

## Section E, Paragraphs 50, 51, 51.1, 51.7 b., 51.7 f., 65.1 (a)<sup>1</sup>

Version of 3 June 2015 at 19:00

### Output of facilitated meeting

#### *Consolidation of paragraph 50 Options 4, 5 and 13:*

50. [**Option 4:** [A global goal for adaptation is hereby established, with the purpose of enhancing the implementation of adaptation actions, in particular in developing countries, as part of enabling economic development in the context of sustainable development]. [All Parties take action and cooperate to reduce vulnerability and build resilience to the adverse effects of climate change.]

[The global goal for adaptation shall provide for supporting enhanced adaptation and sharing best practices by all Parties; the understanding of adaptation needs in the light of mitigation ambition; the provision of adequate support for developing countries to meet their adaptation needs; and the recognition of adaptation investments by developing countries as part of their contribution to the global effort]. [The goal has both qualitative and quantitative aspects, including elements of knowledge dimension informed by science, planning and policy aspects.]

[The global goal for adaptation affirms that adaptation is a global responsibility and further:

- a. Establishes a platform for all Parties to communicate their efforts towards achieving the global goal on adaptation, as well as for the exchange and sharing of best practices on the formulation and implementation of adaptation measures;
- b. Acknowledges that historical emissions and the level and pace of both current and future mitigation efforts will determine the extent to which Parties will need to adapt to the adverse effect of climate change and address loss and damage resulting therefrom and the associated costs thereof;
- c. Notes that since adaptation efforts will need to be undertaken far in advance of the temperature rise, planning for adaptation and undertaking adaptation should be based on an evaluation of temperature scenarios that are expected to result from particular levels of mitigation action;
- d. Agrees that in order to determine levels of adaptation support (finance, technology, and capacity) required for a given commitment period, the ex ante assessment of aggregate mitigation action and associated temperature rise shall be used as a basis, including in the consideration of nationally determined needs for adaptation;
- e. Notes that levels of adaptation finance provided by developed countries should be commensurate with meeting the costs of adaptation in developing countries, particularly those in Africa, the least developed countries, and small island developing States, in accordance with developed country Party obligations under Article 4, paragraph 4, of the Convention;
- f. Provides for recognition of adaptation investments of developing countries as part of their contributions to the global effort to address climate change.]]

#### *Consolidation of paragraph 51 Options 4 and 8:*

51. [**Option 4:** [Parties][Each Party][undertake national adaptation planning processes with a view to integrating climate resilience into national level planning and action in order to reduce vulnerability] [to integrate adaptation within national development planning, mainstream adaptation into national policies, undertake the national adaptation plan (NAP) process] and strengthen governance and enabling environments. All Parties should take adaptation actions. Those Parties with limited capacities require support from those countries in a position to provide such support.]

---

<sup>1</sup> Sections and paragraphs refer to those in document FCCC/ADP/2015/1.

*Consolidation of paragraphs 51.1 Option (b) and 51.3:*

51.1. [**Option (b)**]: Developed country Parties to take the lead in combating climate change and the adverse effects thereof and commit under Article 4 of the Convention to support country-driven processes and proposals by developing countries, which are to be, inter alia, gender sensitive, participatory and fully transparent, to take into account vulnerable groups and ecosystems, and be based on science and/or traditional and indigenous knowledge [systems].]

*Consolidation of paragraph 51.7 b. Options (i) and (ii):*

51.7. b. [Contribute to the achievement of sustainable development, which [may] include economic diversification [in an equitable manner] [in the context of their specific needs and special circumstances];]

*Consolidation of paragraphs 51.7 f. Options (i) and (ii) and 51.7 g.:*

51.7. f. [Build on adaptation mechanisms and processes under the Convention, including national adaptation plans (NAPs) and national adaptation programmes of action [including joint mitigation and adaptation for the integral sustainable management of forests], and existing arrangements for finance. [Developing countries][Parties not included in annex X] are not in the position to make financial commitments or contributions to any institutional or international mechanisms. Adaptation investments by [developing countries][Parties not included in annex X][and][domestic adaptation actions undertaken by developing country Parties without support from developed country Parties]should [be recognized as their contributions to the global effort to respond to climate change];]

*Consolidation of paragraph 65.1 Option (a) b. Options (i) and (ii):*

65.1 [**Option (a)**]: The governing body shall request the Adaptation Committee to:

- b. Establish and maintain stronger linkages with the GCF and other funds[, and the alternative for financing joint mitigation and adaptation approaches, plans and actions][, taking into account the balanced 50:50 approach of the allocation of financing between mitigation and adaptation];]
