

# **Introduction of agenda item 18**

## **b) 2015 Overview report**

### **Presentation Renske Peters**

**Fifth meeting of the Adaptation Committee**

**5 – 7 March 2014**

**Bonn, Germany**

# I: Background and context

---

AC4 agreed on the theme, with the title to be further elaborated:

*“Progress in the implementation of the CAF, with analysis of, inter alia, lessons learned, good practices, and challenges faced in preparing and implementing NAPs, the key role of national institutions and stakeholders in adaptation planning and implementation and monitoring and evaluating adaptation actions and their support”*

The AC requested a small group to make the title clearer and prepare a concept note on outline, process, target audience and timeline of the report for consideration at AC5

## II: Summary

---

Objective of 2015 Overview report: to provide a basis for identification of possible next steps to further enhance action on adaptation under the Convention - based on lessons learned, good practices etc.

Possible themes:

1. Overview of the AC's activities over the first three years of its existence (the AC giving account). The report could follow the grouping in the workplan
2. Focus on governance-related issues as included in the forthcoming IPCC AR5 WGII report, and identify good practices and approaches, lessons learned and challenges
3. Focus on evaluating the way the AC took up the task of “promoting the implementation of enhanced action on adaptation in a coherent manner under the Convention” and evaluate the results
4. A combination of the above

# III: Next steps

---

**The AC is invited to:**

- **Discuss and decide on the proposal for the 2015 overview report;**
- **Task the Reports Group with the preparation of a concept note on outline, process, target audience and timeline of the report for consideration at AC6.**
