UNITED NATIONS FRAMEWORK CONVENTION ON CLIMATE CHANGE

**Subsidiary Body for Implementation**

**Fortieth session**

**Bonn, 4–15 June 2014**

Item 12(a) and (b) of the provisional agenda

**Capacity-building**

**Capacity-building under the Convention**

**Capacity-building under the Kyoto Protocol**

**Views on specific issues to be considered at the 3<sup>rd</sup> meeting of the Durban Forum and on its organization, and information on activities undertaken to implement the framework for capacity-building in developing countries**

**Submissions from Parties**

**Addendum**

1. In addition to the three submissions contained in document FCCC/SBI/2014/MISC.2, two further submissions from one Party<sup>1</sup> have been received.
2. In accordance with the procedure for miscellaneous documents, these submissions are attached and reproduced\* in the language in which they were received and without formal editing.

---

<sup>1</sup> Available at <[www.unfccc.int/5902](http://www.unfccc.int/5902)>.

\* These submissions have been electronically imported in order to make them available on electronic systems, including the World Wide Web. The secretariat has made every effort to ensure the correct reproduction of the texts as submitted.

## Paper A: Burundi

### ***BURUNDI submission on Capacity Building under the Convention.***

Decision 2/CP.17 established the Durban Forum for in-depth discussion on capacity-building with the participation of Parties, representatives of the relevant bodies established under the Convention, and relevant experts and practitioners, with a view to sharing their experiences and exchanging ideas, best practices and lessons learned regarding the implementation of capacity-building activities.

While the Durban Forum is a good platform for sharing experiences regarding implementation of Capacity Building, it does not provide the mechanism for translating the lessons learnt into actions on ground.

Burundi would like to take this opportunity to thank the UNFCCC Secretariat for the organization of the first and the 2<sup>nd</sup> sessions of the Durban Forum and would take this opportunity to highlight two important elements:

**I) A transparency technical and financial mechanism** is required to ensure further implementation of capacity building framework for:

- (a) Ensuring consultations with stakeholders throughout the entire process of activities, from the design of activities to their implementation, monitoring and evaluation;
- (b) Enhancing integration of climate change issues and capacity building needs into national development strategies, action plans and policy;
- (c) improving country-driven coordination of capacity-building activities;
- (d) Strengthened networking and information sharing among developing countries, especially through South-South and triangular cooperation;
- e) Ensuring gender equity
- f) etc....

**II) An establishment of a capacity building committee under the Convention** could emphasize effective capacity building decisions implementation at international, regional and national level

## Paper B: Burundi

### ***BURUNDI submission on Capacity Building under Kyoto Protocol.***

Decision 2/CP.17 established the Durban Forum for in-depth discussion on capacity-building with the participation of Parties, representatives of the relevant bodies established under the Convention, and relevant experts and practitioners, with a view to sharing their experiences and exchanging ideas, best practices and lessons learned regarding the implementation of capacity-building activities.

While the Durban Forum is a good platform for sharing experiences regarding implementation of Capacity Building, it does not provide the mechanism for translating the lessons learnt into actions on ground.

**Burundi would like to take this opportunity to thank the UNFCCC Secretariat for the** organization of the first and the 2<sup>nd</sup> sessions of the Durban Forum and would take this opportunity to highlight two important elements:

**I) A transparency technical and financial mechanism** is required to ensure further implementation of capacity building framework for:

- (a) Ensuring consultations with stakeholders throughout the entire process of activities, from the design of activities to their implementation, monitoring and evaluation;
- (b) Enhancing integration of climate change issues and capacity building needs into national development strategies, action plans and policy;
- (c) Improving country-driven coordination of capacity-building activities;
- (d) Strengthened networking and information sharing among developing countries, especially through South-South and triangular cooperation;
- e) Ensuring gender equity
- f) etc...

**II) An establishment of a capacity building committee under the Convention** could emphasize effective capacity building decisions implementation at international, regional and national level
