

10th meeting of the Adaptation Committee

Agenda item 5 (a)

Potential partnership platform with national, regional and international organizations, centres and networks

Overview of relevant work under the Nairobi work programme

Bonn, Germany, 13 to 16 September 2016

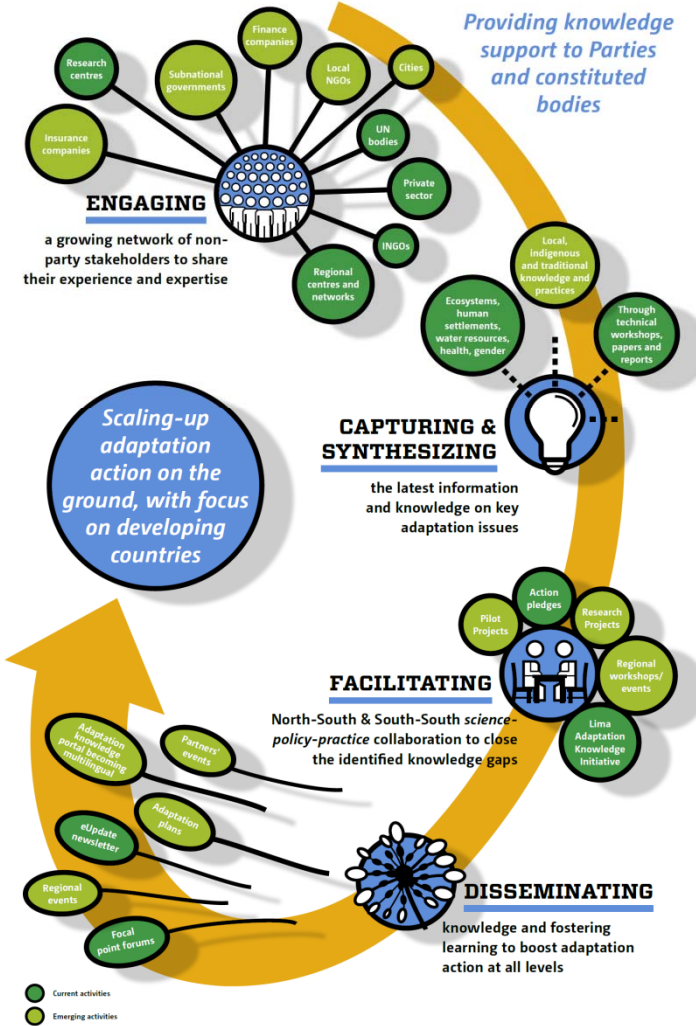

Introduction and background

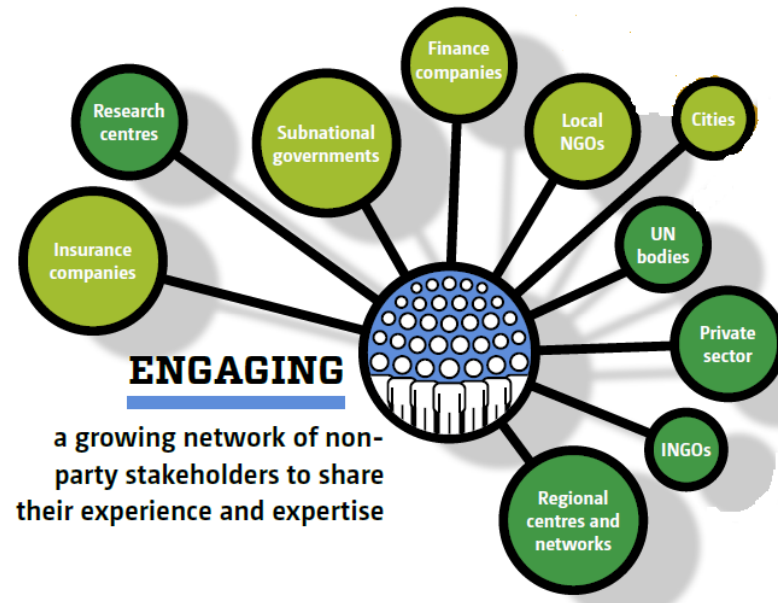

The Nairobi Work Programme

Advancing adaptation action through knowledge

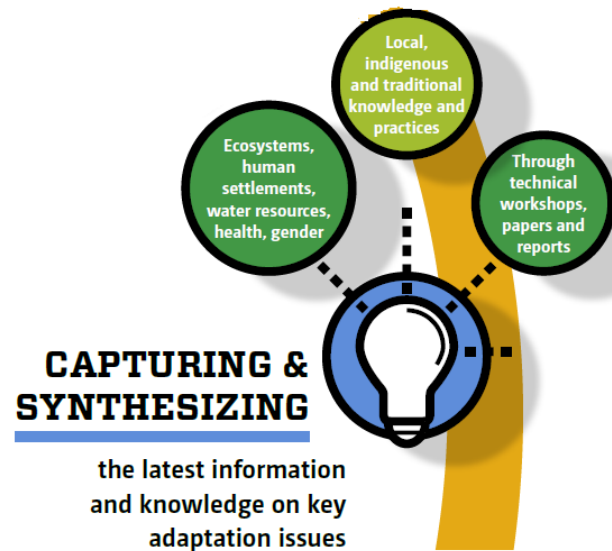

Relevant work under the NWP to the partnership platform

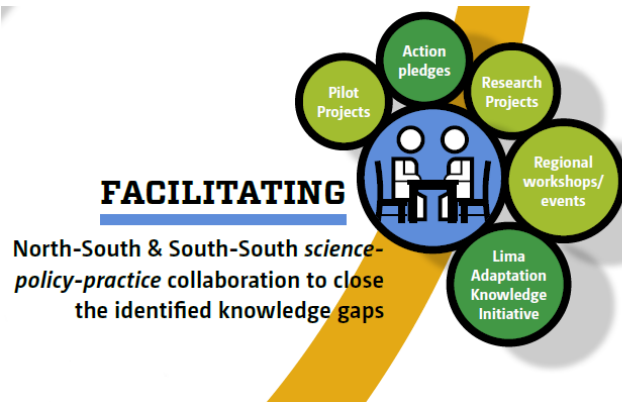

- ❖ **Convenes 300 + non state actors** (~ national, regional and international organizations, centres and networks, diverse disciplines, countries and regions)
- ❖ Provides “**recognition**” for these actors to “share” their experience in response to Parties’ needs
- ❖ Builds collaborative communities of practice through years of **cultivated partnerships**
- ❖ Catalyzes actions by NWP partners to support **the work of the AC, the LEG**
- ❖ **Emerging activities** : **strengthening existing and developing new partnerships** with subnational governments, research and scientific communities (including IPCC), private sector, etc.

Relevant work under the NWP to the partnership platform

- ❖ **Capturing and synthesizing** the latest information and knowledge
- ❖ **Recent work** on linking national and local adaptation planning; areas addressing water resources, human health, ecosystems and settlements, and cross-cutting issues such as gender, local, indigenous and traditional knowledge
