In-session workshop on developing elements of a gender action plan under the UNFCCC

Gender and Climate Change
Summary report
Bonn, Germany, 10 - 11 May 2017
Developing elements of a gender action plan under the UNFCCC

Working group A: Capacity building, knowledge sharing and communication
A.1. Systematic integration of gender perspectives/considerations in climate change actions at the global, regional, national and subnational levels

a) Pilots in different regions to enable exchanges of knowledge between national level and local communities and indigenous people [e.g. learning circles), including train the trainer

b) Develop knowledge products that are informed by the experiences from the pilot and good examples from other Parties

c) Technical workshop or meetings to share experiences and build capacity on the collection, analysis and use sex-disaggregated
A.2. Enhanced knowledge, understanding and expertise on gender-responsive policy, planning and programming among Parties, bodies, UNFCCC secretariat and other stakeholders

a) Collect and analyze disaggregated data (sex, age, social groups, etc.) based on multi-stakeholder discussions at the sub-national and national levels to inform gender-responsive climate actions (ownership, buy-in, greater understanding among stakeholders)

b) Community of practice / community of experts to support the including knowledge sharing, communications, capacity building result area
