

Integrating Agriculture in NAPs

Safeguarding livelihoods and promoting resilience in National Adaptation Plans (NAPs)

Supporting countries to integrate agricultural sectors into National Adaptation Plans (NAPs)

Programme Overview

Food and Agriculture
Organization of the
United Nations

Empowered lives.
Resilient nations.

Supported by:

Federal Ministry for the
Environment, Nature Conservation,
Building and Nuclear Safety

based on a decision of the German Bundestag

Programme objective

agriculture

forestry

fisheries

To integrate climate change risks and opportunities as they relate to agricultural sector livelihood adaptation options, within existing national planning and budgeting processes.

Programme scope

Trust Fund Programme, funded by German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB), part of the International Climate Initiative (IKI)

Jointly-implemented by UNDP and FAO

8 countries (LDCs and non-LDCs):

Kenya, Uganda, Zambia, Uruguay,
Nepal, Philippines, Thailand, Vietnam

Duration:

4 years (2015 to 2018)

Outcome 1:**Outcome 2:****Outcome 3:****Outcome 4:**

Technical capacity and institutions on NAP strengthened

Integrated roadmaps for NAPs developed

Evidence-based results for NAPs improved

Advocacy and knowledge-sharing on NAPs promoted

1.1 Training in adaptation-sensitive planning and budgeting

1.2 Training in economic valuation and cost-benefit analysis for adaptation options in agricultural sector

1.3 Training materials developed based on needs identified

2.1 Roadmaps formulated for integrating adaptation into agriculture sector planning

2.2 National development plans updated, taking into account climate change concerns in agricultural sector

2.3 LEG Agriculture Supplement updated

3.1 Impact assessment framework developed for existing agriculture-based livelihood projects

3.2 Strengthened capacities of monitoring units to monitor adaptation effectiveness

3.3 Strengthened evidence-based results of agricultural-sector adaptation options

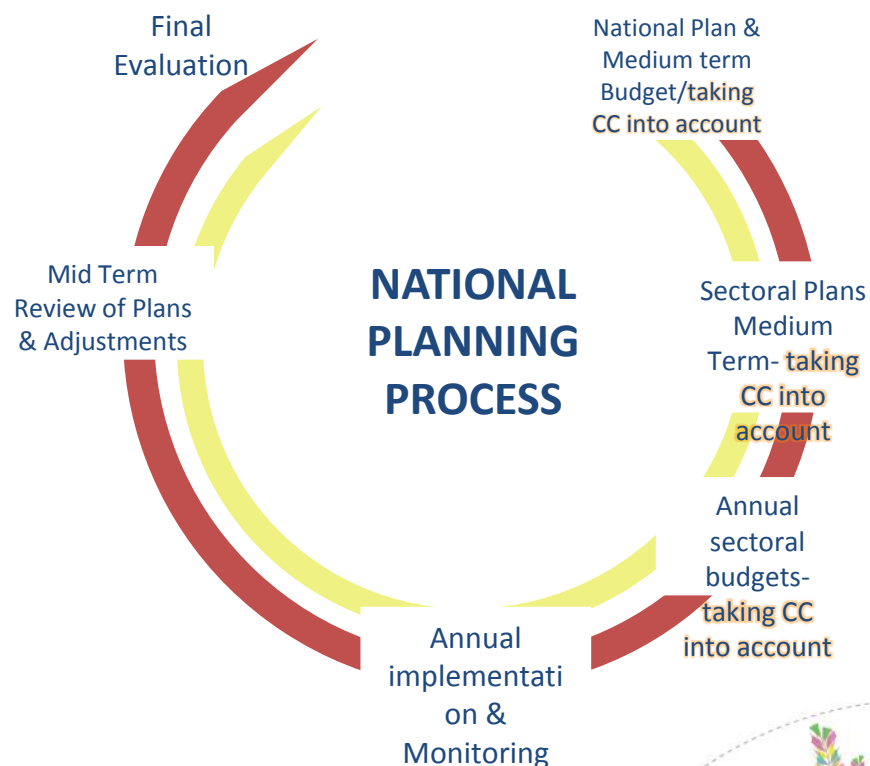

4.1 Convened exchanges on integration of adaptation options into NAPs

4.2 Global outreach organized, to support UNFCCC processes, LEG work, Adaptation Committee and Green Climate Fund

4.3 Lessons learnt shared on integrating agriculture into NAPs

Promoting synergies with countries' priorities

- **Strengthen capacities** of agricultural sector to link climate policy with public finance
- **Mainstream climate change adaptation and disaster risk reduction** into agriculture sector plans, policies, budgets (national and provincial), and **mainstream agriculture sector cc adaptation options** into national processes
- **Improve evidence base** for integrating agricultural sector adaptation concerns into national development strategies and policies; **improve impact monitoring** frameworks for prioritization of adaptation options
- **Enhance exchanges and sharing** of best practices
