

## Section C, Paragraphs 14, 1 & 2, 5<sup>1</sup>

Version of 01 June 2015 at 19:00

Output of facilitated meeting

### *Consolidation of paragraph 14<sup>1</sup>:*

In general Parties agreed on the final consolidation with the exception on one Party that wanted to add the word “[and]” to the consolidation. Before this can be agreed this issue will have to be resolved. Hence no agreed consolidation.

### *Observations:*

- Parties appreciated the initial proposal presented by the Co-Chairs.
- Parties agreed that the text from paragraph 14 Option 1 “South-South and triangular cooperation” should be included after “multilateral approaches”.
- Parties further agreed that an additional set of square brackets should be placed around the latter part of the sentence to ensure that Option 3 was fully reflected.
- A proposal from one Party to include “[and]” between the final set of square brackets was not agreeable to all Parties.
- Some Parties noted that there is no need for these paragraphs at all (consistent with the position of no section C).

### *Consolidation of paragraphs 1 and 2<sup>1</sup>:*

No agreed consolidation.

### *Observations:*

- Parties agreed that paragraphs 1 and 2 were different concepts.
- It was further indicated that paragraph 2 may be more appropriate to address via COP decisions rather than a core agreement.
- For these reasons the Parties agreed that these paragraphs should not be consolidated.

### *Consolidation of paragraph 5<sup>1</sup>:*

*After initial discussion on paragraph 5.*

Consolidation is possible and should be pursued.

### *Observations:*

- Parties considered that this paragraph was ready for consolidation.
- Parties expressed a desire for the Co-Chairs or co-facilitators to present a proposal based on the secretariat’s informal note on overlaps and duplication.
- Parties in general were also ready for the consideration of placement of text.
