VII. Issues relating to the clean development mechanism

(Agenda item 7)

44. At its 2nd meeting, on 30 November, the CMP had before it document FCCC/KP/CMP/2011/3 (Parts I and II) containing the annual report of the Executive Board of the clean development mechanism (CDM) to the CMP. The report covers activities in the period from 15 October 2010 to 26 October 2011.

45. In introducing this item, the President recalled that the CDM is a unique mechanism that has played a crucial role in contributing to the sustainable development goals of developing countries that host CDM projects and in supporting the contributions to mitigation efforts of Parties included in Annex I to the Convention (Annex I Parties).

46. At the invitation of the President, the Chair of the Executive Board of the CDM, Mr. Martin Hession (United Kingdom of Great Britain and Northern Ireland), provided an overview of the Board's annual report to the CMP. He highlighted important milestones achieved in 2011 to improve the efficiency, effectiveness and equity of the mechanism, including the implementation of new review processes, consolidation of CDM requirements, improvements to additionality assessments and measures taken to improve the regional distribution of the mechanism. In pointing out the contribution of the CDM to sustainable development and technology transfer, the Chair stressed the importance of improving access to the mechanism and engaging stakeholders. He also announced that the United Nations Office for Project Services, with support from the United Nations Environment Programme's Risoe Centre, had been selected as the implementing agency for the loan scheme requested by the CMP at its sixth session.

47. The Chair also reported on the Board's initiative to launch the CDM policy dialogue, led by an independent, high-level panel, which will undertake consultations with civil society, policymakers and business and will develop recommendations on how to ensure the effectiveness of the CDM in contributing to future global climate action.

Following her proposal, the CMP decided to establish a contact group, co-chaired by Ms. Carolina Fuentes Castellanos (Mexico) and Mr. Kunihiko Shimada (Japan).

51. The President reminded Parties that several members and alternate members of the CDM Executive Board needed to be elected by the CMP at the session. She noted that she had requested Ms. Andrea Garcia Guerrero (Colombia) and Mr. Andrej Kranjc (Slovenia) to undertake consultations on the matter.

52. At the resumed 10th meeting, on 11 December, the President reported that the contact group was unable to reach an agreement on all paragraphs of the draft decision text contained in document FCCC/KP/CMP/2011/L.11. She extended her appreciation to both Ms. Fuentes Castellanos and Mr. Shimada for their efforts in delivering draft decision text on this important matter and noted that those paragraphs that had been agreed upon within the draft decision text provide a strong basis to guide the work of the CDM over the next year.

(Agenda item 8(b))

55. At its 2nd meeting, on 30 November, the CMP had before it document FCCC/KP/CMP/2011/4 containing the sixth annual report of the Joint Implementation Supervisory Committee (JISC), which covers the activities of the JISC during the period from 24 October 2010 to 14 September 2011.

56. In introducing the two agenda sub-items together, the President recalled that joint implementation (JI) under Article 6 of the Kyoto Protocol provides an opportunity for Annex I Parties with a commitment inscribed in Annex B to the Kyoto Protocol to acquire emission reduction units resulting from projects hosted by any other such Party aimed at reducing emissions of greenhouse gases or enhancing removals by sinks.

57. At the invitation of the President, the Chair of the JISC, Mr. Muhammed Quamrul Chowdhury (Bangladesh), provided an overview of the annual report of the JISC to the CMP. He highlighted several key achievements in 2011, including increased investments in JI projects, streamlined and simplified accreditation procedures for independent third-party verifiers and progress made in the establishment of a Designated Focal Point Forum. The Chair also elaborated on the recommendations of the JISC to the CMP on how it may enhance JI and make it a more effective mechanism in the future.

58. Following the report of the Chair of the JISC, representatives of four Parties made statements, including one speaking on behalf of the European Union and its member States and one speaking on behalf of the LDCs.

59. The President noted that, in order to acknowledge the work accomplished and to provide further guidance on JI, the CMP at its seventh session would need to adopt a decision under this agenda item. Following her proposal, the CMP decided to establish a contact group, co-chaired by Mr. Balisi Gopolang (Botswana) and Mr. Helmut Hojesky (Austria).

60. The President also reminded Parties that several members and alternate members of the JISC needed to be elected by the CMP at the session. She noted that she had requested Ms. Garcia Guerrero and Mr. Kranjc to undertake consultations on the matter.

61. At the 10th meeting, on 9 December, the President reported that the contact group had produced a draft decision for adoption by the CMP. She extended her appreciation to Mr. Gopolang and Mr. Hojesky for their efforts in delivering a decision on this important matter. On a proposal by the President,²¹ the CMP adopted decision 11/CMP.7 entitled “Guidance on the implementation of Article 6 of the Kyoto Protocol”.

62. At the resumed 10th meeting, on 11 December, the President reported the results of the consultations undertaken by Ms. Garcia Guerrero and Mr. Kranjc on nominations to the JISC, and thanked them for their hard work. On a proposal by the President, the CMP took note that groups and constituencies had nominated candidates for election to the Committee and urged groups to come forward with the pending nominations. The CMP further agreed that, in accordance with established practice, once these nominations had been received by the secretariat they would be deemed elected by the CMP at its seventh session. The CMP, acting on a proposal by the President, elected the following members and alternate members, as well as replacement alternate member, of the JISC:²²

The President invited the co-chairperson of the plenary of the Compliance Committee, Ms. Sandea De Wet (South Africa), to provide an overview of the report of the Compliance Committee to the seventh session of the CMP. Ms. De Wet reported that in 2011 the enforcement branch considered questions of implementation relating to Bulgaria, Croatia, Lithuania, Romania and Ukraine, resulting in the adoption of 17 decisions. She noted the high volume of work that the branch was dealing with and the difficulties in relation to the scheduling of meetings and the achievement of a quorum at those meetings. She also noted that the facilitative branch reached a common understanding on how to exercise its mandate to provide advice and facilitation to Parties in implementing the Kyoto Protocol and agreed to continue to develop its practice in this regard, in particular in relation to its role to promote compliance and provide for early warning of potential non-compliance as a result of issues arising from the reports of the in-depth reviews of fifth national communications and information submitted pursuant to Article 7 of the Kyoto Protocol. She stated that the Compliance Committee addressed once again the need for privileges and immunities for its members and alternate members, as well as the Committee's deliberations on the consistency of Article 8 reviews under the Kyoto Protocol. She thanked those governments that contributed to the Trust Fund for Supplementary Activities to support the work of the Compliance Committee in the biennium 2010–2011.
