Multiple Benefits Forest Carbon Trading Demonstrate the Theory of “Lucid waters and lush mountains are invaluable assets”

To promote domestic volunteer carbon market development, cooperated with partners, China Green Carbon Foundation attempt new ideas of “forest carbon +X” for forestry addressing climate change. We are demonstrating multiple benefits of ecosystem services and emphasize non-carbon benefits of forestry actions. We are promoting first multiple benefits carbon volunteer market establishment and to achieve the goals of reduce poverty, address climate change, biodiversity conservation and habitat restoration. The side event is co-organized by China Green Carbon Foundation, Tianjin Climate Exchange, and Zhejiang A&F University.

Keynote speech	
Moderator: HOU Yuanqing, Deputy Director of SD Dept. China Green Carbon Foundation	
13:30-13:40	Opening Remarks The leader of climate change department
13:40:14:40	Multiple Benefits Forest Carbon Trading Demonstrate the Theory of “Lucid waters and lush mountains are invaluable assets” Du Yongsheng, Chairman of Board, China Green Carbon Foundation
	Green finance promotes Belt and Road Countries restoration cooperation Luis Neves Silva, Lead, New Generation Plantations WWF
	Bamboo forest and footprint carbon accounting methodologies of bamboo products ZHOU Guomo, Professor, Zhejiang A&F University
	Eco forest carbon credits platform promote reduce poverty and conservation KOU Weiwei, General Manager, Tianjin Climate Exchange
	VCS case study to promote state owned forest land conservation and development Song Yongli, Director, Chao'er Frestry Bureau, Inner Mongolia Forestry Group
	NRDC case study about Nature Resources Management and Climate Change Actions Jake Schmidt, International Program Director, NDRC
Panel Discussion	
Moderator: Kou Weiwei General Manager, Tianjin Climate Exchange	
14:40-15:00	Du Yongsheng, Chairman of Board, China Green Carbon Foundation ZHOU Guomo, Professor, Zhejiang A&F University Bai Yunwen, Green Hub Director, Research Luis Neves Silva, lead, New Generation Plantations WWF Jake Schmidt, International Program Director, NDRC

Global Climate Governance and NGO's Contribution

China has made a great contribution to the global governance. The participation of multiple stakeholders has played a key role, from which the role of NGOs has been well recognized. This side event will focus on exploring and sharing the best practices of NGOs in different countries when mobilizing the public participation in addressing the climate change. Representatives from the Different Climate Action Network will share their stories from civil society organizations in different countries and regions. The topics cover from the public mobilization to policy advocacy. The side event will be jointly organized by CANGO, CPAFFC and School of International Studies, Peking University.

13:30-13:40	<p>Moderator: Zhao Daxing, Vice Chairman & Executive Director of CANGO</p> <p>Opening Remarks SUN Zhen, Deputy General Director of Climate Change Department of Ministry of Ecology and Environment of People's Republic of China</p>
13:40-14:25	<p>The Best Practices Sharing of NGOs in Promoting the Public Participation in Addressing Climate Change Moderator: WANG Xiangyi, Deputy Executive Director of CANGO</p>
	<p>The Best Practice Sharing of Promoting Climate Change Cooperation JI Yongjun, Vice Director, The Chinese People's Association for Friendship with Foreign Countries (CPAFFC) Division of Ngo Affairs; Special Advisor to China Council for International Cooperation and Environment and Development</p>
	<p>NGO's Role in Motivating Public Participation in Zero Waste Lifestyle Danuta CHODAKOWSKA, LiberTea Association</p>
	<p>Global Climate Governance and NGO's Contribution ZHANG Haibin, Deputy Dean, Professor, School of International Studies, Peking University</p>
	<p>The Best Practise Sharing on Policy Advocacy of NGOs in Macedonia Marja KEKENOVSKA, Go Green Association for Sustainable Development and Environmental Protection, Macedonia</p>
	<p>The Best practice Sharing of Low-carbon household WANG Yuan, Beijing Friends of Nature (FoN)</p>
<p>Panel Discussion How can NGOs help society to enhance climate ambitions?</p>	
14:25-15:00	<p>Moderator: Li Xiajie, CANGO</p> <p>Speakers: Stephan SINGER—Senior Advisor of Global Energy Policies; PAN Tao, Director of Institute for sustainable environment and energy (ISEE); ZHANG Jianyu, Country Representative, Environmental Defense Fund Beijing Representative Office</p>