- ❖ **Emerging activities** on indicators of adaptation and resilience at the national/local levels, economic diversification, health, human settlements, ecosystems and water resources.

Relevant work under the NWP to the partnership platform

- ❖ **Increasingly responsive to address adaptation knowledge gaps** (e.g. Lima Adaptation Knowledge Initiative (LAKI))
- ❖ **Targeted “partnerships”** with regional centres and networks and global institutions (e.g. emerging activities in undertaking/disseminating knowledge-sharing and training activities)
- ❖ **Emerging activities** to foster collaboration among **policymakers, research and scientific communities, practitioners and financial institutions** to close adaptation knowledge gaps at national/sub national levels.

Relevant work under the NWP to the partnership platform

DISSEMINATING

knowledge and fostering
learning to boost adaptation
action at all levels

- ❖ **Fosters learning through knowledge exchange** and boosts adaptation actions at all levels (e.g. annual focal point forums; technical workshops, informal brainstorming meetings)
- ❖ **Adaptation Knowledge Portal provides an online platform to facilitate global dissemination of knowledge on adaptation**
- ❖ **Emerging activities** include enhancing **participation of UNFCCC national focal points** in disseminating knowledge outputs generated under the NWP to countries; **communicating with partners and relevant organizations, including through webinars**, in collaboration with the AC and the LEG, **on the process to formulate and implement NAPs.**
