

11<sup>th</sup> meeting of the Adaptation Committee

Agenda item 9b

# Contribution of the private sector to adaptation

Concept note on the compilation of authoritative actors of the private sector  
in adaptation

Bonn, Germany, 7 to 10 March 2017

## I: Introduction and background

---

- ❖ As reflected the 2016-2018 workplan, the AC agreed to identify authoritative actors from the private sector and to prepare a mapping of their influence. This would serve as a basis to:
  - Identify next steps regarding private sector engagement, building on the Nairobi work programme Private Sector Initiative
  - Serve as background for a 2018 meeting to foster greater contribution of the private sector to the process to formulate and implement NAPs

## II: Proposal for identifying and mapping actors

---

- ❖ Towards identifying authoritative actors from the private sector and preparing a mapping of their influence, the **secretariat could undertake**:
  - ✓ **A review of authoritative actors** from the private sector, relevant global and regional networks and centres, international organisations, development banks, research institutes with a focus on private sector engagement in climate change adaptation
  - ✓ **A literature review of private sector adaptation activities**, and
  - ✓ **A mapping of influence of actors through categorisation** by various criteria (e.g. type and size of actor, type of engagement in adaptation activities, type of involvement in adaptation planning, interest/capacities, motivations and incentives)

## III: Next Steps

---

- ❖ The AC may wish to:
  - Consider the approach to preparing the compilation of authoritative actors of the private sector in adaptation
  - Request the secretariat to initiate the work and present an initial compilation for consideration at AC12