Regional practice of green and low-carbon development in Zhejiang

Aiming to telling Chinese stories, spreading Chinese experience, sharing Chinese program, and strengthening exchanges and cooperation, the side event will showcase and publicize the exploration and practice of China's coastal developed areas in green and low-carbon development, focusing on the regular compiling of GHG inventory at the provincial, city and county levels, pilot and effectiveness on demonstration projects of near-zero carbon emission area, etc in Zhejiang. Under the guidance of national center for climate change strategy and international cooperation (NCSC), the side event is prepared by Zhejiang economic information center.

Keynote speech

Moderator: HUANG Wei, deputy director, Zhejiang economic information center

09:30-09:50

Opening Remarks

MA Aimin, Deputy director, National center for climate change strategy and international cooperation(NCSC)
LIN Mingche, Director of Climate change and energy in China, Natural Resources Defense Council (NRDC)

09:50-11:00

Experience sharing of the regular compiling of GHG inventory at the provincial, city and county levels in Zhejiang Province

WANG Cheng, Zhejiang economic information center

The exploration of holistic "Near-zero Carbon Emission Demonstration Area" in Meishan, Ningbo

CHAI Qimin, Deputy director, National center for climate change strategy and international cooperation(NCSC)

Near-zero carbon emission storage and multimodal transport

XIE Yingbo, General manager assistant and office director, Zhejiang Fuyang Port International Logistics Co., Ltd.

"Four in one" to build near-zero carbon emission demonstration in Zhejiang province

XIAO Xiangze, Zhejiang economic information center

Experience sharing of assisting low-carbon city construction in Zhejiang province

PAN Tao, Technical director, Institute for Sustainable Communities (ISC)

Energy Interconnection Address Climate Change

This side Event is a dialog platform for policy-makers, non-governmental organizations, research institutions, think tanks to discuss about the methods to address climate changes. Energy Interconnection is considered as an effective way to improve energy efficiency and reduce environment pollution. This event is jointly hosted by GEIDCO, CEM Secretariat, and EDF.

11:30-11:40	Opening Remarks The leader of GEIDCO
Panel Discussion Moderator: Jianyu Zhang, Vice executive director, EDF	
11:40-13:15	Energy Transition & Climate Changes Rui Luo, Vice-director, CEM Secretariat
	Clean Energy Development & Carbon Reduction Emission Representative, Energy & Environment Department, Australia
	Conducive Policy and Regulatory on Promoting Clean Energy Development Representative, Energy Department, South Africa
	Energy Transition & Energy Long Distance Transmission Lei Xie, Director, Shanxi Environment Research Institute
	Climate Changes & Carbon Reduction Emission Representative, G-Hub
13:15-13:30	Conclusion

Please contact HUANG Wei ((+86) 13858066968, huangwei@zgb.com.cn) if needed.

Sectoral Decarbonization in Responding to Climate Change

China's power, steel, building materials, petrochemical and non-ferrous sectors are typical energy and emission intensive industries in China, and emission reductions of these key industries will have a major impact on global climate change. Promoting green and low-carbon development of key industries in China through various ways will help them to adopt a new clean development model and better respond to global climate change, such as to eliminate outdated capacity, implement sectoral low-carbonization in the whole process, increase support for scientific and technological research and development, and facilitate technology promotion and renewal. The side-event is co-sponsored by China Low Carbon Alliance and Tsinghua University and will invite representatives from industry associations, enterprises, universities and research institutions to discuss ways to better facilitate sectoral decarbonization.

