

Clearing house on risk transfer: 'look and feel'

*UNFCCC secretariat under the guidance of the coordinator of the intersessional working group
15 March 2017*

Based on the User Needs Assessments, main value added of the online platform for a clearing house mandated by COP decision 1/CP.21 will be in:

- Connecting the needs of vulnerable countries and communities with the wealth of expertise and information that could serve these needs;
- Bridging ongoing and emerging insurance work/initiatives worldwide and the UNFCCC process.

Symbols used in the slides to follow

Colored boxes indicate 'Clickable' feature

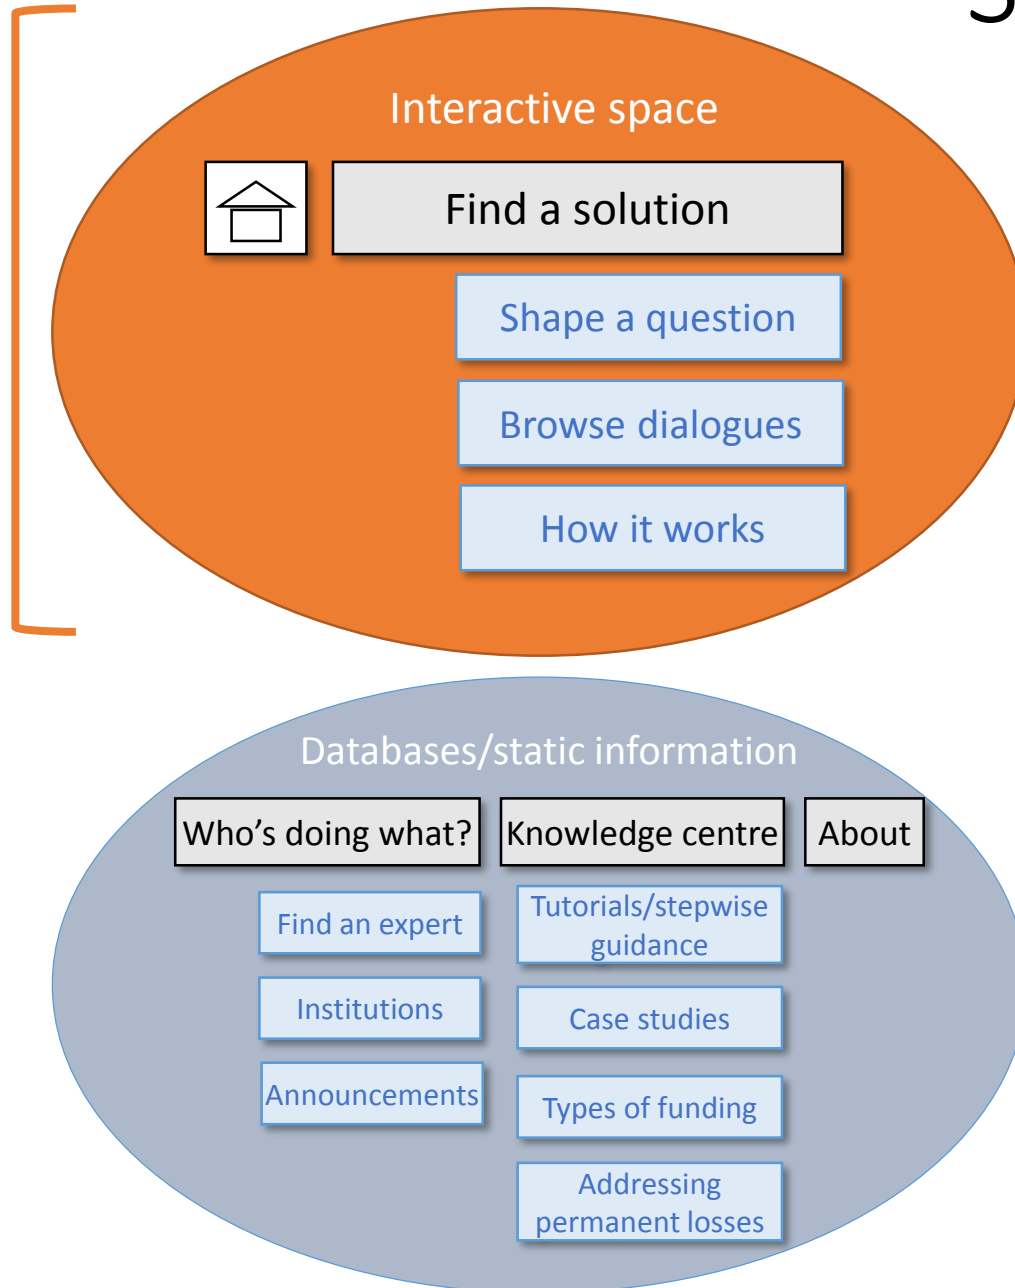

Indicates where you are in the main menu

- Text in green explains what will be displayed in that particular space.
- The phrase used on features is tentative without prejudice to final wording.
- Layout and descriptions of different blocks in these slides are only indicative of their associated contents, and should not be understood as design suggestions.

