

Africa Regional Workshop on the Building of Sustainable National
Greenhouse Gas Inventory Management Systems and the use of the 2006
IPCC Guidelines for National GHG Inventories

Workshop Objective, Expectations and Agenda

Maseru, Lesotho, 14 – 18 March 2016

Background and Mandate

SBI 42 Conclusions *FCCC/SBI/2015/10, paragraph 29*

“The SBI noted the **requests from non-Annex I Parties for further technical support aimed at improving** their domestic capacity to facilitate continuity in meeting reporting requirements through training on the **use of the Intergovernmental Panel on Climate Change (IPCC) 2006 IPCC Guidelines for National Greenhouse Gas Inventories, building sustainable national greenhouse gas inventory management systems,** and understanding and applying best practices relevant to the setting up of domestic measurement, reporting and verification systems. It encouraged the secretariat, in coordination with UNEP and the United Nations Development Programme (UNDP), to make every effort to ensure that the relevant training is made available to all non-Annex I Parties.”

Further information is available at <http://unfccc.int/resource/docs/2015/sbi/eng/10.pdf>

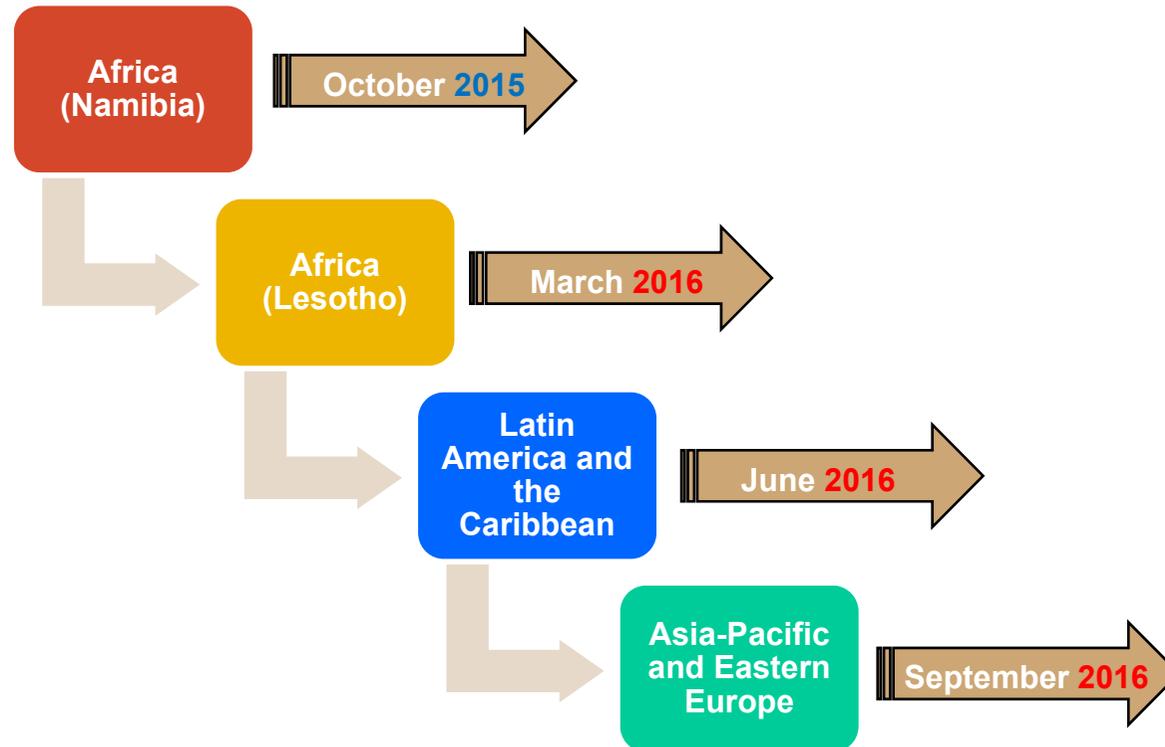

Update on Capacity Building Projects and CGE Training Materials

- The UNFCCC Secretariat lead **capacity building pilot projects** with partner institutions, testing materials/tools to support the establishment of sustainable national greenhouse gas inventory management systems:
 - South-East Asia (2008 – 2014)
 - Eastern and Southern Africa (2011 – 2014)
 - West Africa (2014 – 2017)
- In 2012, the CGE updated its training materials taking inputs from this experience on national GHG inventories, including:
 - national arrangements
 - building sustainable national GHG inventory management systems
- Regional hands-on training workshops on the building of sustainable national GHG inventory management systems and 2006 IPCC Guidelines:
 - Namibia, October, 2015
 - Lesotho, March, 2016
 - Two additional workshops in 2016 (Asia-Pacific/Eastern Europe, Latin America and Caribbean)

Regional Hands-on Training Workshops (2015 - 2016)

The regional hands-on training workshops will be conducted in collaboration with partner organizations (2015-2016) using, among others, CGE and IPCC training materials

- **Primary objective:** providing tools to establish or strengthen national institutional arrangements to support **enhanced reporting** of *national GHG inventories*, linking it with the use of the 2006 IPCC Guidelines.

Objective and expectations from the Workshop

- 1. Disseminate, and start implementing, tools to support the establishment of national GHG inventory management systems
- 2. Link the tools disseminated/used to daily work of national GHG inventory experts and/or coordinators at various stages of GHG inventories development , and discuss how the approach can be applied for other areas of Climate Change related projects/reports
- 3. Share country experiences and possible lessons learned
- 4. Active participation in the hands-on training sessions and plenary discussions
- 5. Provide feedback on the design and content of the workshop

Agenda

- Draft agenda and training materials were made on the FTP
- Updated agenda printed and distributed
- Final version of agenda and training materials reflecting changes will be distributed on USB (Friday)

Logistics

- WiFi
- Simultaneous translation French/English
- Security briefing
- DSA payment
- Coffee breaks
- Lunches
- Feedback surveys
- All **workshop files**, and extra documentation, will be distributed on a **USB stick** on Friday afternoon

Some ground rules

**THANK YOU
FOR THE CALL!**