Keynote speech

Moderator: ZHANG Jianyu, Sectary General, China Low Carbon Alliance

13:30-14:20

Sectoral decarbonization promotes to achieve China's intended Nationally Determined Contributions for tackling climate change targets

HE Jiankun, Director of Academic Committee of the Institute of Climate Change and Sustainable Development of Tsinghua University, Former Deputy President of Tsinghua University

Modelling economic analysis of sectoral decarbonization in carbon market background

TBD

Carbon market facilitates the transformation of China's power sector

ZHANG Jingjie, Director of the Environmental Protection and Climate Change Department, Ministry of Industry Development and Environmental Resources, China Electricity Council

Significance of Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA) for aviation enterprises' decarbonization

Ms. Annie Petsonk, International Counsel of Environmental Defense Fund

12.06
Thur.
PM

Panel discussion

Moderator: ZHANG Jianyu, Sectary General, China Low Carbon Alliance

14:20-15:00

Topic:

- 1.Status and achievements of sectoral energy saving and emission reduction
- 2.How to link energy saving and emission reduction to carbon market system, and facilitate sectoral decarbonization through carbon market
- 3.Effect of carbon price on sectoral decarbonization
- 4.How can sectoral enterprises well perform decarbonization under carbon market mechanism

Panelist:

TBD, China Building Materials Federation
SHAO Zhuqiang, Director of Science and Technology Department, China Nonferrous Metals Industry Association
WENG Hui, Energy Conservation and Low Carbon Development Division, China Petroleum and Chemical Industry Federation
LIANG Qi, Assistant Dean, Yunnan Provincial Development and Reform Commission

Climate Change Communication and Public Participation

Co-host by China News Service and National Center for Climate Change Strategy and International Cooperation (NCSC), this event will have thinkers and influencers from media, universities, institutes and governments discussing climate communication issues together and trying to make new impulses to the ongoing COP 24 in Katowice.

Agenda	
Moderator: Dawei Peng, Berlin bureau chief, China News Service	
13:30-13:35	KeyNote Speech XIE Zhenhua, China's Special Representative on Climate Change
13:35-14:45	Climate Change and Climate Communication YU Lan, Member of editorial board and director of economic department, China News Service
	Development of theory and practice of Climate Communication in China Prof. ZHENG Baowei, Professor at Renmin University, Dean of journalism school, Guangxi University
	UNFCCC and Climate Communication Claudio Forneri, UNFCCC Secretariat
	Communication's impact on low-carbon consumption
	ZHANG Zhiqiang, Deputy director at NCSC
	From COP 19 to 24, how much has the climate awareness changed in Polish public? Katarzyna Guzek, Media officer, Green Peace Poland
	Finance as a method to promote climate awareness and sustainable consumption SUN Yiting, deputy secretary general and director of Green Development Center, IFF
	Climate finance and investor communication LIANG Xi, Co-director, Centre for Business and Climate Change, University of Edinburgh

Carbon Capture, Utilisation and Storage: Practices and Perspectives

The Side Event will facilitate exchange of experiences and policies focusing on costs, security and commercial operation of CCUS deployment in China. The event will bring major enterprises of oil & gas industry in China, like China Energy, SINOPEC and CNPC, foreign governments like the UK and Japan, international organizations like ADB, IEA and GCCSI together, to share successful experiences and best practices both in China and worldwide as well as future path for China to develop CCUS in terms of policy support.

Time: 7 December 2018

Hosted by Department of Climate Change, Ministry of Ecology and Environment

Organized by Global CCS Institute

Coordinator: SUN Zhen, Deputy Director General, Department of Climate Change, Ministry of Ecology and Environment of China

Opening Remarks	
15:30-15:40	SUN Zhen, Deputy Director General, Department of Climate Change, Ministry of Ecology and Environment of China Brad Page, CEO, Global CCS Institute
Keynote Speech	
15:40-15:50	Practices and Prospects of CEIC CCUS Projects XIE Kechang, Member of the Chinese Academy of Engineering, Chief Scientist of China Energy Investment Group
15:50-16:00	Global Status of CCS Update Brad Page, CEO, Global CCS Institute
16:00-16:10	Policy Review on CCUS Development in China LIU Qiang, Professor/Director of Strategy and Planning Department, National Center for Climate Change Strategy and International Cooperation
16:10-16:20	The Significance of CCUS for 1.5 Target Juno Lipponen, Head of CCS Center, International Energy Agency
16:20-16:30	Practice and Outlook of CCUS in China's Oil Industry LI Xingchun, Professor/Director of Safety and Environmental Technology Institute, China National Petroleum Corporation

