

Practical session guide, day 2

Task

- Discuss how you have integrated cross-cutting issues in addressing adaptation at different levels (community, sector to national) within your countries (identifying both success and challenges)

Examples of cross cutting issues are:

- Gender sensitive approaches
- Focus on most vulnerable communities and systems
- Participation and involvement of communities
- Disaster risk reduction/management
- Food security
- Water
- Engagement of the private sector

Reporting:

- Write out a summary of the group work on the provided flip charts
