- (b) Organization of the work of the session

3. *Background:* The thirty-second session of the SBI will be held from 31 May to 9 June 2010. A detailed schedule of the session will be posted on the UNFCCC website.

4. Given that four bodies will be meeting during the sessional period, the time available for contact groups and informal consultations will be very limited. To maximize the use of meeting time, the Chairs of the subsidiary bodies may, where possible and appropriate, propose that the co-chairs of negotiating groups facilitate agreement by tabling initial draft conclusions at the first meeting of the negotiating groups, based on relevant submissions and statements made during plenary meetings, and taking into account any previous negotiations and/or conclusions.

5. The SBI, at its thirtieth session,² agreed that all meetings should end by 6 p.m., particularly to give Parties and regional groups sufficient time to prepare for daily meetings, but may, in exceptional circumstances, and on a case by case basis, continue for two to three hours. The session will be organized taking this into account. In order to enable delegations to participate fully in other meetings taking place in parallel, the SBI will be invited to conduct its deliberations as efficiently as possible, including to optimize time used for plenary and for informal negotiations, and to finish its work within the time foreseen. Items that are not concluded at this session will be forwarded to the SBI for consideration at its thirty-third or thirty-fourth session.

6. In accordance with the conclusions adopted by the SBI at its twenty-fourth session,³ representatives of Parties and international organizations are requested to keep their oral statements as brief as possible. Those representatives wishing to make available a written statement should bring copies for distribution.

7. Parties are invited to refer to the overview of the session posted on the UNFCCC website and to consult the Daily Programme, published during the session, for a detailed and up-to-date schedule of the work of the SBI.

8. When considering relevant agenda items, Parties are also invited to take into account information contained in document FCCC/SB/2007/INF.2 on the relationship of various provisions of the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States to the work of the Convention and its Kyoto Protocol.

² FCCC/SBI/2009/8, paragraph 115.

³ FCCC/SBI/2006/11, paragraph 102.

3. National communications and greenhouse gas inventory data from Parties included in Annex I to the Convention

- (a) Report on national greenhouse gas inventory data from Parties included in Annex I to the Convention for the period 1990–2007

10. *Background:* The Conference of the Parties (COP), by its decision 19/CP.8, requested⁴ the secretariat to provide information relating to greenhouse gas (GHG) inventory data submitted by Parties included in Annex I to the Convention (Annex I Parties) taken from the latest available inventory submissions for consideration by the COP and the subsidiary bodies. The secretariat has prepared a document annually since 2003 containing statistics on inventory submissions from Annex I Parties, summaries of GHG emissions/removals data for individual Annex I Parties, and some indicative trends for all Annex I Parties taken together, for Annex I Parties with economies in transition and for remaining Annex I Parties.

11. The SBI, at its thirty-first session, considered the agenda item and agreed to continue its consideration of matters under this agenda sub-item at its thirty-second session.⁵

12. *Action:* The SBI will be invited to continue its consideration of the information contained in the document below and consider the implications arising therefrom.

As at 16 February 2010, the secretariat had received 34 NC5s from Annex I Parties.

14. In accordance with decisions 2/CP.1, 6/CP.3, 11/CP.4 and 33/CP.7, each national communication submitted by an Annex I Party was subject to review. This included an in-depth in-country review of the submitted national communications, as well as the preparation by the secretariat of a compilation and synthesis of these national communications for consideration by the COP. In accordance with decision 7/CP.11, the review of the fourth national communications submitted by Annex I Parties was organized by the secretariat as a centralized review, except for those Parties that requested an in-depth review.

15. According to the “Guidelines for review under Article 8 of the Kyoto Protocol”, each national communication submitted under the Kyoto Protocol by an Annex I Party shall be subject to a scheduled in-country review and the expert review teams shall make every effort to complete the individual review of national communications within two years of their submission. Following these guidelines, the secretariat plans to organize 14 in-country reviews of NC5s in 2010. In addition, the same guidelines request the secretariat to prepare a report on the compilation and synthesis of national communications of Annex I Parties submitted under the Kyoto Protocol in accordance with the decisions of the COP and the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP).

The SBI may wish to provide further guidance on the in-depth review of NC5s, in particular with regard to options for organizing centralized reviews for some Parties with smaller economies.

The SBI, at its thirtieth session,¹⁰ invited the GEF to continue to provide information on its activities relating to the preparation of national communications from non-Annex I Parties, including information on the dates of approval of funding and disbursement of funds. 27. *Background:* The COP, by its decision 2/CP.12, requested the SBI to initiate the fourth review of the financial mechanism at its twenty-seventh session and report on the outcome to the COP no later than at its sixteenth session. By its decision 6/CP.13, the COP adopted additional guidelines for the review of the financial mechanism and requested the SBI to recommend, in accordance with decision 2/CP.12, a draft decision on the review for adoption by the COP at its fifteenth session.

28. - (a) Issues arising from the scheduling and organization of sessions for the second half of 2010;
- (b) The venue for COP 18 and CMP 8, which are scheduled to be held from 26 November to 7 December 2012;

(d) Organization of the intergovernmental process

89. *Background:* The May/June session of the SBI has traditionally provided Parties with an opportunity to consider how their intergovernmental process is functioning and to take decisions on relevant matters, including providing guidance to presiding officers and the secretariat. For example, the SBI at its thirtieth session provided guidance on the scheduling of future sessions, the timing of meetings and the timely translation of documents.³⁶

90. As a result of events at COP 15 and CMP 5, Parties will want to take stock of certain elements of the intergovernmental process, consider options for improvements and provide relevant guidance. Issues in question relate to methods of negotiation, transparency, inclusiveness and efficiency in negotiations, how to improve the engagement of ministers and political leaders, the role of the high-level segment and the roles and level of engagement of observer organizations in the process. In this context, the Bureau, at its first meeting in 2010, agreed on the importance of improving negotiation methods, while remaining
