## Guiding questions

---

- ❖ In the context of the 7 building blocks (governance structure; policies, regulations and legislation; stakeholder engagement, capacity development; science and knowledge; finance; monitoring, evaluation and learning):
  - What have you done at the national level with regard to adaptation planning and action which contributes to, and builds towards, med- and long-term adaptation;
  - How have you done it?;
  - Why did you make the choices you made?
  
- ❖ Support issues:
  - [placeholder on MOI workshop outcomes]
  - Coordination and collaboration among bilateral and multilateral donors in the context of country ownership and country drivenness.

## I: Background and context (*continued*)

---

### ❖ In the context of the NAP:

- Why do we need reporting?
- What needs to be reported?
- How are existing modalities working?
- What are the constraints and how to overcome them?
- How to build from or use existing modalities to enhance reporting?
