

WORKSHOP ON RESEARCH

Research-related capacity building needs in Mexico

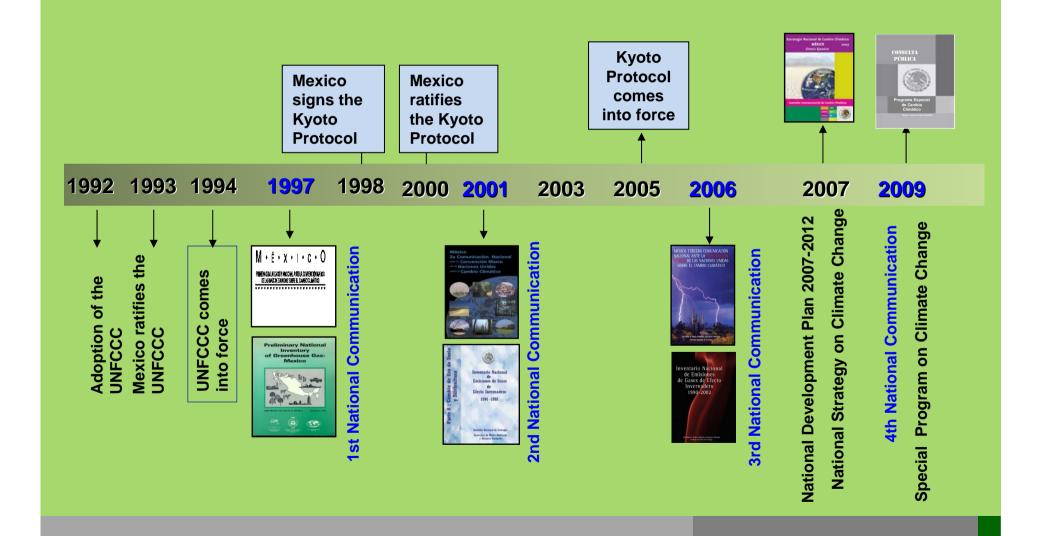

Dr. Rodolfo Godínez Rosales

Director for Environmental Issues

Ministry of Foreign Affairs

Bonn, 3 june 2011

Mexico and the multilateral climate change regime

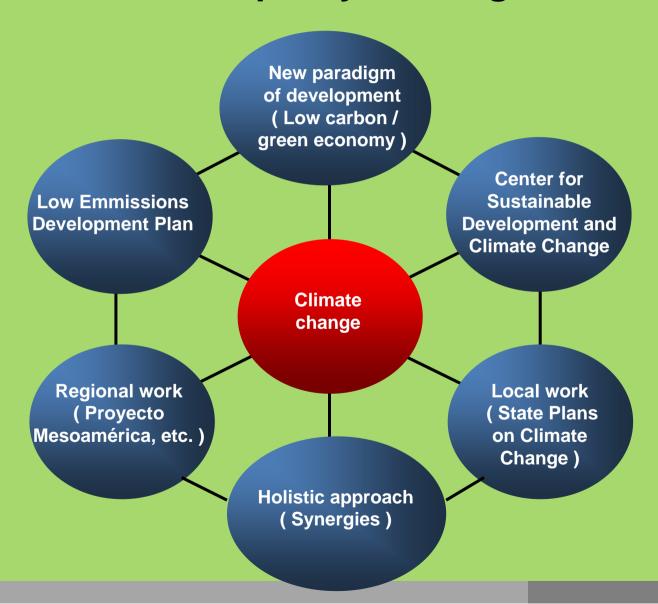

Mexico and the multilateral climate change regime

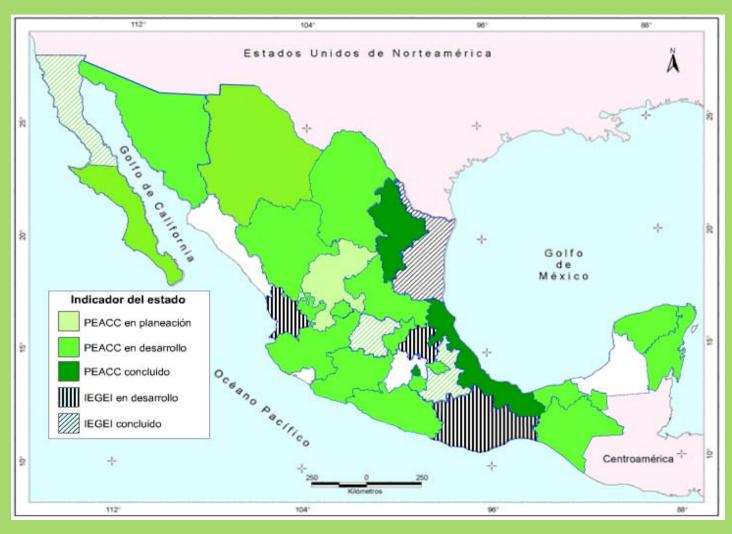

Mexico adopted its Special Climate Change Program (PECC) in 2009 including a set of nationally appropriate mitigation and adaptation actions to be undertaken in all relevant sectors. The full implementation of the Program will achieve a reduction in total annual emissions of **51 million tons of CO2e by 2012**, with respect to the business as usual scenario.

Mexico aims at reducing its GHG emissions up to 30% with respect to the business as usual scenario by 2020, provided the provision of adequate financial and technological support from developed countries as part of a global agreement.

Research-related capacity building needs in Mexico

Three State Plans on Climate Change (Federal District, Nuevo León, Veracruz) have been concluded and twenty two more are underway

State Plans on Climate Change have been funded/supported by the Federal Government and various agencies:

Federal funds: Baja California, Campeche, Coahuila, Durango, Guanajuato, Guerrero, Hidalgo, Morelos, Oaxaca, Puebla, Querétaro, Tabasco, Yucatán, Zacatecas.

Sectorial funds (Ministry of Environment and Natural Resources and National Agency for Science and Technology): Aguascalientes, Baja California, Baja California Sur, Chihuahua, Michoacán, Morelos, Nayarit, Querétaro, San Luis Potosí, Tabasco.

British Embassy in Mexico: Chiapas, Nuevo León, Veracruz.

Spanish Agency for International Development (AECI), along with the National Institute of Ecology: Quintana Roo, Tlaxcala.

Border Environment Cooperation Commission (BECC): Baja California, Chihuahua, Coahuila, Sonora, Tamaulipas for the development of GHG inventories.

Japan International Cooperation Agency (JICA): Campeche, Quintana Roo, Yucatán for technical capacities.
