

# Refresher seminar for experienced GHG inventory reviewers:

“Experiences from the review of GHG inventories during the 2015 review cycle”

29 February 2016

Bonn, Germany

***Javier Hanna***

UNFCCC secretariat, Mitigation Data and Analysis Programme

# Background

---

- COP 20 (December 2014):

“Training programme for review experts for the technical review of greenhouse gas inventories of Parties included in Annex I to the Convention” (**decision 14/CP.20**)

- ✓ **Refresher seminar for experienced GHG inventory review experts**

**Target audience:** Lead reviewers and experienced review experts of GHG inventories.

Provides general guidance on **specific and complex aspects of the technical review** of GHG emission estimates. It enables experienced review experts for the technical review of GHG inventories to **strengthen and refresh their knowledge**, in relation to both **cross-cutting aspects and sector-specific issues**.

# Background

---

- 2015 GHG inventory review cycle first using the new UNFCCC reporting and review Guidelines and the 2006 IPCC Guidelines
  - Very limited experience due to the limited number of reviews performed in 2015
  - Need to transmit ERTs experience during the reviews:
    - Showing good review practices
    - Positive experiences
    - How difficulties have been addressed during the review process
  - Experiences cover all steps of the review process, as well as some specific sectoral issues
-