Progress of the Global Climate Action Initiative

Host: Global Climate Action Initiative Secretariat

The Global Climate Action Initiative (hereafter "GCAI" or "the Initiative") is co-chaired by Mr. Xie Zhenhua and Mr. Michael Bloomberg. The Initiative was launched by a group of concerned philanthropists, university research institutions, and public interest organizations, including ten Chinese organizations. Supported by the Global Climate Change and Green Development Fund under the Tsinghua University Educational Foundation, the Initiative will create a platform for both Chinese and international stakeholders to participate in climate change and sustainable development actions. GCAI will mobilize Chinese philanthropists to support bi-lateral and multi-lateral cooperation on low-carbon development and climate change solutions, and will lead in the establishment of a fair, cooperative, and mutually beneficial global climate governance system. The Initiative was launched in September 2018 at the Global Climate Summit in California. This side event will provide a more in depth overview of the Initiative's goals, strategy, and plans to support developing nations implement climate change work. Through discussion on the activities and practices of the Initiative's sponsor organizations, as well as dialogue between experts from foreign and Chinese think tanks, the session will facilitate discussion on joint climate action strategy, methods, and best practices.

Moderator: Wang Yi, Global Climate Action Initiative Expert Committee Chair; Member of the NPC Standing Committee; Vice-President, Institutes of Science and Development of the Chinese Academy of Sciences

13:30-13:45

Opening Remarks

Xie Zhenhua, Chair of Global Climate Action Initiative, China's Special Representative on Climate Change
Michael Bloomberg, Co-chair of Global Climate Action Initiative, United Nations Special Envoy for Climate Action

13:45-14:00

Keynote Speech

Introduction on the "Global Climate Action Initiative" and "Global Climate Change and Green Development Fund" goals, strategy, and implementation plan
Dr. Zhang Jiqiang, "Global Climate Change and Green Development Fund" Consulting Committee Chair

14:00-14:55

Introduction on Practice and Future Plans of GCAI

Global Oil-Gas Industry's Green Transition

In the Paris Agreement, nations agreed to ambitious goals to tackle the threat of climate change. Can the global oil and gas industry be part of the solution? What are companies already doing and what more steps are needed? At this event, researchers and practitioners will share their views on opportunities, challenges, strategies, actions, experiences and lessons. Co-hosts are the Institute of Climate Change and Sustainable Development (ICCSA) at Tsinghua University, Center on Global Energy Policy at Columbia University, BP and CNPC.

Keynote Speech	
Moderator: HE Jiankun, Vice Chairperson, China National Expert Committee on Climate Change; Chairperson, Academic Committee, ICCSD Tsinghua University	
17:30-17:40	Opening Remark H.E.XIE Zhenhua, China Special Representative on Climate Change Affairs; President of ICCSD, Tsinghua University
17:40-18:20	Dual Challenges of Ensuring Energy Demand and Reducing Greenhouse Gas Emissions Dominic Emery, VP of Group Strategy and Planning, BP Group
	Problems and Controlling Practices of Methane leakage in the Process of Oil-Gas Exploiting CHEN Hui, Director of Appraisal Center on Environmental Engineering, CNPC
	Future of China's Green Energy Transition LI Zheng, Executive Vice President of ICCSD Tsinghua University

China Climate Finance

Climate Finance refers to investment and financing activities for addressing climate change and facilitating GHG emission reduction. The side event on China Climate Finance aims to demonstrate the latest progress of climate financing in China, exchange views on China's climate finance policy and practice, share innovative instruments and models of climate financing and reach consensus on the global collective action to promote climate financing. The event is jointly hosted by the Climate Change Department of the Ministry of Ecology and Environment and International Finance Forum (IFF).

Opening Speech	
Moderator: LI Gao, Director General, Department of Climate Change, Ministry of Ecology and Environment, the People's Republic of China	
09:30-09:40	XIE Zhenhua, China's Special Representative for Climate Change Naoko Ishii, CEO & Chairperson, Global Environment Facility
Keynote Speech	
Moderator: SUN Yiting, Deputy Secretary General and Director of Global Green Growth Center, International Finance Forum (IFF)	
09:40-10:20	Progress and Prospective of China's Climate Financing LI Gao, Director General of Department of Climate Change, Ministry of Ecology and Environment, PRC
	World Bank's Practice and Cases on Climate Finance John Roome, Senior Director of Climate Change, the World Bank Group
	Chinese Banking Regulation to Promote Low Carbon Financing YE Yanfei, Director General of Policy Research Department, China Banking and Insurance Regulatory Commission)

