CHALLENGES FOR BANKS

-  Lack of general knowledge.
-  Training.
-  Lack of support and articulation with the Government.
-  Lack of knowledge in good practices in the region or world wide.
-  Technical support.
-  Lack of articulation between banks.
-  High level involvement.
-  Promote and support clients with the better practices.
-  Demonstrate the important position banks hold within society, in business and their role in sustainable development...
