex A to the Kyoto Protocol shall be those [provided by the Intergovernmental Panel on Climate Change in its Second Assessment Report as referred to in decision 2/CP.3 (“1995 IPCC GWP values”)] [listed in the column entitled “Global Warming Potential for Given Time Horizon” in table 2.14 of the Errata to the contribution Working Group I to the Fourth

Assessment Report of the Intergovernmental Panel on Climate Change], based on the effects of greenhouse gases over a 100-year time horizon, taking into account the inherent and complicated uncertainties involved in global warming potential estimates;

[Note: If the Parties decide to use the Second Assessment Report and to add new gases or new groups of gases to Annex A, then the following text would be added to the paragraph above:

3. *Also decides* that for those greenhouse gases listed in Annex A to the Kyoto Protocol for which values for global warming potentials are not provided in the Second Assessment Report, the values used shall be those listed in the column entitled “Global Warming Potential for Given Time Horizon” in table 2.14 of the Errata to the contribution of Working Group I to the Fourth Assessment Report of the Intergovernmental Panel on Climate Change, based on the effects of greenhouse gases over a 100-year time horizon;]
4. *Requests* the Subsidiary Body for Scientific and Technological Advice to conduct an assessment, based on the work of, inter alia, the Intergovernmental Panel on Climate Change, of the implications of the choice of metrics used to calculate the carbon dioxide equivalence of anthropogenic emissions by sources and removals by sinks of the greenhouse gases listed in Annex A to the Kyoto Protocol for the third or subsequent commitment periods;
5. *Also requests* the Subsidiary Body for Scientific and Technological Advice to initiate such an assessment no later than 2015 and present its recommendations on the most appropriate metric and related values to be used by Parties to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol, with a view to the Conference of the Parties serving as the meeting of the Parties adopting a decision on the metric and related values;
6. *Decides* that any decision adopted by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol to change the metric or revise the values used by Parties to calculate carbon dioxide equivalence shall apply only to commitments under Article 3 of the Kyoto Protocol in respect of any commitment period adopted subsequent to that change or revision;
7. *Encourages* the Parties to the Convention, the Kyoto Protocol and any related legal instruments to strive for a consistent approach in relation to the metric and related values used by Parties to calculate the carbon dioxide equivalence of greenhouse gases;

In relation to application of the 2006 IPCC Guidelines for National Greenhouse Gas Inventories

8. *Acknowledges* that the Subsidiary Body for Scientific and Technological Advice, at its thirtieth session, agreed to launch a work programme in 2010 to revise the “Guidelines for the preparation of national communications by Parties included in Annex I to the Convention, Part I: UNFCCC reporting guidelines on annual inventories” (hereinafter referred to as the UNFCCC Annex I reporting guidelines) and to address the methodological issues related to reporting when using the *2006 IPCC Guidelines for National Greenhouse Gas Inventories*, with a view to recommending a draft decision on revised UNFCCC Annex I reporting guidelines for adoption by the Conference of the Parties for regular use starting in 2015;
9. *Decides* that, starting with the second commitment period of the Kyoto Protocol, the methodologies for estimating anthropogenic emissions by sources and removals by sinks of greenhouse gases not controlled by the Montreal Protocol for the greenhouse gases and sectors/source categories listed in Annex A to the Kyoto Protocol shall be consistent with the *2006 IPCC Guidelines for National Greenhouse Gas Inventories* as implemented through the

revised UNFCCC Annex I reporting guidelines to be adopted through the process referred to in paragraph 8 above;

10. *Also decides* that for the estimation and accounting of anthropogenic emissions by sources and removals by sinks of greenhouse gases under Article 3, paragraphs 3 and 4, of the Kyoto Protocol, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol shall agree on supplementary methodologies, referred to in paragraph xx of decision -/CMP.5, at its [...] session at the latest which shall be based on, inter alia, chapter 4 of the *Good Practice Guidance for Land Use, Land-Use Change and Forestry* of the Intergovernmental Panel on Climate Change;

11. *Further decides* that time series of emissions by sources and removals by sinks of greenhouse gases, including base year emissions, shall be recalculated for the second commitment period.