Improving Industrial Energy Efficiency — the Key to Industrial Low-Carbon Development and Greenhouse Gas Emission Reduction

The side event will invite government officials and experts from world leading research institutes and organizations to introduce China's recent development in using new technologies, new processes, new equipment and new materials in the field of climate change strategy and low-carbon development to promote traditional industries and energy efficiency in the industrial sector. Meanwhile it will discuss how to make full use of the role of member enterprises and market mechanism through policy and standard system innovation in order to guide and encourage member enterprises to take the road of low-carbon development. This event is co-organized by China Energy Conservation Association, International Copper Association and National Center for Climate Change Strategy and International Cooperation.

Keynote Speech	
Host: ZHANG Juntao, Vice Director, China Energy Conservation Association Business Development Department	
11:30-11:40	Opening speech Ministry of Ecology and Environment of China LIU Yanhua, Counsellor of the State Council of the People's Republic of China, Director of the National Panel on Climate Change Steve L. Kukoda, Vice President/Executive Director, International Copper Association
11:40-12:35	International sharing of classic energy saving technologies in China WANG Jing, China Energy Conservation Center Project Director
	Tackling climate change--copper industry's experience in global energy conservation and emission reduction Bernard Respaut, Chief Executive, European Copper Institute
	Low carbon product certification, the key to industrial enterprises energy saving and emission reduction Yu Jie, Director of Six Division of China Quality Certification Center
	International Experience on greenhouse gas emission reduction of industrial enterprises Dirk Forrister, Chairman and Chief Executive of the International Emissions Trading Association (IETA)
	New developments in industry-related investment HAO Jianjun, Chairman, Beijing Qian Yi Hui International
	International experience on energy efficiency and climate change Huw Slater, ICF Senior Consultant
Panel Discussion	
Moderator: ZHOU Sheng, President, International Copper Association, China

Addressing Global Climate Change, We are in Action

This session invites guest speakers, VIPs and experts from all State-owned company, private company, research institute and related government organization in China's energy area. In this session, presentations will introduce the contents as below: Chinese companies' actions and initiatives in climate and environment management; the experiences and methods of improving low-carbon development and green development of cities via intelligent operation and information technology; the achievement and application of nuclear power and new energy used in climate and environment management. This session will draw new figure of Chinese people and companies in "Blue Sky Protection Campaign" and in pursuing "clear waters and green mountains". This session would be conducted under the guidance of Climate Change Department of China Ministry of Ecology and Environment, and also be host by Beijing Energy Association (BJEA).

13:25-13:30	Introducing Guest Speakers and VIPs
Keynote Speech (13:30-13:35) Moderator: Mr. HE, Jiankun, Executive Director of the Beijing Energy Association Expert Committee, former Vice President of Tsinghua University (5min)	
13:35-13:45	Opening Speech Mr. LIU, Yanhua, Director of the National Climate Change Expert Committee, former Deputy Minister of the Ministry of Science and Technology (5min)
	Thematic Speech Mr.SUN, Zhen, Deputy Director of Climate Change Department, China Ministry of Ecology and Environment (5min)
Keynote Session Thematic Speech: Mr. HE, Jiankun, Executive Director of the Beijing Energy Association Expert Committee, former Vice President of Tsinghua University (5min)	
13:45-14:25	Telling the story of Beijing Energy Group's green low carbon development Mr. Qingfeng Ge, deputy director of Strategy and Development Department of De of Beijing Energy Group Co., Ltd (10min)
	Sharing the measures and experiences of Chinese national enterprises on addressing climate change Mr. Aiguo Zhou, Deputy General Manager of Quality and Security Environment Protection Department of China National Petroleum Corporation(10min)
	Building Green Company, Taking Social Responsibility Mr. Dapeng, Lv, Spokesman and Director of Company Culture Department of China Petrochemical Corporation (Sinopec Group) (10min)

	<p>Energy Company is main force in pushing low-carbon development and green development</p> <p>Mr. Aihua Teng, Chairman of Poly New Energy Technology (Beijing) Co.Ltd(10min)</p>
<p>Panel Discussion</p> <p>Moderator: Ms. Zhao Bingying, full-time vice president&secretary general, Beijing Energy Association</p>	
14:25-14:55	<p>Mr.David Eyton, Head of Technology, BP Group Mr.Bing Xin, Vice Chairman of Shanxi Runmin Group Mr. Senlin Wang, Beijing Social Construction Office Mr. Hao Jiang, Vice General Manager of Shenzhen Shenyuan Trading Co. Ltd Ms. Zhe Liu, General Manager of Beijing Green Plus Technology Co.Ltd Mr. Weihua Wang, Special Advisor of Beijing Green Plus Technology Co. Ltd Telling the story, Question &Answer, Interact with the audience</p>

Global Green Energy Action

China-Africa Renewable Energy Cooperation Innovation Alliance will invite associations, enterprises and relevant government representatives to tell the story of China's renewable energy industry and demonstrate the successful technology and experience about reform and innovation of China's renewable energy industry, meanwhile, share successful cases in Africa, provide experience for the development of renewable energy industry in developing countries, provide an opportunity for exchanges among renewable energy industry workers around the world to further deal with global climate change and make contributions to improve human well-being.

Keynote speech	
Moderator: Qi Yufei, Secretary-general of CARECIA	
15:30-15:35	Opening and Guest Introduction Qi Yufei, Secretary-general of CARECIA
15:35-15:40	Welcome and Opening Address Representative from National Development and Reform Commission of Climate Change
15:40-15:50	Opening Speech Zhu Gongshan, President of Global Green Energy Council
15:50-16:00	Lighting Africa Actions by CARECIA Shi Dinghuan, Former State Council Counselor, Former President of CRES, Founder of CARECIA
16:00-16:10	Promoting Green Energy Globally Mi Yue, Executive Vice President of Shanghai New Energy Industry Association
16:10-16:20	Discussion on the mode of implementing projects in Africa from the perspective of finance Xing Ming, General Manager of Beijing Shoulunziben Investment Co. Ltd
16:20-16:28	Successful Technology and Case Sharing of Chinese Enterprises for Investment and Construction in Africa
16:28-16:36	A Thousand Green Action Solutions Sun Power Foundation
16:36-16:44	To be confirmed European Energy Commission
16:44-16:52	To be confirmed GCL Group
16:52-17:00	Q&A Session Guests

Youth Climate Change Action

The purpose of this side event is to introduce and publicize the exploration and practice of Chinese youth in addressing environmental issues and coping with climate change. It is guided by the climate department of Ministry of Ecology and Environment(MEE), and is hosted by the Center for Environmental Education and Communications (CEEC) of MEE, the National Center for Climate Change Strategy and International Cooperation (NCSC) and the China Youth Climate Action Network (CYCAN).

Keynote speech:	
Host: YANG Tianming, Chinese Youth Representative, Peking University	
17:30-17:40	Opening Remark: Environmental Education ——Act towards a Beautiful China YANG Jun, Section Chief of Communication Department, CEEC China Energy Policy and Youth Awareness LIU Zhijie, Deputy Director of Training Department, CEEC
17:40-18:00	Youth-Oriented Course on Climate Change WANG Binbin, Program Director, Institute of Climate Change and Sustainable Development, Tsinghua University
	Training of Green Innovative Talents under Non-traditional Education Mode HUANG Haili, Project Manager, Summer Institute for China's Green Innovators, Tsinghua University
	Theory and Practice in Environmental Education LI Yan, NCSC
Panel Discussion	
18:00-18:15	Dialogue: Exploring Mechanisms of regional youth cooperation Host: MEI Chengcheng, Chinese Youth Representative, University of Southern California Guests: XU Yawen, Chinese Youth Representative, Linyi University Kengo, Japanese Youth Representative in COP24 Jin Young Kim, Korean Youth Representative in COP24 Frederick Ouma, Kenyan Youth Representative in COP24 Amalen Sathananthar, YOUNGO GSS Scholar, Malaysia Pramisha Thapaliya, YOUNGO GSS Scholar, Nepal
18:15-18:30	Dialogue: How do young people engage with climate change? Host: LI Xiaochen, Observer from CYCAN Youth Perspective: WANG Yuanchen, Chinese Youth Representative, Tsinghua University SONG Ruiming, Chinese Youth Representative, Harvard University Clara von Glasow, YOUNGGO Focal Point from the Global North Jayathma Wickramanayake, the United Nations Secretary-General's Envoy on Youth Social Perspective: XIE Xi, Climate Change and Energy Director, The Nature Conservancy Karen Ho, Director of Parvati.org

High Level Forum on South-South Cooperation on Climate Change

09:00-15:30, Wednesday, 12th December 2018

The event is co-hosted by Ministry of Ecology and Environment of China and the United Nations Office for South-South Cooperation, in cooperation with Institute of Climate Change and Sustainable Development of Tsinghua University and it is also supported by UNFCCC, UNDP and World Wide Fund for Nature (WWF).

