

### Co-Facilitators' Consolidation of Input for Section K (version of 11 June 2015, 6:30)

- At the request of Parties, the co-facilitators for section K have put together this consolidation of inputs received from Parties on this section.<sup>1</sup>
- This document has no status and has been prepared by the co-facilitators as a possible tool to facilitate further discussions and streamlining.
- Unless otherwise indicated, the numbering in the streamlined and consolidated text version 8 June 2015 @ 19:00 has been used for this consolidation.
- Several of Parties observed that a discussion on compliance is challenging and premature due to lack of clarity on the legal form of the agreement, the nature of contributions and differentiation.
- Some Parties noted the importance of taking into consideration Parties' observations in such compilation and maintaining the integrity of proposals in the compilation such as those related to improving structure. Other Parties highlighted the importance of preserving the different standalone options (I, II and III) intact and unmerged.
- Parties expressed interest in using this exercise to inter alia; streamline the text, improve the structure of the section and clarify options.

Themes	Option I			Option II	Option III	Option IV	Option V
