[NDC@unfccc.int](mailto:NDC@unfccc.int)

**Subject : Indonesia Submission on the Document of Enhanced Nationally Determined Contribution (NDC)**

Dear Mr. Stiell,

At the outset, please allow me to take this opportunity to congratulate you on your designation as the new captain of the UNFCCC. With your substantive background and long experience in politics as well as bureaucracy, I do believe that the UNFCCC under your leadership can be more dynamic in bridging the differences amongst Parties as well as mobilizing, and synergizing the Parties together towards achieving a common goal, particularly in this challenging time that we called it as a critical decade.

As Parties agreed that there can be no backsliding in the international climate efforts, it is the right moment for Indonesia in making progress in fighting climate change. With the intention of revisiting and strengthening Indonesia's 2030 targets in our latest NDC and as part of global efforts necessary to align with the Paris Agreement temperature goal, as referred to in Decision 1/CMA.3 paragraph 29 and the UNFCCC message Ref. MIT/NDCs/synthesis report on April 22, 2022, I am submitting the document of Enhanced NDC as attached.

It would be highly appreciated if you can accept our documents. I thank you for your attention and continuous support.

Sincerely yours,

  
**Laksmi Dhewanthi**  
Director General for Climate Change  
as Indonesia NFP to the UNFCCC

CC.

H.E. Dr. Siti Nurbaya, Minister for the Environment and Forestry (as a report).
