Technical briefing by the Chair of the AWG-LCA on historical responsibility as a guide to future action to address climate change

13.15–14.45, Plenary II

Attendance: Open to all participants

In response to a request made by some Parties during the fifth session of the AWG-LCA, the Chair will organize a technical briefing to enable Parties to receive and share views on the concept of historical responsibility as a guide to future action to address climate change. After general introductory remarks by experts to the concept and its application in other areas, the delegations of Brazil, Bolivia, China and India will make presentations on historical responsibility and related concepts. These will be followed by interactive discussions.

International transaction log interactive exercise

In accordance with decision 12/CMP.1 and as requested by the SBI at its twenty-ninth session, an interactive exercise will be conducted in Salon Mann on **Saturday, 6 June**, demonstrating the functioning of the international transaction log (ITL) with other registry systems, including the clean development mechanism registry and representative national registries.

With different scenarios participants will learn the concepts behind the ITL and how transactions of Kyoto Protocol units are performed. The event is divided into two parts: a demonstration of the systems and hands-on activities with participants.

INFORMATION NOTE

Fellowship Programme – Second round

This information note is addressed to Parties to the Convention and to Parties to the Kyoto Protocol, as well as to observer States. It has been sent to national focal points for climate change, or, for those Parties that have not yet identified national focal points, to their diplomatic missions accredited to the Federal Republic of Germany.

The Climate Change Secretariat announces the launch of the second round of its fellowship programme, the objective of which is to contribute to building capacity for addressing climate change in Parties not included in Annex I to the Convention, **in particular Parties that are small island developing States or least developed countries**. The programme aims to develop local professional expertise by:

- (a) Supporting innovative analytical work on climate change in the context of sustainable development;
- (b) Promoting a network of experts who can bring creative and innovative options to bear on questions of climate change;
- (c) Encouraging the leadership potential of promising young professionals in their fields.

The target group for the programme is mid-career professionals who are already employed by a Government and who are nationals of and working in a developing country, **preferably a small island developing State or least developed country**.

For the second round of the fellowship programme, candidates are encouraged to complete and submit their applications by 31 July 2009. For more information on the programme and eligibility requirements, please consult the UNFCCC website at the following address:
