

Statement by the Ghanaian delegation during COP 18 Plenary

Since I am taking the floor for the first time may I thank the people and Government of Qatar for providing this beautiful edifice and other necessary resources put in place for the COP18.

The Ghanaian delegation wishes you well for your ascendancy to this important position.

May I thank the co chairs for their brilliant and timely presentation of the report on Long-Term Finance.

The report needs further in depth discussions so that useful decisions could be generated which could be taken by the COP to enhance full, adequate and predictable funding sources to address climate change issues in the globe.