[In relation to the sector/source categories listed in Annex A to the Kyoto Protocol]

12. *Agrees* that for the second commitment period of the Kyoto Protocol:

- (a) [The category “Energy/Fuel combustion/Other” includes the subcategory “CO₂ transport and storage”];
- (b) The category “Industrial processes/Other” includes the subcategory “electronics industry”;
- (c) The category “Waste/Other” includes the subcategory “biological treatment of solid waste”];

In relation to cross-cutting issues

13. *Requests* the Subsidiary Body for Scientific and Technological Advice to assess the implications of the action taken in accordance with paragraphs 1–11 above on the decisions that guide the reporting and review under Articles 5, 7 and 8 of the Kyoto Protocol, with a view to preparing relevant draft decisions for adoption by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its seventh session, at the latest;

14. *Also requests* the Subsidiary Body for Scientific and Technological Advice to address any transitional issues arising from actions taken in accordance with paragraphs 1–12 above on the decisions that guide the reporting and review under Articles 5, 7 and 8 of the Kyoto Protocol, with a view to preparing relevant draft decisions for adoption by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its seventh session, at the latest.

[Draft decision -/CMP.5]²⁵

Consideration of information on potential environmental, economic and social consequences, including spillover effects, of tools, policies, measures

Recalling that the work of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on the consideration of information on potential environmental, economic and social consequences, including spillover effects, of tools, policies, measures and methodologies available to Annex I Parties (hereinafter referred to as potential consequences) should be guided and informed by Article 2, paragraph 3, and Article 3, paragraph 14, of the Kyoto Protocol, the relevant provisions and principles of the Convention and the best available relevant scientific, social, environmental and economic information,

Emphasizing that the work of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol should be guided by the ultimate objective of the Convention, as set out in its Article 2,

Noting that a framework for consideration of potential consequences has been established through decisions 15/CMP.1, 27/CMP.1 and 31/CMP.1,

Also noting that additional work on this issue should, in accordance with the provisions, principles and relevant Articles of the Convention and its Kyoto Protocol, build on relevant decisions of the Conference of the Parties and of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol, and work being carried out by other bodies and in other processes under the Convention and its Kyoto Protocol, with the aim of maintaining an approach that is coherent with other work under the UNFCCC process,

Further noting that striving to minimize the adverse impacts of mitigation policies and measures is a common concern of both developing and developed countries,

Noting that there could be both positive and negative consequences of mitigation policies and measures,

Also noting that the work on the consideration of potential consequences should focus on minimizing negative potential consequences for Parties, especially developing country Parties,

Recognizing that although potential negative consequences [could] present challenges for all Parties, they [will] [could] be most severe for developing country Parties, in particular,

Option 1: Those identified in Article 4, paragraphs 8, 9 and 10, of the Convention,

Option 2: The poorest and most vulnerable developing country Parties that are least capable of addressing such consequences,²⁶

Noting the challenges in anticipating, attributing and quantifying potential consequences,

²⁵ Parties have not yet agreed whether this text will be a decision or a set of conclusions.

²⁶ A group has asked for the deletion of this paragraph.

Underlining the importance of Article 3, paragraph 5, of the Convention in the implementation of Article 2, paragraph 3, and Article 3, paragraph 14, of the Kyoto Protocol,

Noting that the work on potential consequences should not constrain or hinder progress in addressing climate change, should benefit from the experiences of Parties and lessons learned, should take into consideration the role of national policies and measures and should consider both negative and positive potential consequences,

Also noting that the impacts of potential consequences may be influenced by the institutional capacity and regulatory framework in Parties not included in Annex I to the Convention (non-Annex I Parties),

1. *Urges* Annex I Parties to support the efforts of non-Annex I Parties in strengthening such capacities and frameworks in this regard,
2. *Recognizes* that there is a need to deepen the understanding of potential consequences and any observed impacts and that this can be achieved through various means, including:
 - (a) The regular and systematic provision by all Parties of information that is as complete as possible, on potential and observed impacts of policies and measures, in particular through national communications, and the regular review of this information;
 - (b) Assessment of potential consequences and observed impacts carried out by, inter alia, relevant national institutions and international organizations;
 - (c) Information from work being carried out by other UNFCCC bodies that may be relevant in considering potential consequences;

3.