Key
feature of
the online
platform

“**Find a solution**” is an interactive space for dialogue where seekers of information (e.g. policy-makers at various levels) pose questions/problems and experts help them structure their questions to facilitate seekers find a solution or a set of solutions.

“**Who’s doing what?**” block will lead to:

- 1) **Two databases:** experts and institutions, with contact details, as provided.
- 2) **Announcements** of upcoming relevant events as provided by users .

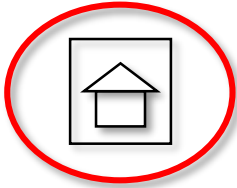

“**Knowledge centre**” is a knowledge block which will be updated on an ongoing basis/as needed. It will contain:

- 1) **Databases** with case studies and relevant literature.
- 2) **Tutorials/stepwise guidance** on how to set up climate risk insurance schemes.
- 3) **Descriptive text, diagrams,** etc. about types of funding available, knowledge on interplay between risk transfer tools and addressing permanent losses.

“**About**” provides general info on the Excom, clearing house, partners.

'Home' page

Main menu buttons will be accessible from most pages.

About

Title/snappy introduction to the clearing house and visual image

When hovering over the main menu buttons, a list of sub-menu buttons will drop down; clicking the sub-menu buttons will take you to specific pages.

Most recent solutions

Space to showcase a list of the most recent questions asked /info sought

Spotlight

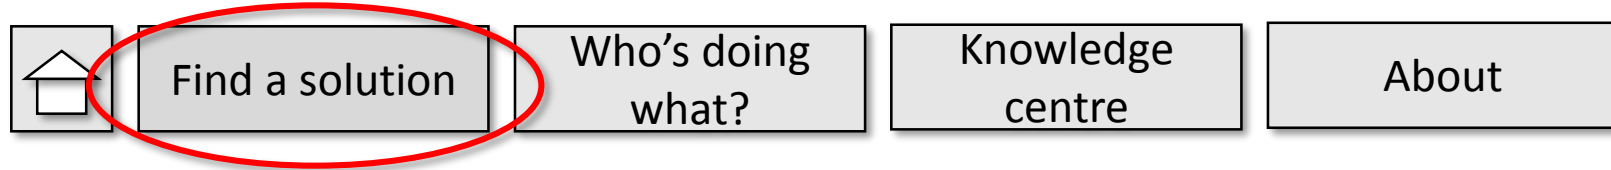

Space to showcase a list of most recently updated info/announcements

'Find a solution' page

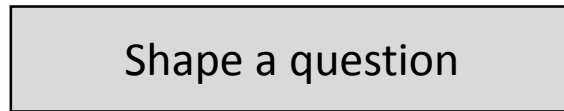

'Find a solution' space directs info seekers to where a solution may be found by enabling the first contact between seekers of info and experts.

Seekers of info can reach out to experts through a few user-friendly steps which guide provision of initially required information in a structured manner.

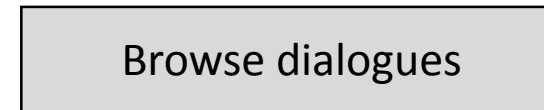

After establishing right connection, work can continue outside of the portal space.

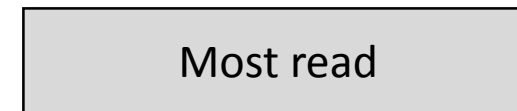

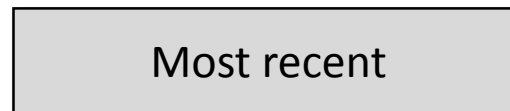

'Snappy text/visual explaining how the 'Find a solution' space works.'

'Shape a question' will lead to a text box where you can type in a question. Submitting the question will prompt the info seekers to tick a few set of relevant filters in order to categorize the submitted questions. Once done, your question will appear online.