Opening Remarks and Keynote Speeches

**Moderator: Mr. LI Gao, Director General of Climate Change
Department, Ministry of Ecology and Environment of China**

09:00-9:45

-H.E. Mr. XIE Zhenhua, Special Representative on Climate Change Affairs, China
-H.E. Frank Bainimarama, Prime Minister of Fiji, COP23 President
-H.E. Mr. Michał Kurtyka, State Secretary, Ministry of Energy of Poland, COP24 President
-Ms. Patricia Espinosa, Executive Secretary, UNFCCC Secretariat
-Mr. Achim Steiner, Administrator, UNDP
-Mr. Jorge Chediek, Secretary-General's Envoy for South-South Cooperation, and Director, United Nations Office for South-South Cooperation

Ministerial Session: Promoting Pragmatic Climate Partnerships: Harnessing the Co-benefits of Climate Action in Southern Countries

**Moderator: Mr. Jorge Chediek, Secretary-General's Envoy for
South-South Cooperation, and Director, United Nations Office for
South-South Cooperation**

9:45-11:20

-H.E. Mr. Anwar Hossain, Minister, Ministry of Environment and Forests, Bangladesh
-H.E. Ms. Elba Rosa Pérez Montoya, Minister of Science, Technology and Environment, Cuba
-H.E. Dr. Yasmine Fouad, Minister, Ministry of Environment, Egypt
-E. Dr. Gemedo Dalle, Minister, Ministry of Environment, Forest and Climate Change, Ethiopia
-H.E. Mr. Oye Guilavogui, Minister, Ministry of Environment, Waters and Forestry, Guinea
-H.E. Daryl Vaz M.P., Minister, Land, the Environment, Climate Change and Investment, Jamaica
-H.E. Mr. Thoriq Ibrahim, Minister, Ministry of Environment and Energy, Maldives
-H.E. Mr. Ohn Winn, Union Minister Ministry of Natural Resources and Environmental Conservation, Myanmar

- H.E. Mr. Manuel Pulgar-Vidal, Former Minister of Environment, Peru, and COP20 President; Leader of Climate & Energy Practice, World Wide Fund for Nature (WWF)
- Mr. Jiankun He, Vice Chairperson, China National Expert Committee on Climate Change; Chairperson, Academic Committee of Institute of Climate Change and Sustainable Development (ICCSA), Tsinghua University
- Mr. Wenbiao Wang, Chairman and President, Elion Group

Thematic Session: Strengthening South-South Climate Cooperation for Low-Carbon Energy Transition

Moderator: Mr. SUN Zhen, Deputy Director General of Climate Change Department, Ministry of Ecology and Environment of China

11:20-12:50

- Ms. Fekitamoeola Katoa 'Utoikamanu, High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States
- Ms. Preeti Bhandari, Director, Climate Change and Disaster Risk Management Division, Sustainable Development and Climate Change Department, Asian Development Bank (ADB)
- Mr. Li Zheng, Executive Director, Institute of Climate Change and Sustainable Development (ICCSA), Tsinghua University
- Mr. Li Junfeng, former Director General of National Center for Climate Strategy and International Cooperation
- Mr. Lo Sze Ping, CEO, WWF China
- Mr. U Soe Hlaing, Minister of Electricity and Industry, Kayin State, Myanmar
- Ms. Nguyen Thi Lam Giang, Director of Department of Energy saving and Sustainable development, Ministry of Industry and Trade, Vietnam

Bamboo & Rattan for Greening the Belt & Road

This side event will provide an opportunity to share successful experience and exchange thoughts on bamboo and rattan for green sustainable development. We will invite senior representatives from the UN agencies, INBAR Member Countries and partners as well as the private sector to discuss how to better contribute to greening the Belt and Road with bamboo and rattan and bring about win-win cooperation. Participants will be encouraged to work more closely with INBAR to mobilize necessary resources to incorporate bamboo and rattan in their own plan for green growth and promote the use of bamboo and rattan to help realise sustainable development.

Opening Remarks and Keynote Speeches	
Moderator: Dr. Hans Friederich, Director General of the International Bamboo and Rattan Organisation (INBAR)	
15:30-15:35	Introductory remarks Dr. Hans Friederich, Director General of INBAR
15:35-15:37	Play a video on Bamboo and Climate Change
15:37-15:42	Opening address by H.E. Mr. Xie Zhenhua, Special Representative for Climate Change of China
15:42-16:15	Speech by Mr. Jorge Chediek, UN Secretary General's Envoy on South-South Cooperation and Director of UN Office for South-South Cooperation
	Speech by Dr. Martin Frick, Senior Director for Policy and Programme Coordination, UNFCCC Secretariat
	Speech by Senior Representative from UN Environment (TBC)
	Speech by senior representative from Environment and Climate Change Canada (TBC)
Panel Discussion	
Moderator: Dr. Hans Friederich, Director General of INBAR

Co-Construct Platform to Lead and Support Corporate Climate Action

This side event is hosted by China Business Climate Action (CBCA). CBCA is a joint action platform, launched by 21 leading organizations including Vanke Foundation, SEE Foundation, and C Team. CBCA aims to lead and support companies operating in China to act in response to climate change and contribute solutions to addressing climate change.

This side event will share enterprises' innovations and challenges addressing climate change and best practices of industrial joint actions. It will showcase the carbon emission reduction cases of businesses, explore effective strategies for carbon management, and communicate sustainable development and zero-waste advocacy practices. Discussions on further advance the role of CBCA and how it contributes to China's commitment on carbon emissions will be another important part of this side event.

Keynote Speeches

Moderator: **CHEN Yimei, Secretary General of Vanke Foundation**

Renewable Energy Promotes Energy Revolution

Based on the latest research from Energy Research Institute of the National Development and Reform Commission, China Renewable Energy Outlook 2018, the session will discuss China's prospects for renewable energy in the context of promoting the energy revolution and implementing the Paris Agreement, and explore the path and steps of China's energy system transition from fossil energy to renewable energy.

High-level representatives from the Chinese and international energy and climate administration will discuss how to develop and expand the clean energy industry, promote the low-carbonization of energy structure, and promote China's efforts to promote energy production and consumption revolution, and address climate change. Policies and actions to strengthen the key role and international cooperation in the implementation of the Paris Agreement.

This event is hosted by the Energy Research Institute of the National Development and Reform Commission.

Moderator:

Zhao Yongqiang, Deputy Director, China National Renewable Energy Centre, Energy Research Institute, National Development and Reform Commission, P.R. China

9:30-9:40

Opening speeches

Xie Zhenhua, Special Representative for China Climate Change
Lars Christian Lilleholt, Minister of Energy, Utilities and Climate in Denmark

Keynote Speech

9:40-10:20

China Renewable Energy Outlook 2018: The Chinese energy revolution

Wang Zhongying, Deputy Director, Energy Research Institute, National Development and Reform Commission

High share of renewables promotes the energy supply revolution

Han Xue, Ph.D., Energy Research Institute, National Development and Reform Commission

Electrification and renewable energy applications drive the end-use energy consumption revolution

Liu Jian, Ph D, Renewable Energy Center, Energy Research Institute, National Development and Reform Commission

Panel discussion: China's pathway to a clear, low-carbon energy system

Moderated by Xu Huaqing, Director of the National Center for Climate Change Strategy Research and International Cooperation (invited)

10:20-11:00

Li Gao, Director, Department of Climate Change, Ministry of Ecology and Environment (invited)

Morten Bæk, Permanent Secretary, Danish Ministry of Energy, Utilities and Climate (confirmed)

German Ministry of Environment/ Energy representative(invited)

Liu Yanhua, Director of the State Council of China, Director of the National Climate Change Expert Committee (invited)

He Jiankun, Deputy Director of China National Climate Change Expert Committee (invited)

Wang Zhongying, Acting Director, Energy Research Institute, National Development and Reform Commission