[Option 1: *Decides* to review the guidelines contained in decision 15/CMP.1 on the preparation of the information required under Article 7 of the Kyoto Protocol in order to assist Parties included in Annex I to the Convention (Annex I Parties) to report on potential consequences in their national communications];

Option 2: *Decides* to use the existing guidelines contained in decision 15/CMP.1;

Alternative to options 1 and 2: *Decides* that [the careful design by] Parties included in Annex I to the Convention [should carefully design their][of] policies and measures under Article 2 of the Kyoto Protocol [to][could] assist them in striving to implement such policies and measures consistent with Article 2.3 of the Kyoto Protocol in such a way as to minimize negative potential consequences on non-Annex I Parties.

4.

Option 1: *Noting* that in accordance with decision 27/CMP.1, the Compliance Committee shall address questions of implementation of Article 3, paragraph 14, of the Kyoto Protocol regarding potential consequences.

Also noting that one way to facilitate compliance by Annex I Parties with their commitments under Article 2, paragraph 3, of the Kyoto Protocol is to enable affected Parties to submit questions of implementation of response measures to the facilitative branch of the Compliance Committee;

Decides to use the Compliance Committee or to establish a permanent forum as a means for Parties to report impacts and consequences of policies and measures; this would offer a common space where Parties may provide information on their specific needs and concerns relating to those consequences, and identify ways to minimize negative consequences of these policies and measures adopted by Annex I Parties on Parties not included in Annex I to the Convention;²⁷

Option 2: *Noting* that national communications and their review under the Subsidiary Body for Implementation provide a channel through which Parties can report on impacts and consequences of the policies and measures of Annex I Parties;

Recommends that Parties report in their national communications on observed impacts and specific needs and concerns relating to social, environmental and economic consequences of mitigation actions taken by Parties;

²⁷ A group has asked for the deletion of this paragraph.

Draft decision -/CMP.5

Application of decision 14/CP.7

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Recalling decisions 1/CP.3, paragraph 5 (d), and 14/CP.7 on impact of single projects on emissions in the commitment period,

Recalling also its decisions 7/CMP.3 and 8/CMP.3,

Recognizing the importance of renewable energy in meeting the objective of the Convention,

1. *Decides* that, the provisions of decision 14/CP.7, adopted by the Conference of the Parties at its seventh session, shall continue to apply for the second commitment period with the conditions detailed therein.

Annex II

**Documents prepared for the
Ad Hoc Working Group on Further Commitments for
Annex I Parties under the Kyoto Protocol at its tenth session**

Documents prepared for the session

FCCC/KP/AWG/2009/10/Rev.3	Documentation to facilitate negotiations among Parties. Note by the Chair
FCCC/KP/AWG/2009/10/Add.1/Rev.2	Documentation to facilitate negotiations among Parties. Note by the Chair. Revised addendum. Proposed amendments to the Kyoto Protocol pursuant to its Article 3, paragraph 9
FCCC/KP/AWG/2009/10/Add.2	Documentation to facilitate negotiations among Parties. Note by the Chair. Addendum. Other proposed amendments to the Kyoto Protocol
FCCC/KP/AWG/2009/10/Add.3/Rev.3	Documentation to facilitate negotiations among Parties. Note by the Chair. Revised addendum. Draft decisions on other issues identified in paragraph 49 (c) of document FCCC/KP/AWG/2008/8
FCCC/KP/AWG/2009/10/Add.4/Rev.2	Documentation to facilitate negotiations among Parties. Note by the Chair. Revised addendum. A compilation of proposals by Parties for aggregate and individual figures for Annex I Parties
FCCC/KP/AWG/2009/12/Rev.2	Consideration of information on potential environmental, economic and social consequences, including spillover effects, of tools, policies, measures and methodologies available to Annex I Parties. Revised note by the Chair
FCCC/KP/AWG/2009/15	Provisional agenda and annotations. Note by the Executive Secretary
FCCC/KP/AWG/2009/16	Scenario note on the tenth session. Note by the Chair
FCCC/KP/AWG/2009/L.14	Draft report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its tenth session
FCCC/KP/AWG/2009/L.15	Report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its fifth session

Other documents before the session

FCCC/KP/AWG/2009/14	Report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its ninth session, held in Bangkok from 28 September to 9 October 2009, and Barcelona from 2 to 6 November 2009
FCCC/KP/AWG/2008/8	Report of the Ad Hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol on its resumed sixth session, held in Poznan from 1 to 10 December 2008
FCCC/KP/AWG/2009/MISC.16	Organizational matters. Submissions from Parties