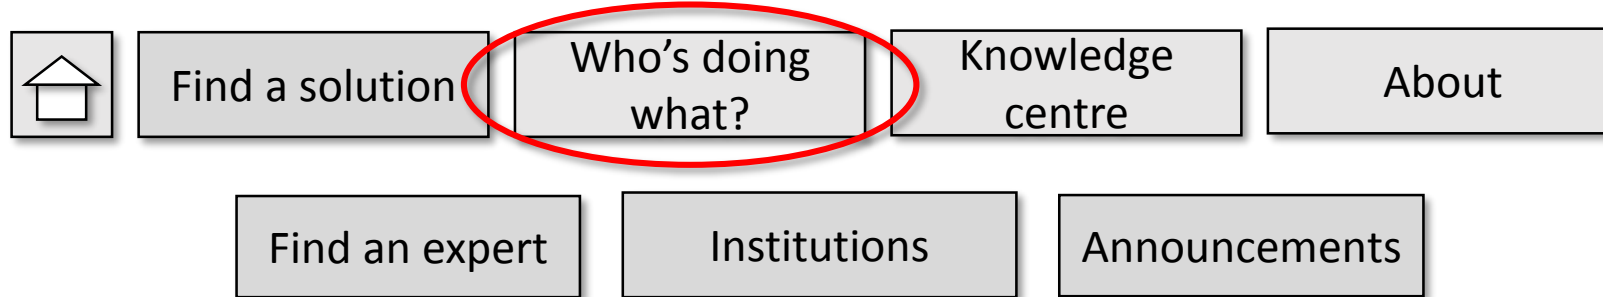

Clicking on 'Browse dialogues' will lead to a display of multiple filters through which you can narrow down the search results. Once filters are selected, a list of relevant past dialogues (Qs and experts responses to them) will appear. You can, then, click on each entry to expand and read the details.

By clicking on the buttons above, you can read questions posted and /or ongoing dialogues.

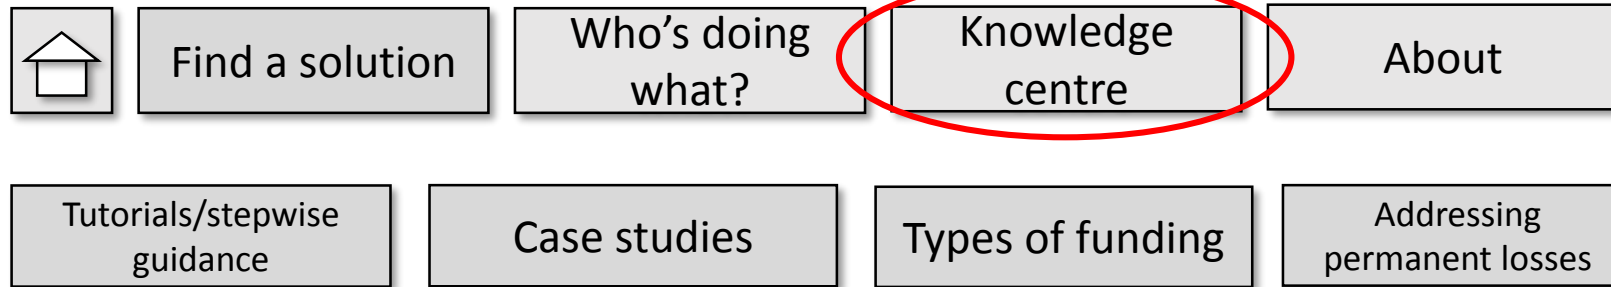

'Who's doing what?' page

Clicking the above buttons will lead to a display of one of the following:

- *'Experts': database of experts with a minimum of the following information (areas of expertise, name, affiliation, contact details,) as provided by experts themselves. An online template will also be included to allow experts to newly add themselves to the list and update their profile.*
- *'Institutions': information on relevant institutions with a minimum (possibly more) of the following info (where they work, what they do). An online template will also be included to allow institutions to newly add themselves to the list and update their profile.*
- *'Announcements': information on relevant events as announced by organizers/users. An online template will be included to allow users to announce an event on this portal.*

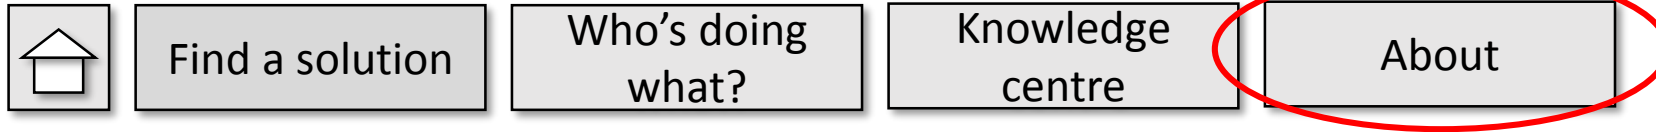

'Knowledge centre' page

By clicking the above buttons, this space will display one of the followings:

- *'Tutorials/stepwise guidance' will show textual description and/or visual tutorials on how to set up climate risk insurance schemes, as well as displaying general information on risk transfer and insurance. It will also show an archive of webinars, if any, conducted through the clearing house.*
- *'Case studies' will show a database of relevant case studies which can be narrowed down by using search filters. An online template will be included to allow users to contribute case studies.*
- *'Types of funding' will show a list and a short description to different types of funding available for financial risk management for addressing climate change impacts.*
- *'Addressing permanent losses' will show links to relevant research findings and literature.*

'About' page

The 'About' page will display the following:

- *WIM and the Excom-related information*
- *Mandate for the establishment of the clearing house*
- *Links to UNFCCC webpages*
- *Information on contributing partners*

List of potential contributors per blocks for main contents

Find a solution

- AXA Corporate Solutions;
