

WORK PLAN ON ENHANCING MITIGATION AMBITION
**TECHNICAL EXPERT MEETING ON
ACTION ON NON-CO₂ GREENHOUSE GASES**
22 OCTOBER 2014, 10 AM – 6 PM

Provisional programme

10.00 – 10.10 OPENING

- Opening remarks by the Facilitator

10.10 – 16.00 SESSION 1: POLICIES, PRACTICES AND TECHNOLOGY – GLOBAL STATE OF PLAY AND THE LANDSCAPE OF OPPORTUNITIES

10.10 – 11.30 WORKING GROUP SESSION ON METHANE EMISSIONS

- Key note presentation
- Party perspective on options, barriers and opportunities
The session will be framed by Party-level perspective on experience gained through the development and implementation of mitigation action on methane emissions
- Expert panel on the implementation of action
Practitioners will provide experiences of creating enabling environments and removing barriers to the delivery of action to mitigate methane emissions
- Discussion
Facilitated discussion among all participants will provide for further examination of the opportunities for and barriers to action

11.30 – 12.30 WORKING GROUP SESSION ON NITROUS OXIDE EMISSIONS

- Key note presentation
- Party perspective on options, barriers and opportunities
The session will be framed by Party-level perspective on experience gained through the development and implementation of mitigation action on nitrous oxide emissions
- Expert panel on the implementation of action
Practitioners will provide experiences of creating enabling environments and removing barriers to the delivery of action to mitigate nitrous oxide emissions
- Discussion
Facilitated discussion among all participants will provide for further examination of the opportunities for and barriers to action

15.00 – 16.00 WORKING GROUP SESSION ON FLUORINATED GASES

- Key note presentation
- Party perspective on options, barriers and opportunities
The session will be framed by Party-level perspective on experience gained through the development and implementation of mitigation action on emissions of fluorinated gases

- Expert panel on the implementation of action
Practitioners will provide experiences of creating enabling environments and removing barriers to the delivery of action to mitigate emissions of fluorinated gases
- Discussion
Facilitated discussion among all participants will provide for further examination of the opportunities for and barriers to action

16.00 – 17.45 SESSION 2: WAY FORWARD

- Discussion
Drawing on the discussions in the previous session and other insights the facilitator will outline key questions for further discussion on the options for enhanced action

17.45 – 18.00 CLOSING

- Concluding remarks by the Facilitator
