The session will close on Monday, 14 November, in order to ensure that work is completed before the arrival of Heads of State and Government and ministers for the high-level segment and the start of the many events planned during this segment. In order to maximize negotiation time and ensure timely closure of the session, presiding officers will propose, in consultation with Parties and in a transparent manner, time-saving approaches to the organization and scheduling of meetings during the session taking into account previous relevant SBI conclusions.³ In this context, the presiding officers of the SBI, the Subsidiary Body for Scientific and Technological Advice (SBSTA) and the Ad Hoc Working Group on the Paris Agreement (APA) will propose cut-off times for group work and deadlines for submission of conclusions to ensure that they are available in all six official languages of the United Nations for the closing plenary. During the MA working group sessions, developed country Parties' progress towards the achievement of emission reductions and removals related to their quantified economy-wide emission reduction targets is multilaterally assessed. The modalities and procedures for this process were adopted at the seventeenth session of the Conference of the Parties (COP).⁴

5. The first round of the IAR process was conducted in the period 2014–2015, during which 43 developed country Parties were multilaterally assessed on the basis of their first biennial reports and sixth national communications.⁵ The MA process for the second round of IAR, to be conducted in the period 2016–2017, will be launched at SBI 45, where 24 Parties will be multilaterally assessed.
